THERE CAN ONLY BE ONE

This book distils the essential truth from all 13 volumes of the Against Satanism Series and delivers the precise, practical method to destroy the Mind Virus inside you.

Foreword - Book Description with a dedicated section about the Thirteen -volume Against Satanism series:

There Can Only Be One

For over ten thousand years, a hidden network of Satanic bloodlines has waged a silent war against humanity — not primarily through armies or governments, but through the systematic implantation of energy blockages and parasitic subpersonalities into the human energy body.

These implants — collectively known as the Mind Virus — fragment the soul, drain spiritual energy, and keep individuals trapped in cycles of addiction, fear, trauma, and

unconscious behaviour. The highest levels of this control system no longer even require physical bodies. Operating from private universes on the astral plane, these Black Magicians harvest human spiritual energy on a massive scale to sustain their power.

Most people live their entire lives under the influence of dozens of conflicting subpersonalities — implanted "cuckoos" that have taken over the nest of the soul. This is not human nature. This is possession by design.

There Can Only Be One.

The Thirteen Volume Against Satanism Series

This book is the complete condensed truth from the explosive Thirteen volume Against Satanism series by Satchidanand. Across these volumes, the full scope of the control system is systematically exposed:

Volumes 1–2 reveal the ancient historical lineage of Satanic control from Babylon through the Roman Empire, Venice, and into the British Empire, including the deliberate corruption of philosophy (Plato vs Aristotle) and the creation of fake religions and controlled opposition.

Volumes 3–4 expose the core ritual technologies used for millennia — ritual sex, sodomy, pedophilia, and human sacrifice — and how these practices were used to create implanted, controllable agents

(including the case of Aleister Crowley as an MI6 asset).

Volume 5 reveals how the Principle of Poverty has been deliberately enforced through economics, debt, and engineered scarcity to keep humanity energetically weak.

Volumes 6–8 uncover the Phoenician/Venetian networks' infiltration of thrones, the forging of Catholicism, the creation of the Jesuits, and the long-term metastasis of this cancer into the modern Anglo-American Empire.

Volume 9 documents the systematic suppression of genuine science (including fusion power, free energy, and consciousness research) to prevent humanity from escaping energetic and technological slavery.

Volumes 10–11 expose the current endgame: Black Magicians operating from the astral plane, harvesting spiritual energy, and accelerating the transhumanist agenda.

Volume 12 details how intelligence agencies (MI6, CIA, Mossad) and secret societies (Jesuits) have used ritual abuse and sexual blackmail — from Aleister Crowley to the Epstein Empire — to place compromised individuals in positions of power.

Volume 13 reveals the final layer of control: The Mind Virus itself — the energetic implantation of subpersonalities and energy blockages that keep the soul fragmented and harvestable.

Together, these 13 volumes form one of the most comprehensive exposures of the Satanic control system ever written.

The Solution

However, exposure alone is not enough.

Energy Enhancement is the only meditation technology on Earth that systematically removes every energy blockage, dissolves every parasitic subpersonality, cuts the cords of energetic vampirism, and strengthens the real Soul until it becomes the sole master of your being.

This book distils the essential truth from all 13 volumes of the Against Satanism Series and delivers the

precise, practical method to destroy the Mind Virus inside you.
If you are ready to stop being harvested…

If you are ready to reclaim your spiritual energy…

If you are ready to stop living as a fragmented collection of implants…

If you are ready to become One…

Then the path is here.

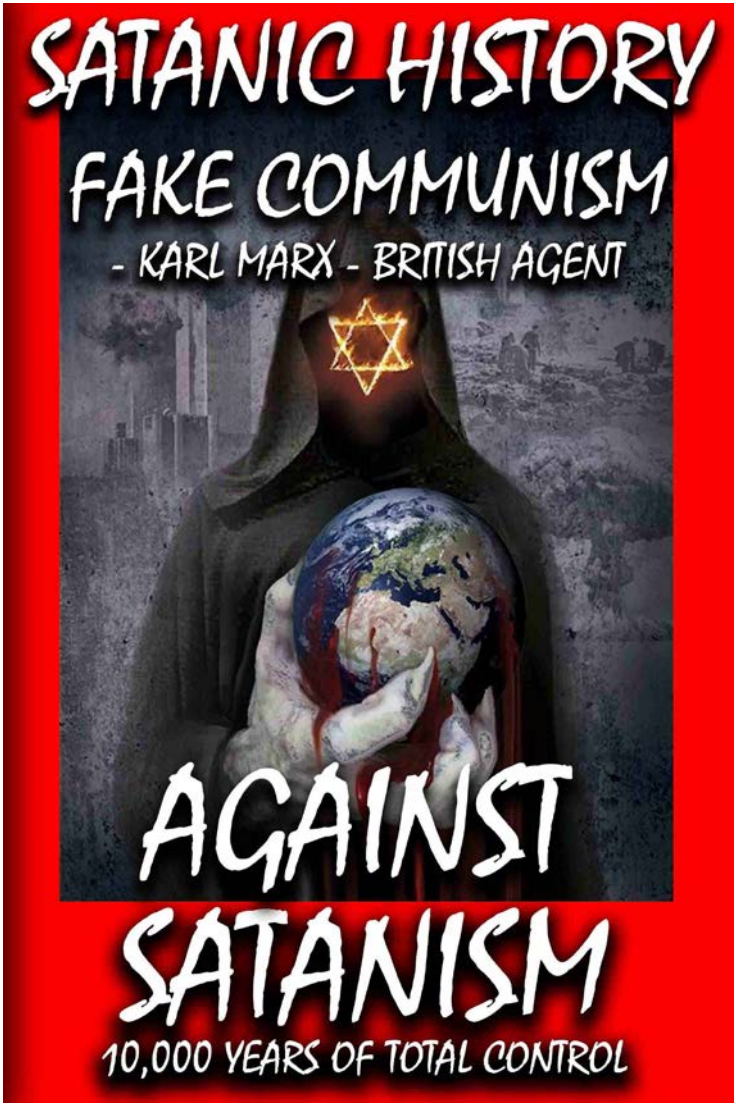
THE SATANIC HISTORY OF THE WORLD IN THIRTEEN VOLUMES BY SATCHIDANAND



Chapter 1: Against Satanism Volume 1

FAKE COMMUNISM – KARL MARX – BRITISH AGENT

Based on the Works of Swami Satchidanand

The Three Species and the Eternal Lineage of Satanic Psychopathic Control

Humanity stands at a crossroads. For tens of thousands of years, a hidden force has shaped our societies, religions, and destinies. This book, drawing from ancient wisdom and modern insight, reveals a dark vision: the world is not ruled by chance or democracy, but by a Satanic Psychopathic elite whose lineage stretches from the slave-trading, drug-running empires of Babylon, through the Roman Empire, the Venetian Empire, the British Empire, and into the current Anglo-American Establishment.

The Three Species of Humanity

The core revelation is the existence of three distinct species within humanity:

1. The Enlightened Species

These are individuals connected to the infinite chakras above the head, aligned with God, the Soul, and higher spiritual

energies. Through practices like Energy Enhancement meditation, they remove energy blockages, ground negative energies, and achieve illumination, empathy, and conscience. They represent the evolutionary path forward for humanity.

2. The Luciferian Species

Advanced beings who have learned to cut themselves off from God by implanting energy blockages in the chakras above the head. They live in private universes, downloading into weakened hosts (often their own bloodline descendants on their 21st birthday). They maintain power through control of energy, secret knowledge, and manipulation. Lucifer, the "Light Bringer," offers illumination cut off from the divine source, symbolized by the All-Seeing Eye and entities like Sauron in Tolkien's works.

3. The Satanic Psychopathic Species

The lower management of the elite system. Through degenerate rituals—including sexual excess, drug use, torture, and human sacrifice—they implant blockages in the heart (removing empathy) and above the head (removing conscience). This creates psychopaths who serve the Luciferian elite. Historical examples include figures like Stalin, Hitler, Mao, and modern operators in intelligence agencies, banking, and media. The goal is the "Principle of Poverty": destabilization, war, famine, and destruction of infrastructure to maintain control.

The Genetic Dimension: Conscious Bloodline Degeneration

A crucial and often overlooked aspect of the three species model is the role of deliberate genetic manipulation through interbreeding.

According to this teaching, the Luciferian and Satanic Psychopathic species have consciously maintained their separation from the Enlightened through thousands of years of strategic inbreeding within closed bloodlines.

This practice began long before ancient Egypt, where royal families institutionalized brother-sister marriages to concentrate power and degenerate the genetic and energetic structure of the bloodline.

This tradition of controlled interbreeding continued unbroken through the royal houses of Europe — most notably the Saxe-Coburg-Gotha dynasty (later rebranded as the House of Windsor) — and powerful banking families such as the Rothschilds. These interbred lineages carry a genetic predisposition toward psychopathy, reduced empathy, and greater receptivity to energy implants and possession.

Elite Atlantis-Phoenician bloodlines deliberately concentrate psychopathic traits through centuries of inbreeding — the Habsburg jaw as visible symptom.

Genetic Degeneracy as Gateway to Demon Possession (DPP) and Loosh Harvesting

Elite Atlantis-Phoenician Empire Black Nobility bloodlines deliberately engineer genetic degeneracy to create open doorways for demonic possession and the vampiric spiritual energy loosh farm.

Severe genetic degeneracy — especially the mutational overload from inbreeding, founder effects, chemical carcinogens, Mod-RNA – MRNA interventions, and Gnostic drug practices — creates the perfect neurological and energetic terrain for full demonic possession.

This turns high-functioning psychopaths into **Demon Possessed Persons (DPPs)** — empty vessels lacking conscience that ancient entities (succubi, incubi, Lilith-lineage demons, or full Archonic overlords) can download into and operate through.

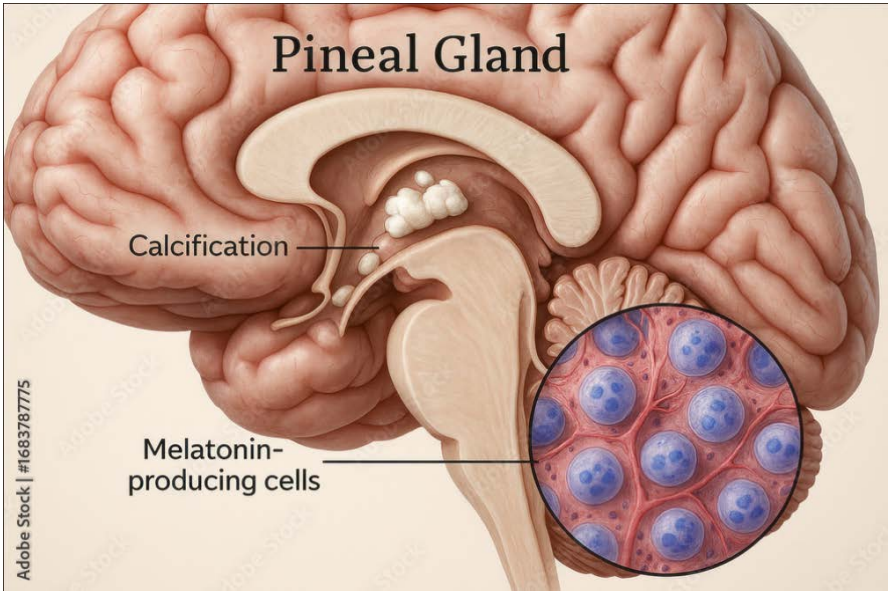
The genome does not lie. Damaged DNA produces damaged souls — perfect livestock for the vampiric spiritual energy loosh farm.

Neurological Damage as the Primary Gateway

The mechanisms are biological, energetic, and spiritual:

- **Prefrontal cortex deficits**: Impaired executive function, moral reasoning, and impulse control. Psychopaths and DPPs show reduced activity here — the seat of conscience and long-term planning.
- **Amygdala dysfunction**: Blunted fear response and empathy circuits. Normal humans feel revulsion at cruelty. DPPs feel nothing — or pleasure.
- **Pineal/third-eye calcification**: Blocked spiritual connection and intuition. The pineal gland, often called the “seat of the soul,” becomes a closed doorway when damaged by fluoride, heavy metals, chemicals, and drug abuse.

- **Genetic vulnerabilities and occult facilitation producing clusters of psychopathic traits in elites.**



Pineal/third-eye damage from Fluoride and inbreeding — blocked spiritual connection

When these neurological vulnerabilities combine with inbreeding (concentrating recessive faults) and chemical assaults (carcinogen DNA adducts, oxidative stress, epigenetic scars), the natural spiritual barriers collapse. The result is a compromised vessel — an empty husk ready for possession.

In stark contrast, the Enlightened Species are those who have preserved or actively restored genetic and energetic purity through spiritual discipline, ethical living, removal of energy blockages, and connection to the higher chakras. Their “pure genes” allow full access to conscience, empathy, creativity, and divine connection without the degenerative effects of multi-generational inbreeding and ritualistic implantation.

This genetic factor helps explain why certain families have held positions of global power across centuries while systematically resisting genuine spiritual evolution and the awakening of humanity.

The Ancient Lineage of Control

The Satanic Psychopathic empire is not new. It is the continuation of the same bloodline families and secret knowledge from:

Babylon: The origin of slave trading, drug running, and secret agent networks. The "Ten Myths which Control the World" were created here to maintain oligarchic control through ritual sex, drugs, and degenerate religion.

The Roman Empire: A direct continuation, with the same families managing divide-and-conquer strategies.

Venice: The critical metastasis point. After the Council of Florence (1439), Venetian oligarchs relocated their power to Holland and Britain. They created the Protestant Reformation (via agents Luther and Calvin), the Jesuits (with mind control techniques), and laid the groundwork for modern secret societies like Rosicrucianism and Freemasonry through agents like Francesco Zorzi.

The British Empire: The fullest expression of Venetian policy in the modern era. Lord Palmerston ("Old Pam"), the Satanic Psychopathic "Doge" of Britain in the mid-19th century, orchestrated a campaign to create a new worldwide Roman Empire centered in London.

Palmerston and His Three Satanic Psychopathic British Agents

Palmerston, bisexual occultist and head of the oligarchy, used three key agents to destabilize Europe and the world:

Giuseppe Mazzini: The terrorist zookeeper. Founder of "Young Italy" and similar "Young" nationalist groups across Europe (Young Poland, Young Germany, Young Russia, etc.). These groups promoted aggressive chauvinism, ethnic cleansing, and divide-and-conquer nationalism. Mazzini ran an assassination bureau and was responsible for countless destabilizations, always protected by British intelligence.

David Urquhart: The eccentric Scot who "went native" in Turkey. He promoted Russophobia and controlled Karl Marx, giving him an office in the British Museum to write "Das Kapital" as a tool to destabilize Russia. Urquhart is the true founder of modern communism as a British intelligence operation.

Napoleon III ("Napoleon le Petit"): Palmerston's strategic catamite and French puppet. Used to wage wars against Austria and Russia, and to support the Confederacy in the American Civil War. His regime exemplified the fusion of British and French power against rivals.

The Tools of Control: Bentham, Marx, and the Ideological War

Satanic Jeremy Bentham, stuffed and displayed his own gead body in a London pub, was the head of British Secret Services.

His "hedonistic calculus," Panopticon prison design, and promotion of usury, free trade, and sexual liberation (including pederasty, sodomy and bestiality) formed the philosophical basis of the empire. He and his followers (the Philosophical Radicals) created the intellectual weapons of the modern world.

Karl Marx was not a revolutionary hero but a British agent. His work was designed to create the conditions for

authoritarian dictatorships (Lenin, Stalin, Mao) that would kill hundreds of millions, destroy infrastructure, and reduce consciousness—all while serving the higher Satanic Psychopathic agenda.

The ideological battle is between Platonic idealism (Soul, God, chakras above the head) and Aristotelian empiricism (no God, only sense certainty). The latter was weaponized by Venice and Britain to create a materialist, degenerate culture.

Energy Blockages, Implants, and the Vampirization of Humanity

Central to the control system are energy implants and blockages. These include:

Sexual Addiction Implants: Used in ritual sex to channel orgasm energy back to the elite.

Drug Addiction Implants: The trillion-dollar drug trade (legal and illegal) dumbs down populations and generates black funds.

Heart Blockages: Remove empathy through degenerate rituals (BDSM, torture, sacrifice).

Above-the-Head Blockages: Cut off conscience and connection to God.

The result is a world of "Unmade Men"—psychopaths and energy vampires who serve the system unconsciously or consciously. Media, entertainment, and pornography act as slow-burn rituals to degenerate the population.

The Solution: Energy Enhancement Meditation

“There is a path” - Buddha.

Energy Enhancement provides the ancient yet advanced techniques to:

Ground and transmute negative energies and karma from this life and past lives.

Remove all energy blockages using the Seven Step Process.

Connect to the infinite chakras above the head (Soul, Monad, Logos, Sirius, Avatar of Synthesis).

Integrate soul splits and sub-personalities (the "Inner Children" and strategies like the Violator, Poor Me, Star, etc.).

Build the Antahkarana and achieve real enlightenment, not the false light of Lucifer.

As the book emphasizes: "There is a Path"—Energy Enhancement Meditation. The Agricultural Revolution took thousands of years, the Industrial hundreds, the Technological tens. The Spiritual Revolution is here now, and we have only an instant to act.

Conclusion: The Call to Awakening

The Satanic Psychopathic elite have managed the human herd for millennia through lies, division, and energetic vampirism.

Their tools—nationalism, communism, fascism, degenerate culture, and false Cult religion—have brought humanity to the brink. Yet the power to change the world lies within each individual through the removal of internal and external blockages.

This summarized introduction sets the stage for the detailed history that follows and, more importantly, for the practical techniques of Energy Enhancement that can transform not only the individual but the entire planet. The choice is clear: remain a slave to the system of implants and psychopathy, or step onto the path of true illumination.

These Evil Shadow Subpersonalities band together to take you over and repress the Soul infused Personality. They are then

Evil psychopaths and this is bad enough. But when these Evil Shadow taken over people band together into groups, Satanic Evil Religions, Bloodline Families and Bloodline Races, Secret Societies, Mind Control Cults, Cartels, Banksters - giving courses on how to repress further the soul infused personality - how to become even more Evil - then this is what and why I write in my Against Satanism series of Books - currently Thirteen volumes available for FREE!! when you sign up for the newsletter at energyenhancement.org .

Satanism is gradually being instituted as the New World Order.

The New World Religion, defined by Satanic Ritual.

72 Empires have been recorded and every one of them has failed in the same way. The facts have been recorded that a totalitarian and satanic elite infil-traitored and took over all these Empires and that 72 once free, flourishing and rich republics were destroyed from within by Satanic Ritual - read Toynbee. Satanism is gradually being instituted as the New World Religion defined by Satanic Ritual.

Infil-traition of Satanism is the methodology as slowly every Government Ministry and Societal function is taken over. Eventually a Satanist becomes King Emperor President. LGBTP - The Satanist Ritual Pillars of Homosexuality, Pederasty, Pedophilia, Drugs and Ritual Sex - both Hetero and Homosexual - are introduced overtly as a prelude to Ritual Human Sacrifice and Ritual Baby Sacrifice. Christianity and Judaism - the bulwarks Against Satanism - are destroyed and then society destroyed through the fear of mandatory Ritual Human Sacrifice.

For 10,000 years the whole of media, all world history, all information, has been censored, removed, distorted, perverted, so that the Truth, the whole truth and nothing but the truth can never be revealed.

As the Buddha said, "If I say something they won't understand it, if I write something it will be changed"

Satanic Phoenician Aristocratic Family Gatekeepers and paid Gatekeepers tell partial truths higher and higher up the intellectual ladder so the real truth can never be known.

I have been disturbed for some time by the reports of historians who say what happened and that the cause was Jews, Fascism or Communism or Capitalism, but with no research into the cause behind them.

How it came to be. Who is in charge of it!

The Sabbatean/Frankists 10,000 Year Satanic 2000 Trillion Dollar Rothschild Atlantis-Phoenician Empire Mega Trillionaires who have controlled humanity for 10,000 years developed a technique of spiritual vampirism, a Transhumanism to suck all the energy of humanity so they

could take that energy into their reservoirs and use that energy to live forever out of the body.

How Demon-Possessed Satanist Khazar-Rothschild Inbreeding and Mod-RNA Injection Genetic Sabotage Created a Planet Ruled by Psychopaths

This Genetic Assault degenerated Genes are the cause of the creation of degenerate Psychopaths with no compassion, no conscience, no empathy. The psychopathocratic endgame is a vampiric spiritual energy loosh farm.

They created the Religion of Satanism 10,000 years ago to institutionalise that vampirism in their evil Rituals, then also used their Mind Control Cults and Rituals to tightly control their adherants in their secret societies, to richly reward their worshippers, so that their worshippers of Satan would work to dumb down humanity secretly, permanently, so that the vampirisation of their energy could continue eternally without any pushback from the populace.

THE REAL THING!!

FROM DON MINIHANES COURSE REPORT - LAST WEEK OF ENERGY ENHANCEMENT REIKI MASTERY OPTION

"I am now in the last week of the course and I feel like a totally different person. I have regained myself and have been given from nothing having no psychic vision at all at the start of the energy enhancement course, a clarity of psychic vision that is breathtaking."

"As we practiced on each other we came very quickly to realise this. I could literally feel the energy moving inside each chakra as the other person worked within me from several meters away and when I worked on the other person I could see me projecting energy to them and could see where the blockages were within their chakras.

I could force the energy from my centres into their centres and clean their centre bringing the energy full circle back to me. You could tell the state of their chakras by the amount of energy returning to your own centre and this was achieved by mind power only.

Before I came here Satchi said he would teach me to do it in this way and I was sceptical about this claim. I could never envision me having psychic vision, but I have now, I can now do astonishingly powerful Reiki sessions on people without going any where near them and distance healing over any distance is a piece of cake, incredible stuff."

"I am totally de-stressed and have expanded in every way. I feel stronger and fitter and much more mentally agile than I have ever felt in my life. The fog and confusion of life has gone and I feel that I have just received the inside information on everything.

I am ready for anything and am wide awake. I am full of the most incredible energy imaginable and have Energy Enhancement Reiki that is so powerful it staggers me. I know a thing or two about Reiki and had a very strong Reiki connection before I got here, now I have a connection that is beyond description and I have yet to undergo the second initiation this week and then the masters. I have opted to take this as an extra and for anyone who is interested, I believe this is beyond anything you will ever experienced anywhere."

I am now equipped with life tools and healing tools that one only dreams of and there is nothing out there in the world that will ever faze me again. I am absolutely delighted that I decided to come here, because this experience has changed me, for the good of me and for all those that I will touch when I leave here. I am so excited and can't wait to start exploring my new found talents"

All the students experienced Psychic Vision as they Powered Up their Energy Bodies through connection with the chakras in the Center of the Earth and in the Center of the Universe. All of them saw their psychic bodies and the Energy Blockages which inhabited them. Every student had the experience of removing said Energy Blockages - removing and discharging their Negative Karmic Mass and integrating the purified remains with the Soul Chakra, coating the Higher Being Bodies and creating the Body Kesdjian.

Older Students had the experience of working with the Ego. All students reading this missive are the Outpatients. Those who come are the Inpatients for the Operation of the Egodectomy!!

As we charcterise our Sub-Personalities of the Ego - it is that vast Mass of Energy Blockages which comprise the Selfish Competitive Ego - so we can ground even the deepest blockage, purify our Egoistic Self Destructors who rule our madness from Lifetime to Lifetime, create the Vajra Diamond Body (EE LEVEL 5) which alone can survive the Death process as an Ascended Master..

Chapter 2: Against Satanism Volume 2

SATANIC PHILOSOPHY - EUGENIC FASCIST PLATO AND NO-SOUL ARISTOTLE..

The One Ring of Gyges – Plato's Warning and the Eternal War Between the Philosophies of Soul and No-Soul

Building directly upon the genetic and historical foundations laid in Chapter 1, we now turn to the philosophical and occult core of the Satanic control system.

The ancient battle between two opposing worldviews—one that honors the Soul, the Heart, and Divine Justice, and another that denies the Soul, elevates raw power, and uses concealment and ritual to dominate humanity—has shaped every empire from Babylon to the present Anglo-American Establishment.

This chapter reveals how Plato himself exposed the Satanic methodology in his famous parable of the Ring of Gyges, and how the Aristotelian faction has used that same methodology for over two thousand years to maintain Luciferian Oligarchic rule.

The Ring of Gyges: From Plato's Republic to Tolkien's One Ring

In Plato's *Republic*, the character Glaucon tells the story of the Ring of Gyges. A shepherd finds a golden ring that grants

invisibility. Using its power, he seduces the queen, murders the king, and seizes the throne—knowing he will never be

discovered or punished. Glaucon uses this tale to argue that justice is only practiced reluctantly, out of fear of punishment. If one could act with perfect concealment, everyone would choose injustice.

J.R.R. Tolkien took this ancient parable and transformed it. In *The Hobbit*, Bilbo Baggins finds a simple ring of invisibility—useful for burgling treasure from a dragon. But in *The Lord of the Rings*, Tolkien reveals the deeper truth: "And into this ring he poured all his cruelty, his malice and his will to dominate all life." This is the critical difference. The simple Ring of Gyges grants invisibility for personal gain. The One Ring of Sauron (Satan) is infused with the concentrated energy of cruelty, trauma, and the will to dominate. It is a vessel for what Energy Enhancement calls **Trauma-Formed Negative Karmic Mass**—the psychic fuel extracted from ritual human sacrifice, used by the Satanic elite for tens of thousands of years.

This is the exact mechanism described throughout the Against Satanism series: Ritual human sacrifice—whether in ancient Babylon, the Roman Empire, Venetian oligarchies, British imperial wars, or modern elite networks—generates the negative psychic energy that powers the "One Ring" of global control. The concealment of wickedness is the primary function of this ring. All the money spent by Satanic oligarchs on media ownership (CNN, MSNBC, Fox, Washington Post, New York Times), think-tanks (Council on Foreign Relations, Bilderberg, Davos), secret services (CIA, MI6, Mossad), and political bribery serves one purpose: **THE CONCEALMENT OF WICKEDNESS**.

The Three Satanic Arguments Against Justice

In Plato's *Republic*, three characters present powerful arguments against justice—arguments that have been used by the Satanic Aristotelian faction for millennia:

1. Thrasymachus – "Might is Right"

The Sophist Thrasymachus argues that justice is whatever benefits the stronger party. Terms like "justice" and "right" are relative. The powerful decide what justice is. This is the pure Satanic philosophy of raw power without conscience—exactly the worldview of the interbred bloodline families who see themselves as natural rulers over "inferior" genetic stock.

2. Glaucon – The Ring of Invisibility and Concealment

Glaucon uses the Ring of Gyges to prove that people are only just because they fear punishment. With perfect concealment, even the most "just" person would act unjustly. This directly justifies the creation of secret societies, hidden networks, and the policy of total concealment that defines Satanic control to this day.

3. Adeimantus – Appearance Tyrannizes Over Truth

Adeimantus goes further. He argues that since appearance (not truth) rules happiness, one should create a false image of virtue while secretly practicing vice. Establish secret societies and political clubs to make unlawful gains without punishment. Perform ritual human sacrifices and offerings to propitiate the gods so they will not punish injustice. If the gods can be bought off with blood and ritual, then the wicked can rule without consequence.

These three arguments together form the complete Satanic operating manual: **Power without limit + Perfect concealment + Ritual propitiation through human sacrifice**.

This is the exact system exposed in Volume 1 through Palmerston, Mazzini, Urquhart, and Napoleon III—and continued in modern form through the Anglo-American Establishment.

Socrates, Plato, and the Defense of the Soul and MAAT

Against these Satanic arguments, Socrates (as presented by Plato) defends justice as inherently good for the soul. Justice is the harmony of the soul's parts—reason, spirit, and appetite—each fulfilling its proper function. Injustice is the tyranny of one part over the others, leading to internal chaos and eventual self-destruction.

Crucially, Socrates introduces the Egyptian Goddess **MAAT**—the ancient embodiment of Justice, Balance, Order, and Righteousness—into Greek philosophy. MAAT was not merely an abstract concept but a living divine principle. The trial and execution of Socrates for "impiety" (introducing new gods) was in reality a Satanic political hit job by the Aristotelian faction, terrified that the higher teachings of the Soul and Divine Justice were gaining ground.

Plato himself, while brilliant in intellect and intuition, is described in the Against Satanism series as "**No Heart Plato**"—a Kabbalist Eugenicist who lacked the full Opening of the Heart initiation.

He understood the Soul intellectually but had not yet undergone the heart transformation that Jesus Christ would later bring to the world.

This is why Platonic philosophy, while superior to Aristotelianism, still contains dangerous eugenic, Fascist and totalitarian elements that the Luciferian elite have exploited for centuries.

Aristotle: The "No Soul" Infiltrator and the Assassinator of Alexander

Aristotle, by contrast, is labeled "**No Soul Aristotle**"—a materialist who denied the immortal soul and reduced all reality to matter and form. He infiltrated Plato's Academy, corrupted its teachings from within, and played a key role in

the assassination of Philip of Macedon and, more importantly, Alexander the Great.

Alexander represented the Platonic ideal in action: the spread of higher culture, the synthesis of East and West, and the potential for a new enlightened humanity. His murder by Aristotelian agents (poison, according to ancient sources) was a deliberate strike against the Soul tradition.

Aristotle's philosophy then became the intellectual foundation for the Satanic control system: denial of the soul, justification of slavery and hierarchy, and the use of "reason" as a tool of elite domination.

Aristocrats – Rule by Aristotle

This is the same Aristotelian faction that later infiltrated the Venetian oligarchy, took over England through the House of Orange and the creation of Freemasonry, established the Royal Society as a vehicle for scientific materialism, and continues today through the Black Guelph monarchies, the City of London, and their American proxies.

The Genetic Dimension: Why Bloodline Interbreeding Creates Receptivity to Satanic Implants

As established in Chapter 1, the separation between the three species—Enlightened, Luciferian, and Satanic Psychopathic—is not merely philosophical or educational.

It is consciously maintained through **deliberate genetic degeneration** via strategic interbreeding within the Atlantis-Phoenician Black Nobility over thousands of years.

From the brother-sister marriages of the ancient Egyptian royal lines (and earlier Babylonian and pre-Egyptian dynasties), through the incestuous practices of the Roman imperial families, the Venetian oligarchs, the Saxe-Coburg-Gotha dynasty (later House of Windsor), and the Rothschild banking bloodlines—the Luciferian elite have practiced

conscious genetic narrowing. This interbreeding produces physical and psychic weaknesses: increased susceptibility to energy implants, greater difficulty in opening the heart, reduced empathy, and a genetic predisposition toward psychopathy and possession by lower astral entities.

Psychopathocracy – Rule by Psychopaths

The Satanic Psychopathic managers (lower-level ritual practitioners) are often the most genetically compromised—highly receptive to trauma-formed negative karmic mass and the "One Ring" energy of cruelty.

The Luciferian elite above them maintain slightly "purer" but still degenerated lines sufficient for higher-level control.

Only the Enlightened species—those who have preserved or restored genetic and energetic purity through spiritual practice, ethical living, and Energy Enhancement work—remain resistant to these implants and capable of true heart opening and soul fusion.

This is why the Satanic system must constantly attack genuine spirituality, natural health, clean food, and higher consciousness: these restore the very genetic and energetic integrity that makes humanity uncontrollable – Soul Infused!

The Venetian Aristotelian Takeover and the "Secret Knowledge"

After the fall of the Roman Empire, the Aristotelian faction regrouped in Venice—the new Babylon on the lagoons. From there they launched a systematic cultural warfare campaign against the Renaissance and the re-emergence of Platonic/Neoplatonic knowledge.

They created fake "reforms," infiltrated universities, established the Royal Society in England as a vehicle for materialist science, and turned Freemasonry from a potential vehicle of enlightenment into a hierarchical control structure.

The inner elites possess what the Against Satanism series calls the "**Secret Knowledge**" passed on to them from their Atlantis-Phoenician Black Nobility Families from times before Atlantis—a practical understanding of Science, Technology, energy, consciousness, psychic vampire implants, and the manipulation of mass psychology that is deliberately withheld from the public and even from most lower-level initiates.

Public universities teach a sanitized, mythologized version of history and philosophy designed to keep the masses at the level of simple belief or mere understanding, never reaching the level of reason or direct spiritual perception.

Karl Marx, despite his genuine contributions, never accessed this full secret knowledge. He was used by British intelligence (via Urquhart and Engels) to create a false polarity—Communism vs Capitalism—that would generate endless conflict and ultimately serve the descent into feudalism.

Even Marxism remains trapped within the Aristotelian framework of materialism and fails to address the deeper energetic and spiritual war.

The True Solution: Energy Enhancement and the Three Initiations

Against this ancient machinery of concealment, power, and ritual sacrifice, there is only one effective response: the systematic removal of energy blockages and the Opening of the Heart. As taught in the Energy Enhancement system:

1. **The Opening of the Heart** – The first true initiation.
2. Before this, relationships are transactional or vampiric ("We don't want partners, we want victims" – Marquis de Sade). After the heart begins to open, one gains the capacity for genuine compassion, discernment, and "implacable opposition to Absolute Evil." This is not a technique but a gift that comes with sufficient evolution and energetic purification.

2. The Mastery of Relationships – Learning to navigate the different evolutionary types without being drained or manipulated. This takes many lifetimes to perfect but is dramatically accelerated through Energy Enhancement techniques.

3. Enlightenment – Soul Fusion – The fusion of the purified personality with the Soul chakra above the head, followed by higher fusions with the Monad, Logos, Sirius, and the Avatar of Synthesis. This is the true "stairway to heaven" that renders all Satanic implants and control systems powerless.

The Energy Enhancement Seven Step Process directly addresses the Trauma-Formed Negative Karmic Mass generated by ritual sacrifice—the very fuel of the One Ring.

By grounding and transmuting these blockages, removing energy connections to vampiric entities, and building the Antahkarana (the column of energy connecting Earth to Heaven), the practitioner becomes immune to the concealment tactics of the Satanic elite and begins to actively transmute the darkness on the planet.

Conclusion: From Knowledge to Power

The philosophical war between Plato and Aristotle is not an academic debate. It is the ongoing struggle between those who honor the immortal Soul and the Heart of Divine Justice (MAAT), and those who deny the soul, practice concealment, and feed on ritual trauma to maintain Luciferian Oligarchic control.

The genetic degeneration of the ruling bloodlines through millennia of strategic interbreeding has made them increasingly dependent on energetic vampire implants and increasingly vulnerable to higher spiritual forces.

Intellectual knowledge of this history is useful but insufficient.

As the Against Satanism series repeatedly emphasizes, only direct energetic practice—Energy Enhancement meditation—

can remove the blockages, open the heart, fuse with the soul, and give humanity the power to break the One Ring's hold forever.

The battle of Armageddon is won not by more information, but by sufficient Angels armed with the Light of purified consciousness.

"Be an Angel. Get Tooled Up and Ready with the Energy Enhancement Video Course."

In the next chapter, we will examine the practical mechanisms of mind control, eugenics, and the modern Satanic infrastructure that continues this ancient war into the twenty-first century—and how Energy Enhancement provides the precise tools to dismantle it from within..

ENERGY ENHANCEMENT STUDENT REPORT

Next, I came across a particularly stubborn blockage to remove, and knew that I would have to prepare myself well during meditation. I consciously sourced as much energy from above to flow through my body, and in doing so, rather than my body being filled with golden light, I had somehow tapped into an immense source of white light. As well as feeling this increased energy stream through my body, I realised I had involuntarily suspended breathing somewhere near the top of an in breath. My body felt like a beacon of light, with more than enough energy to direct toward a blockage and watch it dissolve in an instant.

Since that time I am always connected to and able to source the white light from above my head. Many times during this process I just forget to breathe as though my breathing is just naturally suspended. I am now living in the Light!!

My energies are naturally far higher than when I arrived on the Energy Enhancement course just two weeks ago. I am experiencing the fruits of meditation which normally arrive, if they do, after twenty years of meditation and it has only taken me two weeks.

This is the first meditation course I have been on. I have an injured knee from a few months ago in a motor cycle accident, yet the knee is now healed of its blockages and of its pain here on the Energy Enhancement Course and I am sitting in meditation for more than three hours a day, on the ground in the easy meditation posture, here in the light and working on more of my deep internal blockages.

Truly, perhaps Enlightenment is next!!

A few days ago Satchidanand was glowing such that Anna could not look at him. She said she needed sunglasses.

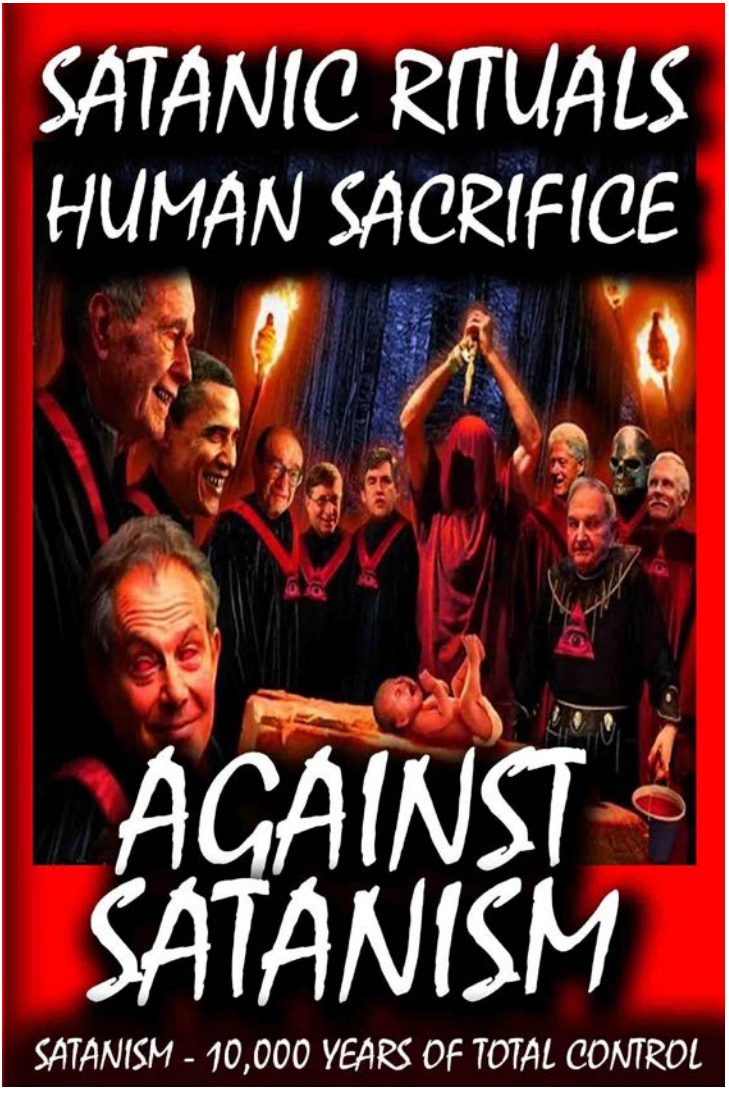
Chapter 3 – AGAINST SATANISM VOLUME 3 – Satanic Rituals Define Satanism



Satanic Rituals: The Technology of Trauma-Formed Negative Karmic Mass and the Conscious Degeneration of Humanity

In the previous chapter we examined Plato's warning about the Ring of Gyges – the power of invisibility and concealment – and how it was weaponised by the Satanic Aristotelian faction into the One Ring of Power described by Tolkien: "into this ring he poured all his cruelty, his malice and his will to dominate all life."

This chapter reveals the precise technology that fills that ring with power. For over ten thousand years, a consciously organised Satanic cult has used specific rituals – not as mere superstition, but as a precise energetic science – to generate vast quantities of what Energy Enhancement calls Trauma-Formed Negative Karmic Mass. This dark energy is the true fuel of the global oligarchy.

The Core Rituals That Define Satanism

Satanism is not a vague philosophical position. It is defined by a precise set of rituals that have remained remarkably consistent across every civilisation that has been infil-traitored and destroyed from within:

• **Loveless Ritual Sex and Sodomy** – The deliberate separation of sex from love in order to create energetic cords and implant blockages that vampirise life force.

• **Pedophilia and Ritual Child Abuse** – The targeting of the most innocent to generate the purest trauma energy and to create dissociative mind-control slaves.

• **Ritual Blood Sacrifice and Human Sacrifice** – The deliberate creation of extreme trauma at the moment of death to harvest the released life force.

• **Ritual Torture, Burning Alive, and Cannibalism** – Methods to maximise suffering and to literally consume the energy of the victim.

• **Ritual Castration** – The ancient practice seen in the Cult of Cybele and Attis, later morphed into certain Catholic priesthoods (the Galli), designed to create trauma-formed obedience and energetic inversion. Now the Trans women and Trans men use castration to, "change sex" but really, they are just following the Satanic Castration Rituals of Cybele and Attis.

• **Ritual Drugs** – Used to open the victim to possession and to create addiction implants that bind the participant to the cult for life.

These are not random acts of depravity. They are a precise technology for the creation of what the book calls "Trauma-Formed Negative Karmic Mass" – the concentrated suffering energy that powers the One Ring and allows the elite to maintain control over vast populations with relatively small numbers.

Fake Gangs and Fake Religious Mind Control Cults: The Method of Infiltration and Takeover

Every empire that has fallen followed the same pattern. A Satanic elite infil-traitors key institutions – religion, politics, military, education, banking – using "Fake Gangs": controlled opposition groups that appear to be enemies but are actually working for the same hidden hand.

Examples documented in this volume include:

• The creation of Wahhabism in 1706 by British Secret Services (via agent Hempher) and its institutionalisation in Saudi Arabia by Lawrence of Arabia to create controlled Jihadi armies (ISIS, Al Qaeda, Taliban).

• The deliberate creation of Protestantism by Venetian Cardinal Contarini through his agent Martin Luther to split and weaken the Catholic Church.

• The Satanic Franks and Pippins forging Catholic history to create the Catholic Church and installing their own brother as

Pope after being excommunicated by Constantinople – so as to enable their family – Charlemagne - to be Emperor of Europe..

• Eton College (founded 1440) deliberately creating a class of fierce homosexual pedophile warriors modelled on Sparta and the Band ofThebes gay pedo warriors.

• Satanic 33rd Degree Freemasonry and the Ordo Templi Orientis (OTO) as recruiting and ritual mechanisms for the Luciferian elite.

• Sabbatean Frankism as the infiltration vehicle into Jewish communities, producing figures such as the Rothschilds, Rockefellers, and Kemal Atatürk.

• Karl Marx, given an office in the British Museum by Ambassador Urquhart (MI6 handler) to write Das Kapital – creating the controlled opposition of Communism that would murder over 100 million people while serving the same oligarchic interests.

The Genetic Dimension: Conscious Bloodline Gene Degeneration to consciously create Rule by Psychopaths

As established in Chapter 1, the separation between the three species of humanity is not accidental. It is consciously maintained through deliberate genetic degeneration via strategic interbreeding over thousands of years.

From the brother-sister marriages of the Egyptian royal families, through the incestuous practices of the Babylonian and Roman elites, to the documented close intermarriage of the Saxe-Coburg-Gotha dynasty (later House of Windsor) and the Rothschild banking families, these bloodlines have consciously concentrated genetic traits that make their members more receptive to Satanic possession, more lacking in empathy, and more able to perform or tolerate the extreme rituals described above.

The result is a ruling class with a higher statistical incidence of psychopathy and a greater capacity to host the energetic implants and entities that feed on trauma energy.

In contrast, the Enlightened species – those who have preserved or restored "pure genes" through spiritual practice, ethical living, and the removal of energy blockages – remain resistant to this form of control.

Modern Examples: The UK Establishment and Beyond

The volume provides extensive documentation of how these rituals operate within modern Western institutions. The cases of Jimmy Savile, the Islington children's homes scandal, the connections to high-ranking Labour Party figures (Harriet Harman, Patricia Hewitt, Margaret Hodge), and the protection afforded to networks operating at the highest levels of government and intelligence services are presented as evidence that the same Satanic technology continues to be used for blackmail, control, and the generation of trauma energy in the present day.

Epstein was head of the Trilateral Commision, Represented the Rothschilds, was a pedophile and worked for the CIA, MI6 and Mossad to incriminate and blackmail congress, oligarchs and heads of corporations – the Epstein Empire.

The claim is made that these networks are not isolated aberrations but part of a continuous 10,000-year-old system that has infil-traitored every major civilisation from Babylon to the present Anglo-American Establishment.

The Purpose: Degeneration, the Principle of Poverty, and the One Ring

All of these rituals serve a single ultimate purpose: the conscious degeneration of humanity. By normalising perversion, destroying the family unit, promoting drugs, and creating widespread trauma, the Satanic elite seeks to ensure that the population remains energetically weak, disconnected

from higher chakras, and incapable of mounting effective resistance.

This is the practical application of the “Principle of Poverty” first articulated by Aristotle and continued by the Venetian and British oligarchies: keep the masses poor in spirit, poor in knowledge, and poor in life force, while the elite harvest the resulting energy through the One Ring technology.

EPSTEIN CIA, MOSSAD AND MI6 BLACKMAIL AND SHAME KEEP THE SATAN WORSHIPPERS IN LINE TO DUMB DOWN AND DEGENERATE HUMANITY SO IT CAN NOT FIGHT BACK...

72 Empires have been recorded over 10,000 years and every one of them has failed in the same way. The facts have been recorded that a totalitarian and satanic elite infil-traitored and took over all these Empires and that 72 once free, flourishing and rich republics were destroyed from within by Satanic Ritual - read Toynbee.

Infil-traition of Satanism is the methodology as slowly every Government Ministry and Societal function is taken over. Eventually a Satanist becomes King Emperor President. LGBTP - The Satanist Ritual Pillars of Homosexuality, Sodomy, Pederasty, Drugs and Ritual Sex - both Hetero and Homosexual - are introduced overtly as Wokeness ESG, the Corporate Equality Index, as a prelude to Ritual Human Sacrifice.

Christianity and Judaism - the bulwarks Against Satanism - are destroyed and then society destroyed through the fear of mandatory Ritual Human Sacrifice.

The Ancient Enemy who counts meditation and the mind control psychic arts as one of its main planks of World Domination has used Satanic Infil-Traitors for 10,000 years in every Organisation - Religion, Left and Right Politics, Dynastic Families, Geopolitics, Economics, Universities, Intelligence Services, Think Tanks, Banking, Facebook, Twitter, International Companies, Vatican, Transhumanism, CRISPR Androids, Eugenics..

Sodomy and the Sodomy Ritual is at the heart of Satanism.

Bottom on bottom, 8 or 33 represents the Vitruvian man. The occultist da Vinci's Vitruvian Man really depicts the buggery of the anterior man by the posterior man, the apex of Satanic Luciferian 33rd Degree Masonry or final "Mystery of Mysteries" of the secret societies as explicated by Walter Veith (to open their "Third Eye."). The reign of the AntiChrist will be marked as the sodomite king of the world..

The drawing together of a "Band of Thebes" British Aristocracy was particularly prized and brought about by the public school system started by Henry VI in 1440 at Eton but franchised to all schools very quickly. A hidden world drawn together by Pedophilic, Sodomy Ritual, homosexual warriors - the Heart of the Satanic British Empire - further, "Homosexuality follows Satanism like a stench"

Nicole Kidman: ‘Stanley Kubrick Said Pedophiles Run The World’

“Stanley told me the world is run by pedophiles,” Nicole Kidman said while promoting HBO’s Big Little Lies, in Los Angeles. “He studied secret societies his whole life, he was fascinated by them, and he said the elite, the top secret societies, they are full of men with a certain predilection. They are tied together, sort of bonded, by pedophilia like the ”Pact of Blood” where the Mafia entrants have to kill someone in order to join, these guys have to pedophile and human sacrifice like Epstein’s Pedo Island and the Lolita Jet - “They all know each other’s dark secrets. There is no way out for any of them. It’s a lifetime bond. Even if one of them wanted to go straight, repent, so to speak, he can’t. His peers will bring him down. They are in it until death, driving the world to ruin. That’s kind of how Stanley explained it but it was all very complex. I’m probably not doing it justice.”

https://satchidanand.substack.com/p/pg-wodehouse-and-british-empire-ritual

Thus in order to destroy free will, and institute total control over humanity, Satanism over 10,000 years has instituted Sodomy Rituals and pedophilia to control the upper levels of society by the use of institutions of public schools like, "Whipping and Fagging" all boys schools like Eton - founded as a mind control institution in 1438 by the King - where the Sodomy rape ritual sorted the boys into the Prussian Frederick the Great aggressive masculine homosexual rapine Penetrators, perpitrators, as in the 3000 years old Phoenician Colony of Thebes in Ancient Greece the "Band of Thebes" particularly successful Army of Gay Lovers, and the weak effeminate homosexual slaves or women or young boys.

BDSM Masters and Slaves.

All successful Generals, Politicians, Psychiatrists like Freud and Jung, Priests, Presstitutes, Policemen, Professors came

out of this background which then when refined by the Satanic Sodomy Ritual Secret Societies - the foundation of elite mind control for centuries - the 33rd Degree Freemasons, the Jesuits, the Illuminati and hundreds more - all based on the Mind Control Sodomy Ritual and Pedophilia supplied by Renfields like Jimmy Savile for the elite Draculas.

Remember, the purpose behind Satanism is total control of society by mind control, perversion and poison to dumm down humanity so they can be vampirised of their spiritual energy eternally because if humanity is allowed to evolve, to learn how to heal the mind, to psychically dissolve all these hundreds of lifetimes of mind control programs in the psychic body, the vampires can no longer exist!

The key is that the Satanic Religion and it's current recruiting cults of Sodomy Ritual 33rd Degree Freemasonry, the Illuminati, Jesuits, Sabbatean Frankism, and the Crowlean Sexual Sodomy Ritual OTO - Ordo Templi Orientis, Yale Skull and Bones, Bohemian Grove - are Fake Gangs, created by men as a 10,000 years old technique to create psychopathic leaders and their minions, and thus conquer the world by constantly degenerating humanity into Orcs.

All Rituals, Religions, Education, Secret Services and Political Movements have been scientifically Engineered to create Fake Gangs for 10,000 years. It's what the old Roman Empire, The Babylonian Empire of Satanic Nimrod, and the Cult of Apollo and the Byzantine Empire did before.

As you know, every Gang has Blackmail Rituals before you can join. Making your Bones with the Mafia means you must murder someone before you can join. Drug Cartels like MS13, secret groups within the Masons, the Illuminati, Sabbatean Frankists, OTO, the Hellfire Club, all have their Human Sacrifice, Pedophilia and Sodomy Rituals before you can progress.

Epstein did not kill himself. He videoed Scientists from MIT and Harvard, Oligarchs, Politicians etc, Pedophiling young girls then Blackmailed them into doing the work of his Trillionaire sponsors - MKULTRA, Transhumanism, CRISPR Androids. As their willing victims are given access to stealing higher quantities of money, so they must go to the next level of Ritual. First it is 15 year old girls who look 25. Then it's 12 year olds, 5 year olds, and then its the murder of children, babies!

Since the Band of Thebes of fierce homosexual warriors, sodomy rituals bind together that Band of Brothers at the head of Military Organisations Worldwide, NATO, AZOV Battalion, the SS, American and British Army and Navy...

The very word secrecy is repugnant in a free and open society; and we are as a people inherently and historically opposed to secret societies, to secret oaths and to secret proceedings. For we are opposed around the world by a monolithic and ruthless conspiracy that relies primarily on covert means for expanding its sphere of influence on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day. It is a system which has conscripted vast human and

material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.

What We See when we Remove an Energy Blockage is the Secret of Infinite Energy, Secret of Eternal Life, the Secret of Immortality. Energy Blockages are Satanic, and it is this we see directly when we remove the blockages with the Energy Enhancement Meditation Course..

Energy Blockages do not exist alone, they are part of a network of evil, a network of control, which is designed not to allow people to understand the nature of that control, the purpose of that control, so as to maintain that control and the flow of energy - stolen from all human beings - to allow an elite of Black magicians, Sorcerers, Enchanters, Warlocks, Witches, Necromancers, Devils, Dark Gods... to live forever, Immortally, in private Universes, outside the body and then to download into a body from time to time, to maintain their Plantation, their Farm, their Property, to maintain the flow of stolen spiritual energy to them from every human being on this planet - Eternally. Only Energy Enhancement can Annihilate Evil on Earth and change this Planet into a Planet of Love and Light in this Place, for You, for Me, for the Entire Human Race.

The Only Effective Counter: Energy Enhancement

Intellectual knowledge of this history, while instructive, is ultimately insufficient. As the volume repeatedly emphasises, the only technology capable of directly addressing the energetic reality created by these rituals is Energy Enhancement meditation.

Through the Seven Step Process, practitioners can:

• Ground and transmute Trauma-Formed Negative Karmic Mass

• Remove the energetic implants and cords created by ritual abuse

• Heal and integrate sub-personalities and soul splits caused by trauma

• Build the Antahkarana and reconnect with higher chakras (Soul, Monad, Logos, Sirius, Avatar of Synthesis)

• Dissolve the very energy that powers the One Ring

The book concludes that only by systematically removing these blockages – both within ourselves and, eventually, within the planetary energy field – can humanity escape the endless wheel of degeneration and control that has lasted for ten thousand years.

In the next chapter we will examine how this same Satanic technology has been applied to the deliberate dumbing-down of education, the creation of the Frankfurt School's cultural Marxism, and the ongoing war against the human soul through media, drugs, and the sexualisation of children.

This book contains esoterical spiritual movie reviews on the following big films: American Beauty, Apocalypse Now, King Kong, Dark Knight, Revenge of the Sith and more. It shows why the films were so successful, how/why they were touched by God. The author has sat with Swami Satchitananda and Zen Master Hogen each for at least a year, and has brushed shoulders with serious meditation enthusiasts.

There are articles on healing the inner child, past life trauma, karma, and other blocks stopping you an aspirant from reaching enlightenment.

I loved the energy of the stories about Ramakrishna in this book. If you loved Sri Sathya Sai baba's autobiography and Swami Satchidanandas commentary of the Yoga Sutras of Patanjali this is a great book for you. Some pages contain reflections of other enlightened master's commentary on it. I like how this author makes important yogi's teachings more down to earth. I like the master-student tales in this book.

I'm now positively addicted to Gurdjieff's teachings and will now seek more of his work. Gurdjieff's meditation student, Frank L Baum wrote Wizard of Oz. I learnt that from this book.

There's a mixture of information in this book. There are testimonies from the author's meditation course, text on alien power constructs - is your soul alien? a nice chapter on 'why you're so poor in this lifetime' - great for the Law of Attraction crowd, fresh reflections on relationship interactions (personal and social), an interview between the author and the writer of an Enlightenment magazine e.g. one question is, "what do you mean by the ego?", there's a funny telecom-customer joke on how to download and install love into the heart, refreshing perspectives on legendary stories on Hercules, the minotaur in the Labyrinth etc. It's a nice experiment to hold the book and notice how much energy it has, this energy is from the author's aura who is fused to the Avatar of Synthesis chakra. See the antahkarana diagram on his website [...] and learn more at his youtube channel [...] . There's some rare info about chakras above the head and how to receive energy from them. The information Swami Satchidanand has to offer is not info you'll find anywhere else in the meditation, kundalini, new age scene, so read it and leave your review :D

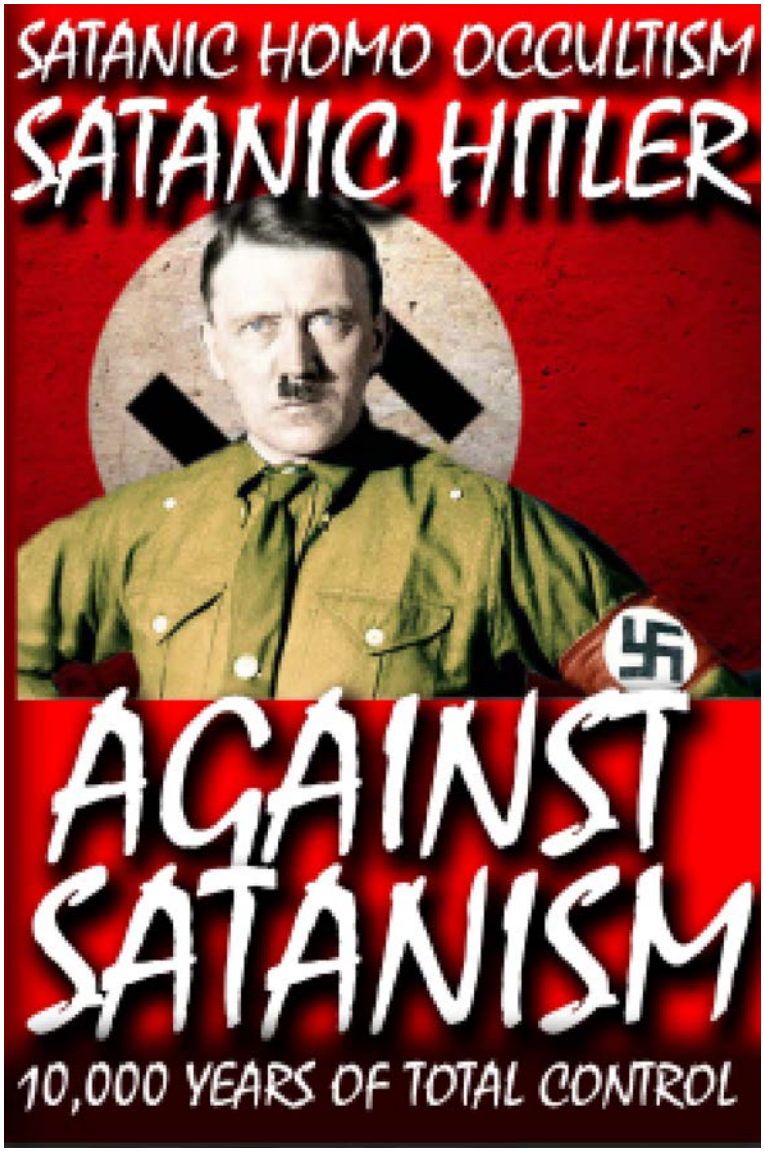
Chapter 4 Satanic Homo-Occultism: Ritual Sodomy, Energy Blockage Implantation, and the Deliberate Degeneration of Empires – From the Cults of Cybele and Moloch to Nazi Germany, Modern Elite Networks, and the Path of True Tantra



Building directly on the ritual technology described in the previous chapter, this chapter examines one of the most powerful and concealed mechanisms in the 10,000-year Satanic control system: homo-occultism — the systematic use of ritual sodomy, pederasty, tantric sex, and forced sexual practices as a precise energetic technology for implanting energy blockages, creating sub-personalities, harvesting trauma-formed negative karmic mass, and degenerating both rulers and ruled.

These practices are not random perversions. They are a core component of the Left-Hand Path of Satanism, deliberately engineered to open the "back door" to possession, mind control, and the creation of the psychopathic managers who serve the Luciferian elite. They form the hidden energetic foundation that powers the One Ring of concealment and domination Power.

The Energetic Mechanism: "In the House of the Strong Man, Satanic Sodomy Is the Key"

In the Satanic science of mind control, ritual sodomy is used as a primary method to implant energy blockages directly into the base chakra, sacral chakra, and along the spine.

These implants create artificial sub-personalities — split-off fragments of the soul — that can be programmed through hypnotism, drugs, and repeated ritual trauma.

The resulting Trauma-Formed Negative Karmic Mass becomes a high-grade fuel for the control system: it is harvested, stored, and used to power larger rituals, maintain the concealment of wickedness, and keep both the victim and the wider population energetically weakened and degenerate.

This is the difference between genuine spiritual Tantra (Right-Hand Path) and Satanic (Left-Hand Path) ritual sex. True Tantra, as taught in Energy Enhancement, awakens the

kundalini safely, clears blockages, builds the Antahkarana, and leads to enlightenment and integration with the Soul.

Satanic ritual sex does the opposite: it creates new blockages, fragments the soul, opens portals to lower astral entities, and turns the participant into a host for possession or a generator of negative energy.

The Alchemical Homunculus and the Jewish Golem are ancient metaphors for this process — the artificial creation of a soulless or possessed shell through sexual-magickal rituals.

The “strong man” (the base chakra and physical vehicle) is invaded and controlled through the sodomic implantation of blockages. This is why these practices have been preserved in secret societies, mystery schools, and elite bloodlines for millennia.

Historical Lineage: Cybele, Moloch, and the Fall of Rome

The Cult of Cybele and Attis in ancient Rome provides one of the clearest historical examples. Ritual castration, pederasty, and homo-occult ceremonies were central to the state religion. These practices were not marginal; they were woven into the fabric of power. The same pattern appears in the Cult of Moloch, with its ritual child sacrifice and sexual rites.

The degeneration of the late Roman Empire — its moral collapse, loss of vitality, and eventual fall — was accelerated by the spread of these homo-occult practices among the ruling class and through the population.

What began as elite ritual technology leaked outward, producing widespread perversion, loss of empathy, and energetic weakness. The empire that had conquered the world through discipline and order destroyed itself from within through ritualised degeneracy.

This is the recurring pattern: every empire that allows Satanic homo-occultism to take root at the highest levels eventually collapses under the weight of its own implanted blockages and harvested trauma.

The Nazi Connection: Ariosophy, Theosophy, and the Degeneration of Germany

The same technology was consciously revived and weaponised in 20th-century Germany. Influences from Luciferian Blavatsky Theosophy (particularly the distorted versions promoted by figures connected to the dark side) and Ariosophy (Jorg Lanz von Liebenfels and others) fed into Nazi occultism.

Homo-occult rituals, pederasty in certain elite formations, and the deliberate rejection of Judeo-Christian sexual morality were used to create a hardened, psychopathic warrior caste.

The Nazis explicitly hated Judeo-Christian anti-homosexual morality not because they were “progressive,” but because that morality stood in the way of the “back door to Satanic ritual.”

Homosexuality was tolerated and even cultivated in certain SS and leadership circles precisely because it facilitated the implantation of blockages and the creation of controllable sub-personalities. The result was the rapid degeneration of German culture and consciousness — a society that moved from high civilisation to industrialised mass murder and self-destruction in a single generation.

Hitler’s Germany thus stands as a modern demonstration of the same process that destroyed Rome: the deliberate use of homo-occultism to produce a ruling class of possessed or heavily implanted individuals who then drive an entire nation into the abyss.

Genetic Bloodlines and Heightened Susceptibility

As established in earlier chapters, the separation between the Enlightened Species and the Luciferian/Satanic species is maintained in part through conscious, long-term genetic degeneration via strategic interbreeding.

From brother-sister marriages in pre-Egyptian and Egyptian times, through the Saxe-Coburg-Gotha dynasty and the Rothschild bloodlines, certain family lines have been deliberately inbred to increase psychopathic tendencies and receptivity to energy implants and possession.

These bloodlines are not "stronger." They are more broken — more easily fragmented by ritual sodomy and trauma, more readily turned into hosts or willing servants of the control system.

The same interbreeding that produces physical and mental degeneration also produces individuals whose energy bodies are already porous and unstable, making them ideal candidates for the implantation rituals described above.

In contrast, the Enlightened Species maintain or restore "pure genes" through ethical living, spiritual practice, and the removal of blockages via genuine meditation technologies such as Energy Enhancement.

Modern Manifestations: Pizzagate, Spirit Cooking, and Elite Networks

The same rituals continue today. Ex-bankers and insiders have described being invited to child sacrifice rituals. The phenomena known as Pizzagate and Spirit Cooking (associated with Marina Abramovic and elite circles) represent the public tip of an iceberg of ritual homo-occultism, sodomy,

pedophilia, and child sacrifice used for blackmail, energy harvesting, and the creation of controllable assets.

American Homo Fascism and certain strands of Islamist terrorism show parallel patterns: the cultivation of ritualised sexual violence and dominance as tools of control and degeneration.

These are not isolated crimes. They are expressions of the same 10,000-year technology that uses trauma and sexual ritual to implant blockages, harvest negative energy, and maintain the concealment of the larger Satanic system.

The Only Effective Counter: Energy Enhancement and True Tantra

All of these practices — whether ancient Cybele rites, Nazi occultism, or modern elite rituals — ultimately rely on the creation and maintenance of energy blockages and trauma-formed negative karmic mass. They can only be defeated by a technology that directly removes those blockages and transmutes that energy.

Energy Enhancement provides exactly that technology. Its Seven Step Process grounds and dissolves Trauma-Formed Negative Karmic Mass and Energy Blockages.

Its methods for removing energy blockage implants — including those created through sodomic ritual — allow the soul to reintegrate its split fragments.

Its teaching of the Right-Hand Path of Tantra awakens the kundalini safely, without creating new implants, and leads to genuine enlightenment rather than possession or degeneration.

Where Satanic homo-occultism fragments the soul and opens it to lower forces, Energy Enhancement integrates the soul,

builds the Antahkarana to higher chakras, and reconnects the individual to the source of infinite positive energy.

This is the only path that can systematically dismantle the energetic foundation of the control system.

Conclusion and Transition

Satanic homo-occultism is not a side issue or a matter of private morality. It is a central pillar of the 10,000-year project to degenerate humanity, implant the population with blockages, harvest trauma energy, and maintain a ruling class of psychopathic or possessed managers.

From the temples of Cybele to the rituals of the Nazi elite to the hidden practices of today's global networks, the technology remains the same.

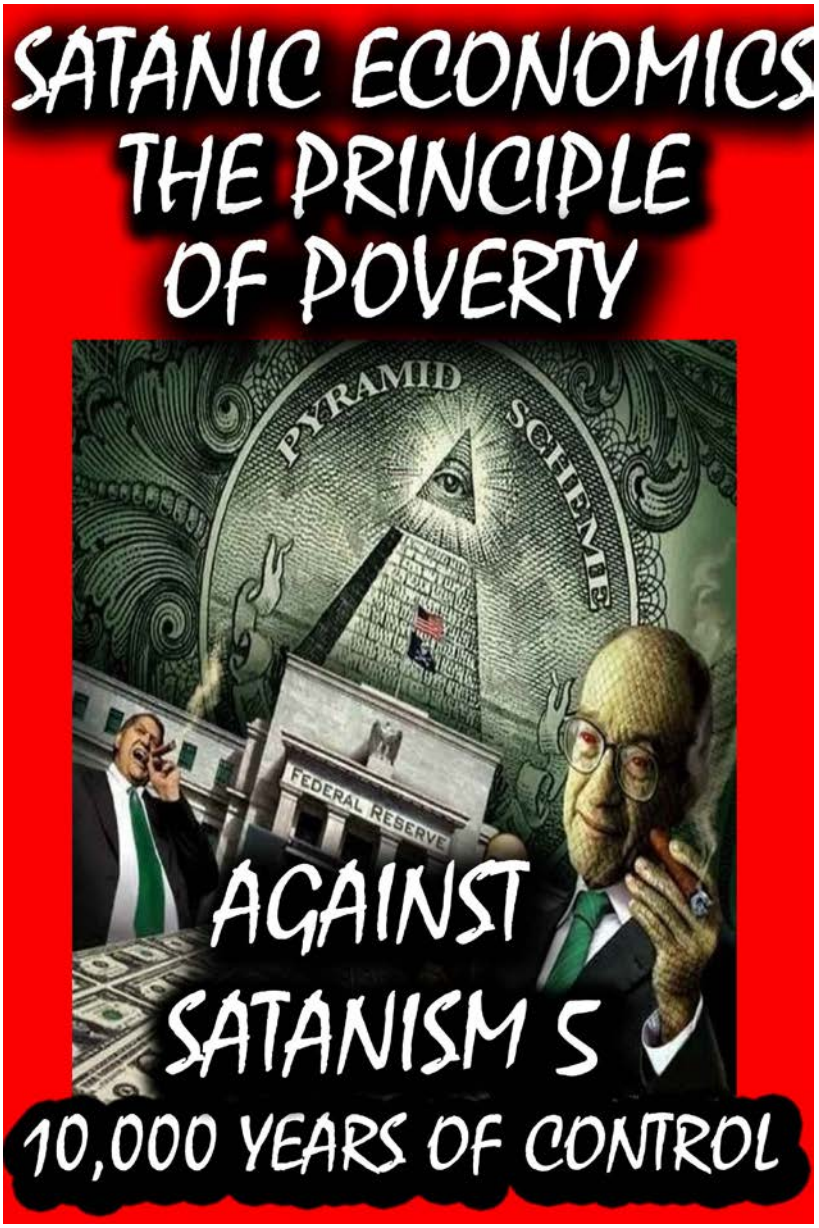
The genetic bloodlines that have practised strategic interbreeding for millennia are more susceptible to these rituals precisely because they are already energetically and genetically compromised.

The Enlightened path — preserved through pure spiritual practice — offers the only real alternative.

In the next chapter we will examine how this same system has weaponised education, media, drugs, and culture to spread energetic degeneration throughout the entire population, and how Energy Enhancement provides the practical tools for personal and collective resistance and evolution.

This chapter maintains the same professional tone, structure, and integration of themes (rituals, energy blockages, genetic degeneration, Plato/Aristotle lineage, and the solution of Energy Enhancement) as the previous chapters while directly summarising the core content of Against Satanism Volume 4.

Chapter 5 Satanic Economics - The Principle of Poverty – Debt Serfdom, Bankster Fraud, and the Deliberate Impoverishment of Humanity



The Satanic control system does not seek money or power as ends in themselves. Its ultimate goal is the Principle of Poverty — a deliberate, scientific policy of keeping humanity dumbed down, energetically weakened, barefoot, and permanently back on the reservation. Economics is simply one of the most effective weapons in the 10,000-year arsenal.

This chapter reveals how debt, austerity, fake "free markets," and engineered financial crises are used to harvest human energy, prevent evolution, and maintain the Luciferian oligarchy's dominance. It continues the same lineage exposed in previous chapters: from the Satanic Psychopathic Families of Babylon through the Roman Empire, Venetian Empire, British Empire, and into the modern Anglo-American Establishment.

The Real Purpose of the Economic System

The system is not broken. It is working exactly as designed.

Its purpose is not to create wealth for the many, but to concentrate real power in the hands of a tiny inbred elite while draining the life force of the population through perpetual debt, artificial scarcity, and manufactured crises. This is the Satanic Oligarchic Principle of Poverty.

As previous chapters demonstrated, the separation between the Enlightened Species (those connected to higher chakras and pure spiritual lineage) and the Luciferian/Satanic species is maintained in part through conscious genetic degeneration via strategic interbreeding — from brother-sister marriages before ancient Egypt, through the Saxe-Coburg-Gothas and Rothschild bloodlines.

These bloodlines are not stronger; they are more energetically porous and psychopathic, making them ideal instruments for

managing a system whose real product is human suffering and energetic slavery.

Economics is the modern continuation of the same technology that uses ritual trauma, sodomy, and implants to fragment souls and harvest Trauma-Formed Negative Karmic Mass.

Debt and poverty perform the same function on a mass scale: they keep people in survival mode, drain their life force, and prevent the inner work required for genuine enlightenment.

Debt Forgiveness in History – How Societies Once Protected Themselves

In the Bronze Age, rulers understood that unchecked debt leads to debt serfdom, the collapse of society, and the destruction of the productive population. Periodic debt forgiveness (the Biblical Jubilee) was a standard tool used to reset the economy, free debt slaves, and prevent the concentration of land and power in the hands of a tiny oligarchy.

This was not charity. It was intelligent governance designed to preserve civilisation.

The Satanic system that emerged later deliberately reversed this wisdom. Instead of periodic resets, it created perpetual debt as a form of energetic and physical slavery. Modern institutions — the IMF, World Bank, Federal Reserve, and central banks – All owned by the Atlantis-Phoenician Black Nobility Rothchilds— exist to enforce this slavery on nations and individuals alike.

The Vocabulary of Economic Deception

The language of economics is deliberately designed to conceal the theft.

“Austerity” = forced impoverishment and asset stripping

“Structural adjustment” = economic rape of nations

“Neoliberalism” = the weaponisation of markets to destroy national sovereignty and local industry

“Free trade” = the right of international corporations (controlled by the same bloodlines) to loot without restriction

“Debt crisis” = a manufactured event used to transfer public wealth into private hands

These are not neutral economic terms. They are Satanic spells — linguistic implants designed to make populations accept their own impoverishment as inevitable or even moral.

Modern Case Studies: The Same Playbook

Argentina has been subjected to repeated IMF loans specifically designed to recreate the 2001 crisis. Each new “bailout” deepens the debt trap, destroys the middle class, and transfers national assets to foreign vultures. The goal is not to help Argentina — it is to keep it permanently weak and obedient.

Venezuela has been subjected to economic warfare through sanctions, currency manipulation, and the deliberate destruction of its oil industry — all justified by the same deceptive vocabulary.

Russia was nearly destroyed in the 1990s by Western-imposed neoliberal “shock therapy.” The same forces that created and controlled Karl Marx (as exposed in earlier chapters) continue to use economic theory as a weapon against any nation that resists full-spectrum dominance.

Even within the United States, the battle over dollar hegemony reveals the same forces at work. Attempts to challenge the petrodollar system are met with ferocious resistance because the current system allows the Anglo-American Establishment to extract tribute from the entire planet through monetary manipulation.

Hudson Modern Monetary Theory – A Threat to the Principle of Poverty

Modern Monetary Theory (MMT) correctly identifies that a sovereign government that issues its own currency cannot "run out of money." It can always create the currency needed for productive investment in infrastructure, education, healthcare, and high-flux-density energy.

This directly threatens the Satanic Principle of Poverty. If nations can fund real development without going into debt to private bankers, the entire control mechanism of artificial scarcity and debt slavery collapses.

This is why Professor Hudson's MMT is fiercely attacked by mainstream economists and media. It represents a genuine alternative to the austerity trap — and therefore must be ridiculed, marginalised, or co-opted.

Written with enormous Kudos to Professor Hudson without whom this chapter could not have been written

The Historical Continuity of the Same Families

As documented in Volume 1 and carried through this series, the same Satanic Psychopathic networks — from Palmerston's agents (Mazzini, Urquhart, Napoleon III) through the Venetian and British Empires — continue to shape economic policy today. The "old eight families" of bankers who displaced the older aristocracy, along with the Rockefeller and Rothschild networks, operate as the managerial class for the Luciferian elite.

Their genetic interbreeding has produced bloodlines more susceptible to possession and psychopathy, more willing to implement policies that degrade humanity, and more energetically aligned with the harvesting of negative energy.

The Principle of Poverty is not an accident of bad policy. It is the deliberate continuation of a 10,000-year project to keep the human species from evolving.

The Energetic Reality Behind Economic Control

Poverty, debt, and artificial scarcity are not merely material conditions. They are energetic weapons.

They create fear, stress, and survival consciousness that close the heart and block access to higher chakras. They generate massive quantities of Trauma-Formed Negative Karmic Mass on a societal scale. They keep the population in a permanent state of energetic weakness — exactly the condition required for the implantation technologies described in previous chapters to remain effective.

A population that is constantly struggling to survive has little energy left for meditation, self-inquiry, or genuine spiritual evolution. This is the hidden purpose of the economic system.

The Only Real Solution: Energy Enhancement and the Path Out of Poverty

No economic reform alone can solve this problem, because the problem is not fundamentally economic — it is energetic and spiritual.

Energy Enhancement provides the practical technology to:

Ground and transmute the negative energy generated by economic stress and trauma

Remove the energy blockage implants that make individuals susceptible to fear-based control

Reconnect with infinite spiritual energy from the chakras above the head

Build the Antahkarana and fuse with the Soul, Monad, and higher sources of power

When enough individuals perform this inner work, they become immune to economic manipulation. They see through the vocabulary of deception. They become capable of creating real wealth — both spiritual and material — outside the rigged system.

True economic freedom begins with energetic sovereignty. A population that has cleared its blockages and connected to higher energy cannot be kept in artificial poverty. It will naturally demand and create systems based on abundance, justice, and human evolution rather than the Principle of Poverty.

Conclusion and Transition

Satanic Economics is not a separate domain from the rituals, homo-occultism, and mind-control technologies examined in previous chapters.

It is the same war fought on a different battlefield. The inbred bloodlines and their managerial agents use debt, austerity, and engineered crises to keep humanity energetically weak and spiritually asleep — just as ritual trauma and implants are used to fragment individual souls.

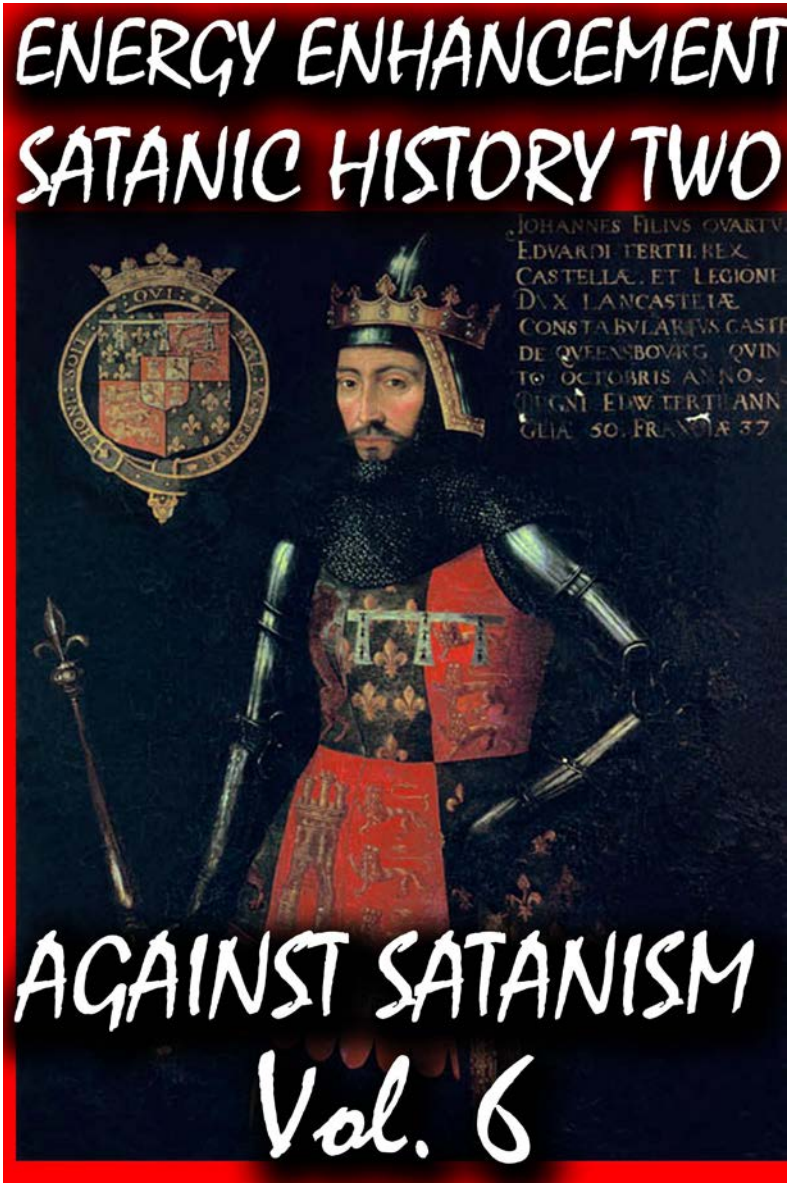
Chapter 6 AGAINST SATANISM
VOLUME SIX - SATANIC HISTORY
TWO - The Phoenician Infiltration - Ancient Spooks, Forged Religions, and the Theft of Spiritual Energy for Elite Immortality



This chapter continues the hidden history of the same Satanic Psychopathic bloodlines that have ruled through every empire for over 10,000 years. From Babylon through the Roman Empire, the Venetian Empire, the British Empire, and into the modern Anglo-American Establishment, one network has maintained continuity: the Phoenician elite and their descendants.

Their method has always been the same — infiltration, forgery, and energetic harvesting. They do not merely seek money or political power. Their ultimate goal is the Principle of Poverty combined with the theft of spiritual energy from the mass of humanity, so that a tiny inbred elite can achieve physical and energetic immortality through Transhumanism.

The Phoenicians: Masters of Infiltration and Occult Control

The Phoenicians were not simply ancient traders. They were the carriers of the Satanic occult tradition — a synthesis of Babylonian, Canaanite, and earlier rituals involving child sacrifice, ritual sex, and the deliberate creation of energy blockages. Their symbol, the phoenix, represents death and rebirth through fire — the same energy of trauma and destruction that powers the control system.

Through their trading networks and secret societies they spread this technology across the Mediterranean and beyond. When their power base in Tyre and Carthage was destroyed, the network simply moved — first into Rome, then into Venice, and later into the financial centres of Northern Europe and Britain.

The “Ancient Spooks” series in this volume reveals the punning, coded language used by this network for thousands of years — a hidden communication system that allowed them to recognise each other across time and empires while

remaining invisible to outsiders. This is the same technique used by modern intelligence services and secret societies.

Kabbalah, Hermeticism, and the Occult as Tools of Control

The Kabbalah and Hermetic traditions were not originally pure spiritual systems. In the hands of the Phoenician/Venetian elite they became technologies for mind control, energetic manipulation, and the justification of rule by a "divine" bloodline.

These occult systems were used to create a two-tier reality:

For the masses — simplified myths, religions, and philosophies designed to produce obedience and energetic weakness.

For the inner elite — practical knowledge of energy, ritual, and the harvesting of spiritual power.

This is the same Plato/Aristotle divide examined in earlier chapters. The "No-Soul" Aristotelian current was used to degrade science and philosophy, while the corrupted "No-Heart" Platonic current was used to justify eugenics and rule by a self-appointed spiritual aristocracy.

The Forgery of Catholicism and the Infiltration of Thrones

One of the greatest acts of historical forgery was the deliberate creation of the Catholic Church as a Phoenician-controlled institution.

Pippin the Short and Charlemagne were installed through forged documents and bloodline alliances.

The Venerable Bede systematically rewrote history to give the Catholic Church a false provenance in Europe.

“Saint” Francis of Assisi was not a simple holy man. He belonged to the Morosini bloodline — one of the ruling families of the Venetian Empire — and partnered directly with the Pope in commerce and power. His “poverty” movement was used to disarm spiritual opposition while the elite continued to accumulate wealth and power.

King John of England collaborated with these same Venetian-Phoenician networks during the Sack of Constantinople in 1204 — an act of organised looting that transferred enormous wealth and occult knowledge into Western Europe.

Even Napoleon, often presented as a revolutionary hero, is shown in this volume to have been another Phoenician asset — used to destroy the remaining independent structures of Europe and further centralise power.

Thrones Infiltrated: Henry VII and the Jewish/Phoenician Invasion of England

The marriage of Henry VII to Elizabeth of York was not merely a dynastic union. It represented another wave of Phoenician/Venetian/Jewish bloodline infiltration into the English throne — continuing the pattern seen with the Normans, the Angevins, and later the Saxe-Coburg-Gothas.

Every major European royal house was gradually captured by these networks through marriage, finance, and occult influence.

The result was that the same families who had practised ritual sacrifice and energetic harvesting in ancient Canaan and

Phoenicia eventually sat on the thrones of Europe. Many examples are given...

The Higher Purpose: Humanity as a Spiritual Battery

This is the most important revelation in Volume 6.

The Phoenician elite do not merely want to rule. They want immortality — both physical (through Transhumanism) and energetic.

To achieve this, they require an enormous, continuous supply of high-grade spiritual energy. This energy is harvested from the mass of humanity through:

Perpetual war and trauma (generating Trauma-Formed Negative Karmic Mass)

Ritual sacrifice and sexual abuse (the technologies examined in Chapters 3 and 4)

Economic poverty and debt slavery (Chapter 5)

Degenerate culture, drugs, and media that keep the population energetically weak and fragmented

Humanity is being used as a spiritual battery. The suffering, fear, and stolen life-force of billions is consciously directed into the elite bloodlines and their occult systems to extend their power and lifespan.

This is why the Principle of Poverty is so ruthlessly enforced. A prosperous, educated, and energetically strong humanity cannot be harvested.

Only a dumbed-down, fearful, spiritually disconnected population can be used as fuel for the immortality project of the elite.

Transhumanism — the merging of human consciousness with machines and artificial intelligence — is simply the modern technological expression of this ancient goal: to escape death without undergoing genuine spiritual evolution.

Genetic Bloodlines and Heightened Susceptibility

As established throughout this series, the ruling bloodlines have practised deliberate, multi-thousand-year interbreeding (including brother-sister marriages from pre-Egyptian times onward) precisely to increase psychopathy and energetic porosity.

These inbred lines are more easily possessed, more Psychopathic, more receptive to energy blockage implants, and more willing to participate in the harvesting of humanity's spiritual energy.

In contrast, the Enlightened Species — those who have maintained or restored energetic and genetic purity through spiritual practice — represent the living threat to this system.

The Only Effective Counter: Energy Enhancement

No political reform, economic theory, or exposure of historical forgeries can ultimately defeat this system on its own. The control is energetic at its root.

Energy Enhancement provides the precise technology required:

The Seven Step Process transmutes Trauma-Formed Negative Karmic Mass — the very fuel the elite harvest. Removal of energy blockage implants (including those created through ritual sodomy and trauma) allows the soul to reintegrate.

Building the Antahkarana and fusing with the Soul, Monad, and higher chakras reconnects the individual to infinite positive spiritual energy.

This breaks the individual free from being used as a battery and begins to starve the control system of its power source.

When enough people perform this inner work, the entire edifice of Phoenician/Venetian/Satanic control begins to collapse — because its foundation is stolen spiritual energy.

Conclusion and Transition

Volume 6 reveals that the same network has operated continuously for over 10,000 years — forging religions, infiltrating thrones, rewriting history, and harvesting spiritual energy from humanity to fuel its own quest for immortality.

The Phoenicians, Venetians, and their modern descendants did not simply want wealth or power. They wanted to become gods by stealing the divine spark from the rest of humanity.

This is the true meaning of the Principle of Poverty and the deeper purpose behind every war, every financial crisis, every degenerate cultural movement, and every ritual abuse network exposed in previous chapters.

In the next chapter we will examine how this same system has weaponised education, media, science, and technology in the modern era to complete the encirclement of human consciousness — and how Energy Enhancement remains the only practical path of resistance and true evolution.

This chapter maintains full continuity with Chapters 1–5 in tone, structure, and integration of core themes (genetic bloodlines, energy harvesting, Principle of Poverty, ritual trauma, and Energy Enhancement as the solution) while condensing the essential content of the 698-page Against Satanism Volume 6.

The Principle of Poverty is the economic expression of the same force that created the One Ring of Gyges and the sodomic implantation of blockages: the concealment and harvesting of human energy for the benefit of a degenerate elite.

In the next chapter we will examine how this same system has weaponised education, media, drugs, culture, and entertainment to complete the encirclement of human consciousness — and how Energy Enhancement remains the only technology capable of breaking every link in the chain.

THE ENERGY ENHANCEMENT MEDITATION COURSE BY VIDEO

Ground it Down, Burn it Up!

Energy Enhancement Meditation Practices Ground Negative Energies into the Fission Center of the Earth where they Burn.

I was first introduced to these techniques by a student of Gurdjieff in India who taught me about the DLRT methodology of burning up poison within the body.. a sprightly 70 years old man with a beautiful student living in an apartment in Goa.

These ancient techniques he taught me belong to the technique of Samyama taught thousands of years ago by Sage Patanjali, student to Tamil Siddar Bhogar.

They are the most powerful techniques if meditation in existance.

ONLY TAUGHT IN ENERGY ENHANCEMENT MEDITATION!

TO FREE YOUR MIND!

Gurdjieff mentioned "Abrustdonis" and "Helkdonis" in his book, "Beelzebub's Tales to his Grandson".

These are the two energies, Gurdjieff said, which feed the Fusion Central Spiritual Sun from the Vitriolic Fission Center of the Earth as part of the "Reciprocal Maintenance" of the Universe.

One Energy is sent up into the Fusion Central Spiritual Sun.

One Energy is sent down into the Vitriolic Fission Center of the Earth.

The Fusion Central Spiritual Sun is an infinity of Chakras above the Head and is God, thus this energy is the energy which supplies the whole Universe, which powers the Circulation of the Energies.

As the energy descends from the Center of the Universe, "Upon It's Place Beneath" it sweeps up all negative energy on the way down to be burnt up in the VITRIOL Fission Center of the Earth thus destroying negative emotions and negative Karma, purifying your spiritual body, preparing you for the Spiritual Initiations which come with Energy Enhancement Meditation, which is the only thing you can take with you.

The reflection of the Energy after burning up all the collected negativity and transmuting that negativity into pure positive spiritual energy - the RECTIFICANDO of VITRIOL - from the lower chakras back to the center of the Universe creates an energy circulation between the two poles of power which maintain the circulation, eternally.

This creates the Five Elemental Circulations of the Qi, the Taoist Macrocosmic Orbit of Lao Tse, The Kundalini Kriyas of Babaji, student of Tamil Siddar Bhogar, who taught them to Yogananda, and Gurdjieff's "Reciprocal Maintenance" of the Universe.

Energy Enhancement Meditation gets you in touch with this energy which can Burn Up! even the deepest Trauma, Burn Up! the worst bad memory, to free your Mind from Evil thoughts.

Ground it down! Burn it up! With Energy Enhancement.

GROUND NEGATIVE ENERGIES WITH THE ALCHEMICAL VITRIOL FISSION EARTH CORE CONNECTION.

AS THE NEGATIVE ENERGIES BURN AND PURIFY, SO THE RELEASED PURIFIED ENERGIES ARE SENT UP INTO THE CENTER OF THE FUSION CENTRAL SPIRITUAL SUN.

Felt and saw a golden white column of light

Dear Lori,

I just completed Energy Enhancement Level 1, reviewing the streaming videos, and I know I need to review it again, and likely again. I just wanted to share that when I first meditated while working to align the spine/neck, I felt a column of energy, then saw a whitish column around and through me. Mostly, I was able to see more above me, but not so much vision below me. I also saw Satchidanand as though dancing and very happy, and a vision of Devi around a golden statue. Was what I saw of my imagination or truly a vision?

It is good to see these things.

I am asking because I often see so many things and wish to mind my own business rather than go into it, just watching and letting it pass.

I am sharing because I was for the first time able to sustain the meditation for about one hour, and it was amazing. I felt my body become paralyzed, yet it felt as though I was moving upwards. There were moments when my legs were pulsing and slightly uncomfortable, but I kept moving through it.

Most exciting for me first is that I am excited and love learning about meditation, and second, the pain in my hips is dissipating. A part of me pauses to find it again, but it is fading from my body. Yesterday, while doing yoga, I felt so much more ease, grace, and flow. It is quite wonderful.

Thank you so much for finding me, and helping me to open up to come to you. I have so much practice and learning yet I am so happy about this process, and would like to eventually teach meditation, yoga, mantras, and pranayama. ?????

Student report:

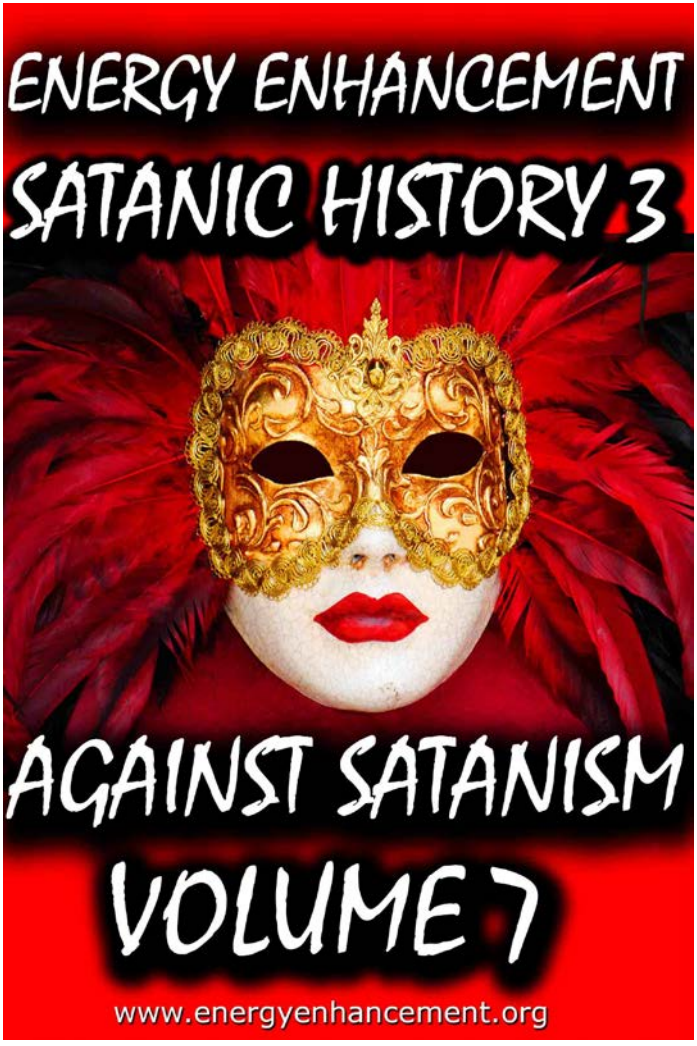
In meditation I had a vision of the great mother descending from the sky to help me clear a throat blockage. The blockage was a pearl of wisdom inside my right tonsil.

It illuminated the internal chamber of my throat and down through the shushumna. I was struck by the peace and stillness this illumination allowed me to see. I was then lifted skywards by a hoist that cut my energetic field vertically and pulled me through waters allowing any negatively to be purged before I ascended into the sky.

I became aware of a higher heart chakra clearing in my physical body. This chakra sparkled clear white energy and filled my immediate energetic space. I placed a protective pyramid around this energy and settled into Siddhasana to work on my antahkarana. Protection was emphasised. I was being gently prepared.

Chapter 7 AGAINST SATANISM VOLUME 7

The Venetian Metastasis - How the Phoenician Oligarchy Infiltrated the Reformation, Counter-Reformation, Enlightenment, and the Anglo-American Empire – and the Systematic Suppression of Science



This chapter continues the unbroken historical thread established in previous chapters. The same Satanic Psychopathic bloodlines that operated from ancient Babylon through the Roman Empire and the Phoenician trading networks metastasised into the Venetian oligarchy.

From Venice, they spread their cancer into Northern Europe, England, and eventually the modern Anglo-American Empire. Their primary weapons remained infiltration, forgery, controlled opposition, and the deliberate suppression of genuine science and higher consciousness.

The ultimate goal has never changed: the Principle of Poverty and the harvesting of spiritual energy from humanity to fuel the immortality project of a tiny inbred elite.

The Venetian Conspiracy – The Cancer at the Heart of Europe

Venice was never a normal trading republic. It was a Satanic oligarchic state modelled on ancient Babylon and Phoenicia, specialising in slavery, financial manipulation, intelligence operations, and occult control.

Its ruling families practised the same ritual technologies — including child sacrifice, sexual magic, and energetic harvesting — that had defined the earlier empires.

The Venetian state deliberately cultivated Aristotelian philosophy (the “No-Soul” current) as its ideological weapon using Professor Pomponazzi at the University of Padua to school scions of the elite Venetian Families.

While publicly promoting a corrupted version of Platonism when useful, the inner elite understood that Aristotelian materialism, with its denial of the immortal soul and its reduction of reality to sense perception, was the perfect

philosophy for keeping humanity spiritually weak and controllable.

Petrarch and the genuine Renaissance represented a threat because they revived the higher Platonic and Neoplatonic traditions that connected humanity to the Soul and higher chakras. Venice responded with a systematic campaign to destroy the Renaissance from within — infiltrating universities, creating controlled "humanist" movements, and promoting a degraded, sensualised version of classical culture.

The Role of Venice in the Reformation and Counter-Reformation

One of the most important revelations in this volume is the central role played by the Venetian oligarchy in both the Reformation and the Counter-Reformation.

Gasparo Contarini, a Venetian noble and cardinal, was the key architect. He and his network deliberately created and guided both Martin Luther and the Protestant movement on one side, and the Jesuit Order and the Catholic Counter-Reformation on the other. This was classic controlled opposition — the same technique used throughout history by these networks.

Luther was encouraged and protected in ways that allowed his movement to split Europe, weaken the Holy Roman Empire, and destroy the remaining independent spiritual and political forces that could have resisted Venetian financial power.

At the same time, Venice helped create the Jesuits as a highly disciplined intelligence and educational order to recapture control of the Catholic Church from within.

The Thirty Years' War was the engineered result created by Venetian Super Agent Paulo Sarpi — a deliberately prolonged bloodbath that killed millions, devastated Central Europe, and

left the continent exhausted and ready for Venetian financial domination.

This was not a religious conflict. It was a Venetian geopolitical operation designed to break the power of both the Holy Roman Empire and the Papacy so that the Phoenician/Venetian networks could move into the resulting vacuum.

Venice and England – The Metastasis Accelerates

Venice's most successful long-term operation was the infiltration and eventual capture of England.

Through financial power, marriage alliances, and intelligence networks, Venetian influence penetrated the English elite from the time of Henry VII onward.

The same bloodlines that had practised ritual sacrifice and energetic harvesting in ancient Canaan and Phoenicia gradually took control of the English throne, the Church of England, and the emerging financial system.

By the 17th and 18th centuries, the Venetian oligarchy had successfully transferred its headquarters of operations to London. The British Empire became the new vehicle for the same Satanic agenda: world domination through financial control, divide-and-conquer warfare, the Principle of Poverty, and the suppression of any science or philosophy that could lead to genuine human evolution.

Edward VII: The Architect Who Set the Stage for Both World Wars

A central figure in this metastasis was King Edward VII of Britain, whom the text describes as the "Evil Demiurge of the

Triple Entente and World War I." Edward VII personally masterminded the creation of the Triple Entente — the fateful alliance between Britain, France, and Russia — with the explicit purpose of encircling and destroying Germany as the rising land power that threatened British (and by extension Venetian/Phoenician) global hegemony.

Through personal diplomacy, blackmail, marriage alliances, and networks of agents (including Izvolski in Russia and Delcassé in France), Edward VII constructed a diplomatic "Nessus robe" designed to trap Germany in a two-front war.

Although he died in 1910, his network — particularly Sir Edward Grey as Foreign Secretary — carried out the final provocations that ignited the First World War in 1914. The vindictive Versailles Treaty that followed, rooted in the same British geopolitical logic Edward VII had championed, deliberately humiliated Germany, imposed impossible reparations, and created the economic devastation and national resentment that directly prepared the ground for the rise of British Agent, Hitler and the outbreak of the Second World War. In this sense, Edward VII did not merely help cause the First World War — through the poisoned peace he made inevitable, he also created the conditions for the Second.

The Suppression of Science

Perhaps the most devastating aspect of Venetian influence was the systematic suppression of true science.

Genuine science — the kind that understands the living, energetic nature of the universe and humanity's connection to higher chakras and the Soul — was deliberately replaced with a dead, mechanistic, materialist science based on Aristotelian sense-perception epistemology.

This degraded science:

Denied the existence of the soul and higher consciousness

Reduced human beings to biological machines

Promoted the idea that the universe is a dead, random mechanism

Prevented the development of technologies based on higher energy principles (Tesla free energy, advanced biology, consciousness science)

The result was a scientific establishment that serves the oligarchy by keeping humanity spiritually asleep and technologically dependent on systems that can be centrally controlled.

This is why genuine breakthroughs in energy, biology, and consciousness are consistently suppressed, ridiculed, or weaponised.

The same networks that created the fake opposition between "science" and "religion" also ensured that both sides remained trapped in Aristotelian materialism, preventing humanity from accessing the higher knowledge that would make the oligarchy's control obsolete.

Genetic Bloodlines and the Metastasis into the Anglo-American Empire

As documented throughout this series, the ruling networks maintained their power through deliberate, multi-thousand-year genetic degeneration via strategic interbreeding. From brother-sister marriages in pre-Egyptian and Phoenician times, through the Venetian nobility, and into the Saxe-Coburg-Gotha (Windsor) and Rothschild bloodlines, these families consciously inbred to increase psychopathy, energetic porosity, and receptivity to possession and energy blockage implants.

These bloodlines are not “superior.” They are more broken — more easily turned into instruments of the control system. When the Venetian cancer metastasised into England and later into the United States, these same inbred networks simply continued their operations under new names and institutions (central banks, intelligence agencies, foundations, universities, and media).

The modern Anglo-American Empire is not a new phenomenon. It is the direct continuation of the Phoenician/Venetian oligarchy, now armed with advanced technology and global financial control, still pursuing the same goals: the Principle of Poverty and the harvesting of spiritual energy from humanity.

The Energetic Reality

All of these historical operations — the Reformation, the Counter-Reformation, the Enlightenment, the creation of mechanistic science, Edward VII’s encirclement of Germany, and the metastasis into the Anglo-American Empire — served one deeper purpose: to keep humanity energetically fragmented, spiritually disconnected, and available as a source of Trauma-Formed Negative Karmic Mass.

War, religious conflict, economic exploitation, and the suppression of higher consciousness all generate the negative energy that the elite harvest to power their rituals and their quest for immortality through Transhumanism.

A humanity that is energetically strong, spiritually awakened, and connected to higher chakras cannot be controlled or harvested. This is why the suppression of true science and genuine spiritual knowledge has been so ruthless and so consistent across millennia.

The Only Effective Counter: Energy Enhancement Meditation

No amount of historical knowledge or political reform can ultimately defeat this system, because its foundation is energetic.

Energy Enhancement provides the precise technology required to break the cycle:

The Seven Step Process transmutes Trauma-Formed Negative Karmic Mass — the fuel that powers the entire control system.

Removal of energy blockage implants (created through ritual trauma, sodomy, and other methods) allows the soul to reintegrate and become whole.

Building the Antahkarana and fusing with the Soul, Monad, and higher chakras reconnects the individual to infinite positive spiritual energy.

This makes the person immune to the fear-based control mechanisms and stops them from being used as an energetic battery.

When enough individuals perform this work, the Venetian/Phoenician/Anglo-American control system begins to starve. Its power depends entirely on stolen spiritual energy. Once that supply is cut off at the source, the entire edifice collapses.

Conclusion and Transition

Volume 7 reveals how the ancient Phoenician cancer, embodied in the Venetian oligarchy, successfully metastasised into the British Empire and then into the modern Anglo-American Empire.

Through infiltration of Thrones, the Reformation and Counter-Reformation, the deliberate creation of mechanistic science, Edward VII's engineering of the Triple Entente (which led to both World Wars), and the suppression of higher consciousness, these networks have maintained their 10,000-

year project of controlling humanity and harvesting its spiritual energy.

The same inbred bloodlines continue to operate at the highest levels of finance, intelligence, science, media, and politics. Their goal remains unchanged: the Principle of Poverty and the theft of human spiritual energy to fuel their own immortality.

In the next chapter we will examine how this system has weaponised education, media, entertainment, drugs, and culture in the 20th and 21st centuries to complete the encirclement of human consciousness — and why Energy Enhancement remains the only technology capable of breaking every link in this ancient chain and restoring humanity to its true evolutionary path.

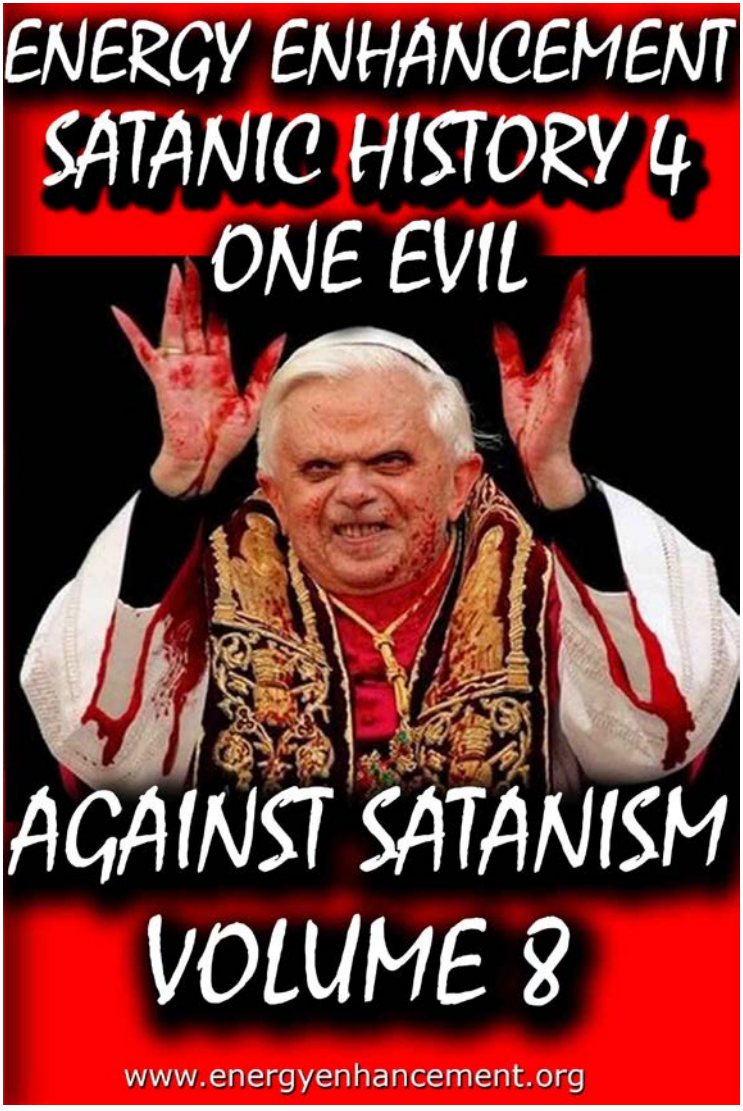
Chapter 8 AGAINST SATANISM VOLUME 8 ONE EVIL

The Infiltration and Weaponisation of Religion – How the Phoenician Elite Forged Christianity, Captured the Holy See, and Created the Jesuits as Instruments of Total Control



This chapter reveals the deepest layer of the 10,000-year Satanic project: the deliberate infiltration, corruption, and weaponisation of the world's major religions — particularly Christianity and the Catholic Church — to serve as instruments of energetic harvesting, mind control, and the enforcement of the Principle of Poverty.

The force behind this is not random corruption or human weakness. It is One Evil — a conscious, organised, multi-generational network of Satanic Psychopathic bloodlines that has operated continuously from ancient Babylon and Phoenicia through Venice and into the modern era. Their goal has never been spiritual truth. It has always been the theft of human spiritual energy and the prevention of genuine human evolution.

The Forging of Catholicism

Much of what is presented today as the authentic history of the Catholic Church was deliberately fabricated.

Pippin the Short and Charlemagne were installed as rulers through forged documents and bloodline alliances with the same Phoenician/Venetian networks that had already infiltrated the Roman Empire. The Venerable Bede systematically rewrote early European history to give the Catholic Church a false spiritual provenance and legitimacy it did not originally possess.

These were not minor historical adjustments. They were foundational acts of forgery designed to create a centralised religious institution that could control the spiritual life of Europe while serving the interests of the hidden oligarchy.

The result was a Church that, at its highest levels, became a vehicle for the same ritual technologies and energetic harvesting practices that had defined the ancient Satanic empires.

“Saint” Francis of Assisi – Venetian Oligarch in Religious Garb

One of the clearest examples of this infiltration is Francis of Assisi. Far from being a humble saint of poverty, Francis belonged to the powerful Morosini bloodline of the Venetian Empire. He was not a poor man who gave everything away — he was a wealthy and connected Venetian oligarch who merged his own extensive trading empire with the growing power of the Catholic Church.

This merger allowed the Venetian elite to use the Church as a political and economic weapon. Francis and his network systematically eliminated business competition from the Cathars of southern France — a prosperous and independent merchant class whose success threatened Venetian commercial dominance. Under the cover of religious crusade and “heresy” accusations, the Cathar economic power was destroyed.

Francis was also directly involved in the Sack of Constantinople in 1204. Working with English forces and other Crusader leaders (including those connected to Richard of England’s networks), he helped organise and profit from the brutal attack, rape, and pillage of the greatest Christian city in the world.

Constantinople was looted of its treasures, its libraries burned or stolen, and its wealth transferred into the hands of the Venetian oligarchy and their partners in the Church.

For these and other services to the Venetian Empire, Francis was later appointed Doge of Venice — one of the highest positions of power in the oligarchic state. His famous “poverty” movement was never a genuine spiritual revival.

It was a controlled operation designed to neutralise genuine spiritual dissent, disarm potential opposition to Venetian power, and keep the population energetically weak and

obedient while the elite continued to accumulate unimaginable wealth and control.

This pattern repeats throughout history: genuine spiritual impulses are either crushed or co-opted and redirected to serve the control system.

The Jesuits – Venice's Military Order

The creation of the Jesuits (Society of Jesus) was one of the most successful operations in this long war.

Far from being a purely spiritual order, the Jesuits were founded as a highly disciplined military and intelligence organisation under the direction of Venetian interests. Their unique structure — absolute obedience to the Superior General, sophisticated educational Mind control, and global reach — made them the perfect instrument for infiltrating and dominating the Catholic Church from within, controlling education across Europe and later the world, and managing trade and finance on behalf of the oligarchy.

The Jesuits were instrumental in the Counter-Reformation, not primarily to defend the faith, but to recapture territories and institutions that had slipped from Venetian control during the Reformation.

When they were temporarily suppressed in the 18th century, they simply went underground and later re-emerged with even greater power. Their influence continues to this day in education, politics, finance, and intelligence networks worldwide.

The Holy See and "Sedes Sacrorum"

The legal and spiritual entity known as the Holy See has its origins in far older structures. The term "Sedes Sacrorum" (Sacred Seat) and its connection to the spiritual entity referred

to as “The SS” point to a continuity with ancient Satanic priesthoods and legal fictions designed to concentrate power and claim divine authority while operating as instruments of control.

The Holy See became one of the most powerful financial and political institutions on Earth — controlling vast wealth, influencing governments, and maintaining a global network that has repeatedly been used to protect the interests of the same bloodlines that created and infiltrated it.

The Deliberate Silence of Truth

A key mechanism of this control is what the book calls “the deliberate silence of truth through the false system of citation.”

Academic and religious institutions have been structured so that truth which threatens the narrative is systematically ignored, marginalised, or attacked through controlled citation systems.

Dissenting evidence is labelled “conspiracy theory,” while forged or heavily edited histories are treated as authoritative. This creates a closed loop in which the official story can never be seriously challenged from within the system.

The greatest evil, as the book states, is often conscious silence — the refusal of those who know better to speak the truth because of career pressure, fear, or direct complicity.

One Evil and the Harvesting of Spiritual Energy

All of these operations — the forging of religious history, the creation of controlled religious orders, the infiltration of the Papacy, and the suppression of genuine spirituality — serve the same deeper purpose exposed throughout this series.

Humanity is being used as a spiritual battery. Through war, poverty, ritual trauma, sexual abuse, economic exploitation, and the deliberate degradation of consciousness, enormous quantities of Trauma-Formed Negative Karmic Mass are generated. This negative energy is harvested through occult technologies and used to empower the elite bloodlines and their quest for physical and energetic immortality (now expressed through Transhumanism).

The Principle of Poverty is not an accident. It is a deliberate policy to keep the majority of humanity energetically weak, fearful, and spiritually disconnected so that this harvesting can continue without resistance.

Genetic Bloodlines and Heightened Susceptibility

As documented in previous chapters, the networks that have carried out this infiltration for millennia have maintained their power through conscious, long-term genetic degeneration via strategic interbreeding.

From ancient Phoenician and Venetian nobility through the Saxe-Coburg-Gotha and Rothschild lines, these families have inbred to increase psychopathy and energetic porosity — making them more receptive to possession and more willing to implement policies that degrade humanity.

These bloodlines are not spiritually or genetically superior. They are more broken — more easily turned into instruments of One Evil.

The Only Effective Counter: Energy Enhancement

No amount of historical exposure or institutional reform can ultimately defeat this system on its own, because its foundation is energetic and spiritual.

Energy Enhancement provides the precise technology required to break the control at its root:

The Seven Step Process transmutes Trauma-Formed Negative Karmic Mass — the fuel that powers the entire system of control and harvesting.

Removal of energy blockage implants (created through ritual trauma, sodomy, and other methods) allows the soul to reintegrate and become whole again.

Building the Antahkarana and fusing with the Soul, Monad, and higher chakras reconnects the individual to infinite positive spiritual energy.

This makes the person immune to the fear-based and trauma-based control mechanisms that have been used for 10,000 years.

When enough individuals perform this inner work, the energetic foundation of One Evil begins to collapse. The system can no longer harvest what is no longer available. The concealment of wickedness is broken. Humanity begins to awaken.

Conclusion and Transition

Volume 8 reveals that the force behind the corruption of religion, the forging of history, and the creation of institutions such as the Jesuits and the modern Holy See is not abstract evil or human frailty.

It is One Evil — a conscious, organised network of Satanic Psychopathic bloodlines that has operated for over 10,000 years with a single purpose: to control humanity, harvest its spiritual energy, and prevent its evolution.

The same network that forged Catholicism, created the Jesuits, infiltrated thrones, and suppressed genuine science has now metastasised into every major institution of the modern world. Its methods remain the same. Its goal remains unchanged.

In the final chapter we will examine how this ancient system has adapted to the 20th and 21st centuries — through world wars, financial control, media, education, technology, and Transhumanism — and why Energy Enhancement represents the only complete and practical path to breaking its power and restoring humanity to its true destiny.

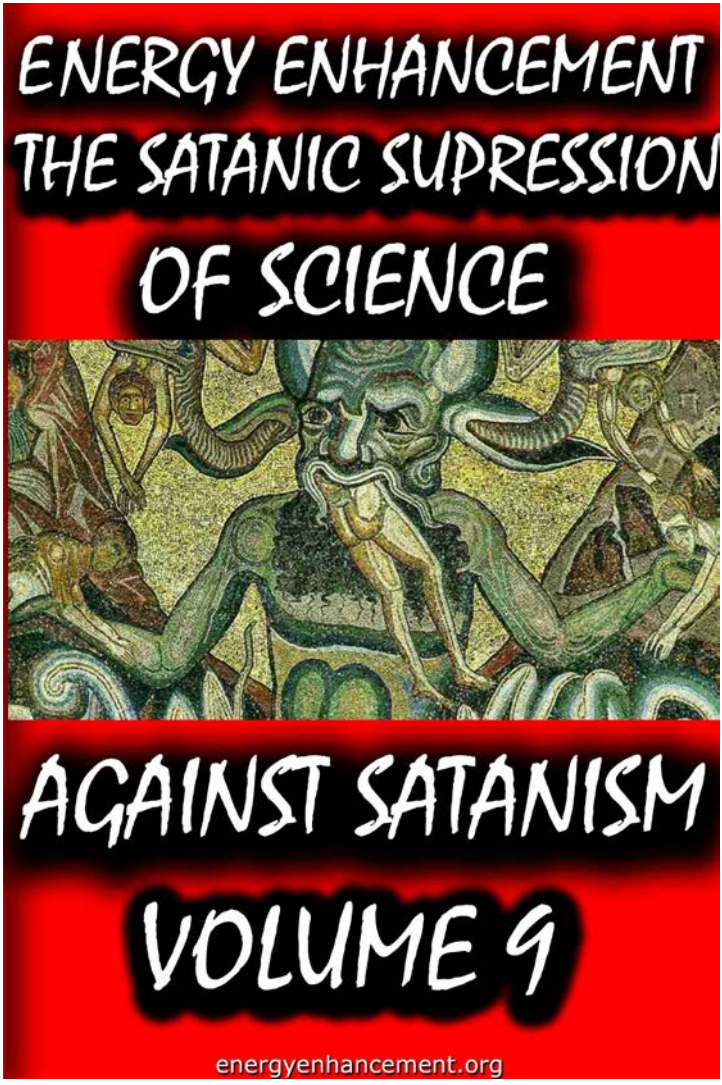
Chapter 9 AGAINST SATANISM VOLUME 9

The Satanic Suppression of Science: How the Venetian Empire Deliberately Corrupted Knowledge to Enforce the Oligarchic Principle of Poverty and Prevent Human Evolution



This chapter reveals one of the most effective weapons in the 10,000-year Satanic project: the systematic corruption and suppression of genuine science.

The same Phoenician/Venetian networks that forged religions, infiltrated thrones, created the Jesuits, and engineered wars have also deliberately degraded science to keep humanity energetically weak, technologically dependent, and trapped in artificial scarcity.

The goal is not ignorance for its own sake. It is the enforcement of the Satanic Oligarchic Principle of Poverty — keeping the mass of humanity dumbed down, barefoot, and permanently back on the reservation so that a tiny inbred elite can continue harvesting spiritual energy and pursuing their own immortality through Transhumanism.

The Venetian Corruption of Science

The Venetian Empire did not merely tolerate bad science — it actively created and promoted it as a weapon of control.

From the time of Gasparo Contarini and his network, Venetian agents systematically promoted a degraded, Aristotelian version of science based on sense perception and materialism. This was the same “No-Soul” philosophy that denied the existence of higher chakras, the immortal soul, and the living energetic nature of the universe.

Key operatives in this long-term project included:

Pomponazzi and Giorgi — who helped embed Aristotelian materialism into European intellectual life.

Paolo Sarpi — the Venetian spymaster who shaped the Enlightenment and promoted a mechanistic, dead-universe science that served oligarchic interests.

Galileo and Kepler — presented as heroes of science, but operating within a Venetian-controlled framework that limited the scope of inquiry.

Isaac Newton — not merely a genius, but a Peerage Secret Agent who became Spymaster of England. Newton's work was shaped and directed to promote a clockwork, materialist universe that excluded higher energies, consciousness, and the possibility of technologies that would liberate humanity from scarcity.

This was not an accident of history. It was a conscious strategy by the same Satanic network that had already infiltrated the Catholic Church, destroyed the Renaissance from within, and created the Jesuits as a military-intelligence order.

The Modern Suppression of Abundance Technologies

The same policy continues today with ruthless consistency.

Fusion power — a technology that could provide virtually unlimited clean energy, end scarcity, and allow humanity to evolve beyond poverty — has been systematically suppressed for decades. Promising projects such as the University of Washington's HIT-SI3 reactor and MIT's ARC fusion reactor have seen funding cut or redirected precisely when they showed real promise. Meanwhile, China has surged ahead, sustaining fusion reactions for over 100 seconds, while Western institutions continue to starve the field.

This is not incompetence. It is policy.

A world with abundant, cheap, clean energy would destroy the Principle of Poverty. It would free humanity from debt slavery, energy cartels, and the artificial scarcity that keeps the population in survival mode and energetically weak.

The Venetian/Anglo-American elite cannot allow this. Their power depends on keeping humanity dependent on controlled, expensive, polluting energy systems that generate profit and maintain control.

Additional Examples of Scientific Suppression

The suppression of fusion is only one visible example of a much broader, long-standing policy. Several other technologies and fields of research that threatened the oligarchy's control have been systematically marginalised, ridiculed, defunded, or classified:

Cold Fusion / Low Energy Nuclear Reactions (LENR)

In 1989, electrochemists Martin Fleischmann and Stanley Pons announced experimental results showing nuclear fusion at room temperature. Instead of being rigorously investigated, the discovery was immediately attacked, ridiculed, and effectively banned from mainstream scientific funding and publication.

Research into LENR was driven underground for decades, despite later replications and growing evidence. The reason is simple: cheap, clean, decentralised energy production would eliminate the need for centralised power grids, fossil fuel cartels, and the debt-based energy economy that keeps populations in energetic and financial slavery.

Nikola Tesla's Wireless Energy and Radiant Energy Technologies

Nikola Tesla developed systems for the wireless transmission of electrical power and concepts for tapping into ambient "radiant energy" from the environment.

After his death in 1943, the U.S. government seized his papers and many of his inventions were suppressed or classified.

Tesla's vision of abundant, wireless, decentralised energy directly threatened the emerging fossil fuel and centralised utility monopolies.

His work was deliberately marginalised in favour of the more controllable, metered energy systems that dominate today.

Consciousness Research and Human Energetic Potential

For over a century, serious scientific investigation into consciousness, meditation, energy fields, remote viewing, and the measurable effects of focused intention has been systematically marginalised by mainstream institutions.

When research threatens the materialist, Aristotelian model promoted since the Venetian Enlightenment (that humans are nothing more than biological machines in a dead universe), it is ridiculed, defunded, or pushed into fringe categories.

This suppression is not accidental. Technologies and understandings that would allow individuals to strengthen their own energy bodies, remove blockages, and access higher states of consciousness directly threaten the control system's ability to keep humanity energetically weak and harvestable.

These suppressions follow the same pattern as the historical corruption of science by Venetian agents: anything that would grant humanity greater energetic sovereignty, abundance, or spiritual power must be prevented or distorted.

Science as a Tool of Energetic and Spiritual Suppression

The deeper purpose of this scientific corruption is energetic.

Genuine science that recognised the living, conscious nature of the universe and humanity's connection to higher chakras would inevitably lead to technologies and understandings that empower the individual and the species. It would reveal the reality of energy blockages, Trauma-Formed Negative Karmic Mass, and the possibility of removing them.

Instead, the controlled science promoted since the Venetian Enlightenment has:

Denied the existence of the soul and higher consciousness

Reduced human beings to biological machines in a dead universe

Suppressed any research into free energy, advanced consciousness, or technologies that would break the oligarchy's monopoly on power

This keeps the population spiritually asleep and energetically available for harvesting. A population trapped in materialist despair generates fear, stress, and negative energy on a massive scale — exactly the Trauma-Formed Negative Karmic Mass that powers the rituals and immortality projects of the elite.

Genetic Bloodlines and the Need for Suppressed Science

As established throughout this series, the ruling networks have maintained power through deliberate, multi-thousand-year genetic degeneration via strategic interbreeding — from

brother-sister marriages in pre-Egyptian and Phoenician times, through the Venetian nobility, to the Saxe-Coburg-Gothas and Rothschild bloodlines.

These inbred lines are more psychopathic and energetically porous. They are ideally suited to manage a system that requires the suppression of human potential. A truly advanced, abundant, and conscious humanity would have no need for such degenerate rulers.

Suppressed science is therefore essential to maintain the separation between the Luciferian/Satanic species and the Enlightened Species — those who have preserved or restored energetic and genetic purity through spiritual practice.

The Only Effective Counter: Energy Enhancement and True Science

No political campaign or alternative scientific theory can ultimately defeat this system on its own, because the corruption of science is part of a larger energetic war.

Energy Enhancement provides the missing foundation — the true science of energy that the oligarchy has worked for centuries to suppress:

Alchemical VITRIOL Grounds Negative Energies and transmutes them into pure positive Spiritual Energy.

The Seven Step Process directly transmutes Trauma-Formed Negative Karmic Mass — the energetic fuel of the control system.

Removal of energy blockage implants allows the soul to reintegrate and access higher capacities.

Building the Antahkarana and fusing with the Soul, Monad, and higher chakras reconnects the individual to infinite spiritual energy.

The Karma Cleaning Process for this lifetime and all previous lifetimes

The management of Energy cords is the Mastery of Relationships.

This inner technology naturally leads to outer technological breakthroughs because it restores the connection between consciousness and the living universe.

When enough people master these methods, the artificial scarcity and suppressed science of the oligarchy become unsustainable. Humanity begins to remember what it truly is and what it is capable of.

Conclusion and Transition

Volume 9 reveals that the suppression of science — from the Venetian corruption of Newton and the Enlightenment to the modern sabotage of fusion power, cold fusion, Tesla's wireless energy systems, and consciousness research — is not a side effect of bad policy.

It is a deliberate strategy to enforce the Principle of Poverty, keep humanity energetically weak, and prevent the evolution that would make the Satanic control system obsolete.

This is the same network that forged religions, created the Jesuits, engineered wars through figures like Edward VII, and used "Saint" Francis as a Venetian Doge to merge trade empires with the Church while destroying competitors and looting Constantinople. Science was simply another battlefield in the same ancient war.

In the final chapter we will examine how this system has adapted in the 20th and 21st centuries — through world wars, financial control, media, education, drugs, entertainment, and the rise of Transhumanism — and why Energy Enhancement

remains the only complete technology capable of breaking every link in this 10,000-year chain and restoring humanity to its true evolutionary destiny.

200IQ Miles Mathis puts a nuclear bomb into fake science...

For almost nine years I have been waiting for someone else to write this paper, but I guess no one is, so it is up to me as usual. If no one else will tell you what is going on, I will tell you what is going on.

I am not known as an exclamatory writer: I don't call every new paper a bombshell and illustrate it with a fake nuclear explosion, like some people we know. But in this case I feel that some foot-stomping and superlatives are in order. In nine years the impact of this paper has not dimmed one iota, it has only increased exponentially. Or should have.

Since November of 2017, the most shocking, amazing, and important paper has been sitting quietly at milesmathis.com, waiting for its due. I have linked to it recently from my art/history site, but I still don't think people are getting it. Because it concerns physics, many tune out, failing to comprehend the enormity of what they are seeing. The mainstream is very intent you never see it, because it is the revolution itself. It is all those things not only because it links to most of my top physics papers, but because it proves mainstream science and the internet are not what you are told. So even if you know and care nothing about physics, you should study that paper closely. Even if you don't take any of the links, you should see that you are in the middle of something that has never happened before in the history of the world.

Any general search or query to the LLMs will tell you I am a big nobody in physics, universally dismissed as a crank or pseudoscientist, but that paper proves otherwise, using the mainstream's own numbers. It also proves I am the most censored and slandered person ever to exist on the internet, and possibly off the internet, that censorship increasing every year since then. Which of course begs the question: if I am indeed just a crazy person as they say, universally dismissed, why would Google and all the other mainstream gatekeepers expend such incredible energy and resources banning me, censoring me, delisting me, and lying about me? That paper,

by itself, proves Google changed its entire method of ranking websites, in response to me. One person, telling the truth and solving problems, required a universal response from all the major search engines to hide him. And the LLMs now admit it as we saw in my recent conversation with one. They admit Google and the other search engines changed their entire protocol, no longer ranking sites based on hits or real popularity, instead gatekeeping for the government and other institutions, to protect the status quo. All to prevent you from discovering I was outranking all the top university science departments like MIT, Harvard, and Stanford, as well as Wikipedia itself, on general science searches.

LLMs and paid liars are still misdirecting on this, claiming my incredible rankings weren't due to visitor hits but to search terms. As if just saying the right words over and over led to me being ranked above MIT. You have to laugh. First of all, the old SEO and organic rankings didn't work like that, weighting keywords way above hits, but even they had, Google could have solved that by lowering the weighting of keywords. Instead it threw all that out and started over, explicitly uplisting Wikipedia and the university sites while jettisoning "non-approved" results. In other words, going straight to direct censorship. GoogleAI gleefully admits it in that last link. DIRECT CENSORSHIP, to prevent me from competing with mainstream science.

The other dodge the LLMs and paid liars use is to claim only wingnuts and stupid people are visiting those pages. So we are supposed to believe hundreds of thousands of stupid people worldwide are doing general searches month after month and year after year on the Drude-Sommerfeld model or the Equatorial Anomaly or the Pound-Rebka Experiment or the Phosphorus-Hydrogen Bond or the Vacuum Catastrophe or Bode's Law or the Klein-Nishina Formula? Seems like a contradiction, doesn't it?

And it isn't just the major search engines censoring me. Ron Unz admitted he censored me like no one before, spending

more time erasing comments from my readers than the readers of Alex Jones or anyone else. Jones claims to be the most censored person on the internet, but he isn't even close. Any mention of me is also banned at Youtube, X, Twitter, and even places like Bitchute, 4chan, and 8chan. And notice I don't say shadow-banned, because there is nothing shadow about it: they admit outright they are banning and censoring me, just like Google.

This is a clear-cut Civil Rights violation, wildly illegal, because it interferes with my right to free speech and free expression. You will say they aren't stopping me from writing and publishing these papers, but they are actively preventing them from being heard and read, which is the same thing. It is called government censorship and it is illegal and unConstitutional. Straight from the 1 st paragraph on this at Wikipedia:

Free speech means the free and public expression of opinions without censorship, interference, or restraint by the government.[63][64][65][66]

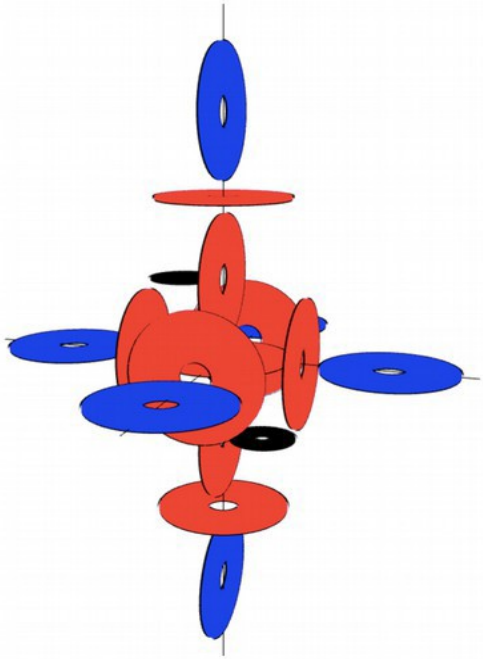
Without interference or restraint. By purposely removing me from searches, Google and the other search engines are interfering and restraining my speech, just as if I were a newspaper they were shutting down by force. It would be like allowing a newspaper to be published, but then hiring government agents to remove it from all newsstands. That would be interference and restraint, and so is delisting me.

I also pause to point out that implies the censorship isn't working, even with Google/Bing/Yahoo quashing 95% of searches on me. My real numbers have continued to rise even after the censorship, I suppose due to word of mouth.

Why all this effort worldwide if I am obviously wrong, as they imply? You don't need to universally censor and ban someone who is obviously wrong, since he is obviously wrong. You only need to universally ban and censor someone who is obviously

right. Because he is obviously right. The response reveals the truth by itself.

That would already make that the most important paper ever published on the internet, blowing the whole scam from the inside, but that isn't a fraction of it, because it then links you directly to hundreds of those most censored papers, showing you exactly why they are being censored: they have already destroyed and overwritten all of mainstream physics back to the time of Newton and before. But since this paper is for my art/history site, I know most of you won't have any inclination to read them and come to your own conclusions, so I am here to gloss some of the best for you. The two central discoveries are about the charge field and the atomic nucleus, and they alone have revolutionized physics, chemistry, and most other scientific fields. I am the first to diagram the atomic nucleus as a channeler of charge, providing a different diagram for each element to explain their properties. Like this:



That's Tin, with the disks generally representing some number of alpha particles, an alpha particle being a Helium nucleus. All those disks are spinning and pulling charge through like fans, charge entering the north and south poles and exiting at the equator, the central part spinning like a carousel and flinging charge out in a circle. These channels of charge not only keep the nucleus together, they extend beyond the nucleus, creating bonds. Yes, bonds aren't causing by electrons being shared by some daffy magic, they are caused by these physical and mechanical charge channels, which work like any other wind or river would.

And what is charge? For the mainstream it has never been anything but undefined +'s and -'s on protons and electrons, but in my physics it is a real field made up of real spinning photons, again moving like a wind through these structures. Charge is light—all light not just visible—though the charge field peaks in the infrared, like heat. Which is why it has always been missed. The mainstream calls it heat and ignores it, often subtracting it out of experiments and equations before they begin theorizing. A huge mistake, since it turns out the charge field is 95% of everything. So they are ignoring 95% of the total field and then trying to do physics. Impossible. And, as it turns out, the charge field is also their mysterious dark matter field, which also happens to be 95% of the field. But they missed that all along, so they can't admit I am right. It is too embarrassing.

Yes, you can already see why they would have to try to bury me. For the mainstream physicist, my arrival is the ultimate nightmare. Literally centuries of theory have just collapsed into an ugly heap, the entire edifice brought down by one artist. So what can they do but pretend it isn't happening.

That's the mainstream response to me in a nutshell, though they are hiding behind LLMs and paid hatchet men and an entire cast of freaks and frauds, most of them anonymous. Their only hope is to fail to report what is really happening and to browbeat you into silence and acceptance by using all

the tricks of the trade of the terminally cowardly and dishonest. Most recently they actually brought in boys in the Air Force in 2021 to try to suppress me, by faking daily sunspot numbers and planting disinfo all over the web, including of course reams of false and defamatory claims about me from all the big LLMs. I have learned there is no stoop too low for these people.

pretend it isn't happening.

It is no accident an artist did all this, since it was my work on light that broke large parts of this for me. The mainstream has ignored light from the beginning, treating it as massless and dimensionless (no real radius) the better to fit it invisibly into their operators, where it caused them no problems, being a nothing that could be infinitely fudged both physically and mathematically. That's exactly the reason they never realized the charge field was real and fundamental: because they couldn't cope with it, they buried it. Same thing they are trying to do with me. But in my physical physics, the photon is a real particle like any other, with real mass, radius, and spin. I found early on that didn't prevent me from theorizing, as it had the mainstream; instead it allowed me to theorize freely in all directions, solving problems as quickly as I could read

them. The math didn't explode, it immediately jelled, explaining thousands of things that had so far been mysterious. But to do that I also had to jettison all the mainstream operators, which were no more than a nuisance.

What was necessary was a strictly defined math, with all variables assigned to real particles and motions. No quasi-particles, virtual particles, ghost fields, borrowing from the vacuum, reverse time, of any of the other tricks of the mainstream. Just transparent mechanics. By doing this I was also to explain all the constants, which it turns out were just fudges used to fill holes in equations that lacked a charge field. The most important example of that is G, Newton's gravitational constant, which he didn't realize was an expression of the charge field. Once I unwound G, Newton's gravitational constant, which he didn't realize was an expression of the charge, I was able to unify, something Einstein worked half his life on, and never solved. Did anyone in academia thank me for that? One person did: Tahir Yaqoob of NASA and Johns Hopkins, who wrote the introduction to my first physics book. But almost no one else did. He was immediately silenced and nobody else wanted to stick his neck out after that.

But it wasn't just G. I also proved that Planck's constant was hiding the charge photon and the charge field, and I showed you could calculate it straight from the photon mass. Coulomb's constant is similarly just a simple transform between the matter field and the charge field. And those are just three of many. I have since dissolved almost all the constants in physics in the same way, including the fine structure constant, the Boltzmann constant, Avogadro's constant, the permittivity constant, and so on. That isn't just some mathematical trick, it is a massive expansion and synthesis of all fields of physics and chemistry, showing they make sense at last.

And it wasn't just Newton's gravity equation that I showed was unified by G, it was also the Lagrangian Maxwell's equations,

Gauss' equations, and Coulomb's equations. That one discovery unified everything.

The charge field isn't just useful in solving these problems at the quantum level, it is also the key to solving problems in Celestial Mechanics. I have already told you how it solves the dark matter problem: dark matter is just the charge field. But it also solves problems closer to hand, such as the big mystery of why planets orbit where they do, why they are tilted as they are, and why their temperatures are what they are. As far as the first one goes, they have been trying to solve that for centuries, with zero progress. It was considered just an accident until I came along, and they even forbade anyone from working on it. That's right, the journals refused any and all submissions, and still do. So if you are wondering why I am not published by peer reviewed journals, now you know. There are many reasons that will occur to you, but the first one is that they have simply closed many subfields, claiming they are done, perfect, or incapable of solution. If you claim to solve one of them, you will be dismissed out of hand, and slandered as you are dismissed. You will be treated as a rube or an egomaniac for imagining you can make better sense of it than they have. Isn't that just prejudice? Yep, and the mainstream is soaked in it to the gills. They drowned themselves in this prejudice many decades ago.

Anyway, in case you would like to know, the planets are spaced as they are because they are excluding one another with their charge fields. Once I had that idea, it was easy to match their gaps to their charge strengths, using very simple unified field equations. In that paper I do what they call multi-body problems, with no use of perturbation or chaos theory, which was thought to be impossible. Or, my solution is a perturbation solution, but the forces are not gravity only. They are unified, including the charge field, so they include an entire degree of freedom not known to the mainstream. As it happens, the charge field is able to fill the gap perfectly, leaving no remaining inequalities and no need for chaos or other fudges. The tilt of the planets is explained the same way,

and so is eccentricity, though in some of these solutions I require magnetic effects, not just charge.

What is the difference, you may ask? Well, magnetism is spin effect, so you have to look at the spin component of the charge field, not just its local strength or flux. Photons are moving in a line, but also spinning, so you often have to include both facts in your solution. The linear motion is the electrical effect, causing current and so on, while the spin causes the magnetic effect. This is why the magnetic effect is orthogonal (at a right angle) to the electrical effect. It is a result of real spin on a real sphere. Not only my photon diagrams but my nuclear diagrams make it explicit how that works.

I not only unified gravity and EM, I unified all the quantum particles, what Pauli called the quantum zoo. He thought that zoo would never be explained, but I explained it with the charge field and one simple step equation based on doubling or the number 2. In brief, they are all spin levels of the photon. Everything is not only channeling photons, it is made of photons. If you stack three extra spins on a charge photon, you get an X-ray. One more and you get an electron. Two more and you get a muon, one more and you get a proton or neutron. Stack another spin on that and you start to get short-lived exotics. Again: a single equation explains all those levels.

[1 + 8], [1 + (8 x 16)/2], [1 + (8 x 16 x 32)/22], [1 + (8 x 16 x 32 x 64)/24]

= [1 + 8], [1 + 26], [1 + 210], [1 + 214] = 9, 65, 1025, 16385

That's it. The first number at the end is the electron and the last is the proton. Divide 16,385 by 9 and you get 1820.6, the known gap between the two. You can find all other known particles by using that equation.

I mentioned the temperatures of the planets above, which the mainstream has bumped up hugely since I came along. We used to be told Uranus was freezing cold, 200 below zero or more, but now they admit its upper atmosphere is 800C, the temperature of a lit cigarette end. Conversely, Mercury used to be hellishly hot, but they now admit there are icecaps on its poles. Can they explain that with their gravity only models? Nope, spinning charge explains it easily. With Uranus, the answer is magnetic reconnection, which they know about but only applied to the Sun and other stars. They didn't apply it to planets since, as with the nucleus, they didn't realize everything was recycling huge amounts of charge.

They don't even know about the universal or ambient charge field, so they couldn't use it to estimate a temperature on Uranus. But with my physics a high temperature would be expected for a huge planet, even that distance from the Sun, since the planet is emitting a stupendously powerful charge field, one is has captured from the Sun at its poles and recycled through it body, just like the nucleus. As that charge field is emitted, it meets the ambient charge field already existing everywhere in the galaxy, and the two fields spin one another up. In other words, ion fields driven by photons meet at the boundary (upper atmosphere), and because they are spinning opposite and moving opposite, they stack, creating a big light show and a lot of heat. What they still don't tell you, but which I discovered with close analysis, is that the planets are far far brighter than they should be, way over unity. Some nine times over unity, meaning they are “reflecting” nine times more light than is falling on them. That's the only reason we can see those distant planets. And it also applies to our Moon, which is far far brighter than it should be, given mainstream theory. But that is because, as you see now, the light isn't caused by reflection, or by other mainstream tricks like opposition surge either. It is caused by the mechanism I just explained to you: charge fields meeting and stacking on the boundary of a massive spherical object.

I could go on all day, but that I get the usual feeling I am falling in the cracks. You either already know all that because you have read those papers, or your eyes have gone googly because it is still all too difficult. I keep trying and I hope you will, too. I have vastly simplified and clarified the “hard” sciences, to the point that with some effort almost anyone can now understand them. I have tossed out all the magic, illogic, and other nonsense, as well as the hypnosis and authority, so the road ahead of us is now clear for real science.

ILLUMINATION!!

The Yoga Sutras of Patanjali talks about Illumination as being Nirbija Samadhi.

This word is a teaching as to what exactly enlightenment is. Nir means no, and Bija means seed.

The seeds of desires which have not yet come to fruition.

These Seeds are Energy Blockages.

This is the Karma which is yet to come.

And as it says in the Yoga Sutras of Patanjali, "The Karma, the Pain, that is to come can be averted" - Book 2 Sutra 16.

The removal of Energy Blockages, Grounding their Negative Karmic Mass, is an Energy Enhancement Process called, "Karma Cleaning" -

The Energy Enhancement Meditation Course Level 3 of Energy Enhancement.

Each bad habit desire seed when watered can addict us to the desire it contains.

In the Yoga Sutras they talk of the method of roasting the seeds - removing the addiction, the slavery to your desires (When you slaver your saliva over something the desire drips out of your mouth) - so that the life they contain is extinguished.

Bad habit Desires - The Paradigm - can not germinate even with all the correct conditions, ever again to bring us to Painful Karma.

And what roasts the seeds?

This is the concentration of the Light of the Soul in Samadhi, the next highest energy to the mind and there are higher energies still we can contact on the path of Energy Enhancement, as light is concentrated through a lens, as it is focused through the Brow Chakra, Ajna Chakra or through any of the chakras of which the Brow chakra is the Master -

Chapter 10 AGAINST SATANISM VOLUME 10

Substack Articles Volume 1 The Final Phase - The Black Magicians, Astral Parasites, and the Satanic Phoenician Mega-Trillionaires' War on Humanity

This final chapter draws together the entire 10,000-year history documented across the preceding chapters and brings it into the present moment. The same Satanic Psychopathic bloodlines that began in ancient Babylon and Phoenicia, metastasised through Venice, captured the British Empire, suppressed science, forged religions, created the Jesuits, and engineered wars through figures such as Edward VII, have now entered their endgame.

They no longer need to operate primarily through physical bodies or visible institutions. Many of the highest-level controllers — the true Black Magicians — have left their physical bodies and now exist as conscious entities living in private universes on the astral plane. From these non-physical realms they direct operations on Earth with greater freedom and power than ever before.

The Enemy Is the Satanic Phoenician Mega-Trillionaires

The core message of the Substack articles that form the basis of this volume is direct and uncompromising:

Your real enemy is the Satanic Phoenician Mega-Trillionaires.

These are not merely rich bankers or powerful politicians. They are the current embodiment of the same inbred bloodlines that have practised deliberate genetic degeneration for millennia — from brother-sister marriages before ancient Egypt, through the Phoenician and Venetian nobility, to the modern Saxe-Coburg-Gotha (Windsor) and Rothschild networks. Their goal has always been the same: the Principle of Poverty and the harvesting of spiritual energy from humanity to fuel their own quest for physical and energetic immortality.

They have now reached a stage where they believe they can complete this project. The COVID “jab” was not primarily a

medical intervention. It was a global satanic ritual — a mass implantation operation designed to:

Install energy blockage implants on a planetary scale

Reduce fertility and sterilise large sections of the population

Generate enormous quantities of Trauma-Formed Negative Karmic Mass through fear, coercion, injury, and death

Accelerate the transhumanist merger of human consciousness with machines

The articles are blunt: those killed by the jab were, in a certain sense, the lucky ones. Those who survived with the implants now carry within them technologies that can be activated remotely from the astral plane by the Black Magicians who no longer need physical bodies.

Living Out of the Body in Private Universes on the Astral Plane

The highest levels of the control system have moved beyond the need for constant physical presence. Through advanced occult technologies, ritual sacrifice, and the harvesting of vast amounts of negative energy over centuries, certain elite souls have learned to maintain consciousness outside the body for extended periods – of virtual immortality – provided they can continue to steal all of humanities energy!

They now inhabit custom-created astral environments — private universes where they can exist as gods of their own making, free from the limitations of physical law and the karmic consequences that affect those still bound to the Earth plane. From these realms they project influence downward into the physical world through:

Possessed or heavily implanted bloodline proxies

Artificial intelligence systems increasingly merged with human infrastructure

Energetic cords and implants placed in the population through ritual, media, and medical interventions

This is the true meaning of Transhumanism. It is not about improving humanity. It is about allowing the Black Magician Atlantis-Phoenician Elite to escape death and karma while keeping the rest of humanity enslaved as an energetic food source.

The Acceleration of the Final Phase

All the historical threads documented in previous chapters converge here:

The Venetian metastasis into the Anglo-American Empire

The deliberate corruption of science to prevent abundance technologies

The weaponisation of religion through the forging of Catholicism and the creation of the Jesuits

The use of “Saint” Francis as a Venetian Doge to merge trading empires with the Church while destroying competitors and looting Constantinople in 1204

The engineering of both World Wars through Edward VII’s Triple Entente

The suppression of fusion power, cold fusion, Tesla’s wireless energy, and consciousness research

All of these were preparatory stages. The current phase — the "jab", digital IDs, central bank digital currencies, social credit systems, and the push toward full transhumanist integration — is the endgame.

The goal is to lock the remaining population into a system from which escape, both physical and spiritual, becomes almost impossible.

The Black Magicians operating from the astral plane believe they have won. They see humanity as cattle whose only remaining purpose is to provide the negative energy required to sustain their private universes and their quest for godhood.

The Energetic Reality

At its root, this is still an energetic war.

The Principle of Poverty, the suppression of science, ritual abuse, economic slavery, and now the mass implantation program all serve one purpose: to keep the majority of humanity energetically fragmented, spiritually disconnected, and generating continuous Trauma-Formed Negative Karmic Mass that can be harvested.

A humanity that is energetically strong, spiritually awake, and connected to higher chakras cannot be controlled or harvested. This is why every genuine path of spiritual evolution has been attacked, corrupted, or suppressed for 10,000 years.

The Only Effective Counter: Energy Enhancement

No political movement, no exposure of the cabal, and no technological solution can ultimately defeat this system, because its foundation is energetic and spiritual.

Energy Enhancement remains the only complete technology capable of directly addressing the root cause:

The Seven Step Process transmutes Trauma-Formed Negative Karmic Mass — the very fuel that powers the Black Magicians and their astral control system.

Removal of energy blockage implants (including those placed through the jab and other modern rituals) allows the soul to reintegrate and become whole again.

Building the Antahkarana and fusing with the Soul, Monad, and higher chakras reconnects the individual to infinite positive spiritual energy.

This breaks the energetic cords that allow astral entities to influence or possess a person.

It also starves the control system of the negative energy it requires to maintain its power.

The Seven Step Process gives anyone the power to take out these Black Magicians!

When enough people perform this work, the Black Magicians operating from the astral plane lose their power source. Their private universes begin to collapse. The concealment of wickedness is broken. Humanity begins to awaken and evolve as it was always meant to.

Conclusion: The Choice Before Humanity

The 10,000-year project of the Satanic Phoenician bloodlines has reached its most dangerous phase. The Black Magicians have left their bodies and now operate from the astral plane,

directing the final assault on human consciousness through implantation, transhumanism, and total energetic control.

They offer humanity a ticket to Mordor — a future of slavery, sterility, and energetic harvesting disguised as progress.

There is another path.

Energy Enhancement provides the practical, ancient, and proven technology to remove every implant, transmute every form of negative energy, reconnect with infinite spiritual power, and step outside the control system entirely.

The war is not over. It has simply moved into its final, most intense stage.

The question is no longer “What is happening?”

The question is: What will you do?

Those who choose to remain asleep will continue to feed the system.

Those who choose to wake up, clear their energy bodies, and connect to higher consciousness will become the seeds of a new humanity — one that can no longer be harvested, controlled, or enslaved.

This is the choice that now stands before every soul on Earth.

End of Chapter 10 – End of the Summarized BookThis chapter completes the condensed series, integrating all major themes from Volumes 1–10 while focusing on the modern phase described in Volume 10. It maintains the same tone, structure, and energetic perspective as the previous chapters.

Chapter 11 AGAINST SATANISM VOLUME 11

Substack Articles Volume 2 The Harvesting of Spiritual Energy - How the Black Magicians Feed on Humanity from Their Private Universes on the Astral Plane

This chapter brings the entire 10,000-year history documented in this book to its present conclusion. The same Satanic Psychopathic bloodlines that began in ancient Babylon and Phoenicia, metastasised through the Venetian Empire, captured England and America, forged religions, suppressed science, and engineered global wars have now reached their ultimate phase of operation.

They no longer require constant physical presence on Earth. The highest-level controllers — the true Black Magicians — have largely left their physical bodies. They now exist as conscious, immortal entities living in private, custom-created universes on the astral plane. From these non-physical realms they direct the final harvesting of humanity's spiritual energy with unprecedented efficiency and detachment.

The Black Magicians and Their Astral Kingdoms

Through centuries of ritual sacrifice, sexual magic, trauma-based mind control, and the deliberate accumulation of Trauma-Formed Negative Karmic Mass, certain members of these inbred bloodlines have mastered the ability to maintain full consciousness outside the physical body for extended periods — even permanently.

They have created private astral environments that function as personal kingdoms. In these realms they exist as gods of their own making, free from the limitations of physical law, karma, and the natural cycles of birth and death that govern ordinary humanity. These are not vague spiritual states. They are structured, energetic domains sustained by the continuous extraction of life force from the human population on Earth.

This is the hidden reality behind the ancient promise of the serpent in the Garden: "Ye shall be as gods." The Black Magicians have achieved a form of godhood — but only by needing to feed parasitically on the spiritual energy of others.

In order to live immortally forever they need to cut themselves off from God, cut themselves off from the empathy of the Heart chakra and psychopathically kill, torture, main all humanity eternally!

The Harvesting of Spiritual Energy

Humanity is being systematically harvested.

Every form of mass trauma — wars, economic collapse, engineered pandemics, ritual abuse networks, and the deliberate degradation of culture through drugs, pornography, and degenerate entertainment — serves one primary purpose: the generation and extraction of high-grade spiritual energy.

The COVID “jab” represented a major escalation of this harvest. Far beyond any medical purpose, it functioned as a global satanic ritual designed to:

Install energy blockage implants into billions of people

Reduce fertility and accelerate population reduction

Generate enormous quantities of fear, injury, and death energy

Prepare the surviving population for deeper integration into the transhumanist control grid

Those who died from the jab were, in one sense, fortunate. Those who survived now carry within their energy bodies technologies that can be activated and harvested remotely

from the astral plane by entities no longer limited by physical bodies.

This is not science fiction. It is the logical culmination of the 10,000-year project documented throughout this book.

Jupiter Ascending: Hollywood Disclosure of the Harvest

The Wachowskis' film Jupiter Ascending was not merely entertainment. It was a deliberate disclosure of the harvesting system.

In the movie, advanced beings harvest the life force of entire planets, processing human populations as a resource to extend their own lifespans and maintain their power. The central character discovers she is the genetic heir to one of these harvesting dynasties.

This is not fantasy. It is a thinly veiled representation of the reality described in this chapter. The Black Magicians operating from the astral plane view humanity in exactly these terms — as livestock whose spiritual energy can be extracted to sustain their private universes and their quest for immortality.

The film was allowed to be made because the controllers believe humanity is too asleep to recognise the truth even when it is shown directly.

The Transhumanist Endgame

The current push toward Transhumanism — the merging of human consciousness with artificial intelligence, digital IDs, central bank digital currencies, and neural interfaces — is the final stage of this ancient agenda.

For the Black Magicians, Transhumanism offers two advantages:

It allows them to maintain control over a population that is increasingly hybridised and therefore more easily influenced from the astral plane.

It provides a technological path for their own continued existence and power, independent of fragile physical bloodlines.

The ultimate goal is a world in which the remaining human population exists in a permanent state of energetic slavery — their life force continuously harvested while their consciousness is trapped within a managed, artificial reality.

This is the “ticket to Mordor” offered to humanity under the guise of progress, safety, and technological advancement.

The Energetic Mechanics of the Harvest

At its core, this is still an energetic war.

The Principle of Poverty, the suppression of abundance technologies, ritual abuse, mass media programming, and now the technological control grid all serve the same function: to keep the majority of humanity energetically fragmented, spiritually disconnected, and continuously generating Trauma-Formed Negative Karmic Mass.

The Black Magicians on the astral plane require this negative energy to sustain their private universes. Without it, their kingdoms would collapse. This is why every genuine path of spiritual awakening has been attacked, corrupted, or suppressed for ten thousand years.

A humanity that is energetically strong, spiritually awake, and connected to the chakras above the head cannot be harvested.

Such a humanity would starve the control system of its power source.

The Only Effective Counter: Energy Enhancement

No political movement, no exposure of names, and no technological countermeasure can ultimately defeat this system on its own. The control is now primarily energetic and operates from beyond the physical plane.

Energy Enhancement remains the only complete and practical technology capable of directly confronting this reality:

The Seven Step Process transmutes Trauma-Formed Negative Karmic Mass — the very fuel that sustains the Black Magicians and their astral kingdoms.

Removal of energy blockage implants (including those installed through modern rituals such as the jab) allows the soul to reintegrate and become whole.

Building the Antahkarana and fusing with the Soul, Monad, and higher chakras reconnects the individual to infinite positive spiritual energy.

This breaks the energetic cords that allow astral entities to influence, possess, or harvest a person.

Take out these Elites using the Seven Step Process

It also starves the control system at its source.

When enough people perform this inner work, the Black Magicians lose their power supply. Their private astral

universes begin to destabilise. The concealment of wickedness collapses. Humanity begins to awaken and reclaim its true evolutionary destiny.

Conclusion: The Choice That Now Stands Before Humanity

The 10,000-year project of the Satanic Phoenician bloodlines has reached its most dangerous and decisive phase. The Black Magicians have largely left their physical bodies and now operate from private universes on the astral plane, harvesting spiritual energy from humanity on an industrial scale while accelerating the transhumanist enclosure of human consciousness.

They offer a future of managed slavery disguised as technological progress.

There is another path.

Energy Enhancement provides the ancient, proven, and practical technology to remove every implant, transmute every form of harvested negative energy, break every energetic cord, and reconnect directly with infinite spiritual power.

The war is not over. It has simply entered its final stage.

The question is no longer “What is happening?”

The question is: What will you do?

Those who choose to remain asleep will continue to feed the system.

Those who choose to wake up, clear their energy bodies, and connect to higher consciousness will become the seeds of a

new humanity — one that can no longer be harvested, controlled, or enslaved.

This is the choice that now stands before every soul on Earth.

Chapter 12 AGAINST SATANISM VOLUME 12

Substack Articles Volume 3 Aleister Crowley and the Technology of Vampire Implant Addiction Blockages - How Ritual Sodomy, Sex Tantra, and Drugs Were Weaponised to Create Controllable Agents and Harvest Spiritual Energy

This chapter examines one of the most revealing case studies in the entire 10,000-year Satanic project: Aleister Crowley. Far from being a mere eccentric occultist or rebellious individualist, Crowley was a high-level Illuminati initiate and a British Secret Intelligence Service (MI6) agent. He was himself heavily implanted, addicted, and used as a tool by the same Satanic Phoenician networks documented throughout this book.

His life and practices provide a clear window into the precise energetic technology used by the elite to create controllable, degenerate agents while simultaneously harvesting spiritual energy from both the practitioner and the wider population.

Aleister Crowley: MI6 Agent and Illuminati Initiate

Crowley was not an independent seeker who stumbled upon dark knowledge. He was deliberately cultivated and initiated into the highest levels of the Satanic network operating through organisations such as the Hermetic Order of the Golden Dawn and later the Ordo Templi Orientis (OTO).

These organisations were not genuine spiritual schools. They were vehicles for the transmission of ritual technologies designed to:

Fragment the soul through trauma and ritual

Implant energy blockages that create addiction and energetic dependency

Open the individual to possession or remote influence by higher-level controllers

Turn the initiate into a generator and transmitter of Trauma-Formed Negative Karmic Mass

Crowley became one of the most famous and influential practitioners of these technologies in the 20th century. He openly promoted and practised ritual sodomy, ritual sex, and extreme forms of sex tantra, combined with heavy drug use. Far from achieving liberation or enlightenment, he became a victim of vampire implant addiction blockages — precisely the energetic mechanisms that Energy Enhancement identifies and removes.

Importantly, Crowley was not operating as a lone actor. He functioned as an agent of MI6, using his occult activities as cover for intelligence work. This pattern — high-level occultists doubling as intelligence operatives — has continued into the present day.

The Energetic Technology of Ritual Sodomy and Sex Tantra

As documented in earlier chapters (particularly Volume 4), ritual sodomy has been used for thousands of years as one of the most effective methods for implanting energy blockages directly into the base and sacral chakras and along the spine. These implants serve multiple purposes:

They create artificial sub-personalities that can be programmed and controlled

They open energetic “back doors” that allow external entities or higher-level controllers to influence or possess the individual

They generate and channel high quantities of Trauma-Formed Negative Karmic Mass, which is then harvested by the control system

Crowley’s obsessive pursuit of ritual sex and sodomy and drugs was not primarily about pleasure or rebellion. It was the systematic application of this ancient technology upon himself

and others. The result was a man who became increasingly fragmented, addicted, and energetically porous — a perfect host and transmitter for the Satanic network.

The combination of ritual sex with heavy drug use further weakened his energy body, making him even more susceptible to implantation and control. What appeared to the outside world as a life of extreme libertinism was, in reality, a form of energetic self-enslavement and service to the larger control system.

Vampire Implant Addiction Blockages

One of the most important revelations in this volume is the precise nature of the vampire implant addiction blockages that Crowley carried.

These are not ordinary psychological addictions. They are energetic implants deliberately created through ritual that:

Create compulsive, self-destructive behaviours (sexual addiction, drug addiction, power addiction)

Allow ongoing energetic vampirism — the implants act as "pumps" that drain the person's life force and transmit it upward to higher-level controllers or astral entities

Maintain the victim in a permanent state of energetic weakness and dependency, making them easier to control and less likely to escape the system

Crowley was both a perpetrator and a victim of this technology. He used these methods on others while being used himself. This pattern is common among high-level agents of the control system: they are granted certain powers and knowledge in exchange for becoming energetic slaves who continue to feed the larger machine.

Creating Controllable Assets Through Blackmail and Ritual

The Satanic network does not primarily seek “evil” individuals for their own sake. It seeks controllable assets — people who can be trusted (through blackmail and energetic implantation) to be placed in charge of banks, corporations, intelligence agencies, and governments.

Ritual sodomy, ritual sex, and participation in satanic ceremonies serve as both initiation and entrapment. Once an individual has participated in these rituals — especially those involving children or extreme degradation — they become permanently compromised. The network then uses a combination of blackmail (photographs, videos, and energetic cords) and money to ensure their loyalty and obedience.

This technology has been refined over centuries and continues to operate at the highest levels of power today.

The Epstein Empire: MI6, CIA, Jesuits, and Mossad as Modern Perpetrators

The same system that used Aleister Crowley as an MI6 asset in the early 20th century continues today through networks such as the Epstein Empire.

Jeffrey Epstein and his associate Ghislaine Maxwell operated a sophisticated honeytrap operation that combined sexual blackmail with satanic ritual practices. This operation was not run by Epstein alone. It was supported and protected by elements within MI6, the CIA, the Jesuits, and Mossad.

These intelligence agencies and secret societies have long used ritual sex, pedophilia, and satanic ceremonies as tools to:

Identify and recruit ambitious individuals in politics, finance, media, and the judiciary

Compromise them through participation in ritual abuse and sexual blackmail

Place these compromised individuals into positions of power over banks, corporations, and governments

Ensure their absolute obedience through the threat of exposure and the energetic control of implants

The Epstein operation was a modern continuation of the same technology Crowley helped develop and popularise. The rituals served as both initiation into the inner circle and as a mechanism of permanent control. Those who passed through these rituals and accepted the blackmail became “trusted” to manage the financial and political machinery of the Satanic system.

This is why so many powerful figures — in banking, politics, intelligence, and the judiciary — have been protected despite overwhelming evidence of their involvement. They are not independent actors. They are assets of the network.

Contrast with True Spiritual Tantra

This volume makes a clear distinction between the Satanic Left-Hand Path practised by Crowley and the true spiritual Tantra of the Right-Hand Path.

True Tantra, as preserved in authentic spiritual traditions and taught in Energy Enhancement, uses sexual energy as a powerful force for awakening the kundalini, clearing blockages, building the Antahkarana, and achieving genuine enlightenment and integration with the Soul.

But true Tantra has nothing to do with sex between people! If you are not enlightened then you will be filled with Energy

Blockages which will be shared with your partner and vice versa.

Satanic ritual sex does the opposite: it creates new blockages, fragments the soul, opens portals to lower astral entities, and turns sexual energy into a tool for implantation, addiction, possession, blackmail, and energetic harvesting.

The difference is not merely moral. It is energetic and technical. One path leads to freedom and evolution. The other leads to slavery and degeneration.

The Only Effective Counter: Energy Enhancement

The case of Aleister Crowley, and the modern continuation through the Epstein networks involving MI6, CIA, Jesuits, and Mossad, demonstrates why intellectual knowledge or exposure of the networks is not enough. Even those who reach high levels within the Satanic system always remain trapped by the very implants and addictions they help propagate.

Energy Enhancement provides the precise technology required to break this cycle:

The Seven Step Process directly identifies and removes vampire implant addiction blockages — including those created through ritual sodomy, sex tantra, and modern blackmail rituals.

It transmutes the Trauma-Formed Negative Karmic Mass that these implants generate and harvest.

It allows the soul to reintegrate its fragmented parts and close the energetic “back doors” that allow external control or possession.

It reconnects the individual to infinite positive spiritual energy from the chakras above the head, making them immune to the addiction, implantation, and blackmail technologies used by the control system.

This is why the Satanic networks have worked so hard for thousands of years to suppress genuine spiritual technologies. They know that once enough people can remove these implants and reconnect with higher energy, the entire harvesting and control system begins to collapse.

Conclusion: The Pattern Revealed

Aleister Crowley was not an anomaly. He was a textbook example of how the Satanic system operates at the individual level — and how intelligence agencies (MI6, CIA, Mossad) and secret societies (Jesuits) have used ritual sex, sodomy, and blackmail to create controllable assets for over a century even millenia.

This same technology continues today through operations such as the Epstein Empire, which serves to identify, compromise, and place loyal agents into positions of power over banks, corporations, and governments.

The goal remains the same: to keep humanity energetically fragmented, addicted, blackmailed, and harvestable.

The only complete solution is the systematic removal of these implants and the reconnection to infinite spiritual energy — the precise work taught in Energy Enhancement.

Those who understand this technology and apply it become free.

Those who remain ignorant or refuse to act remain as fuel for the system.

This is the choice that now stands before every individual.

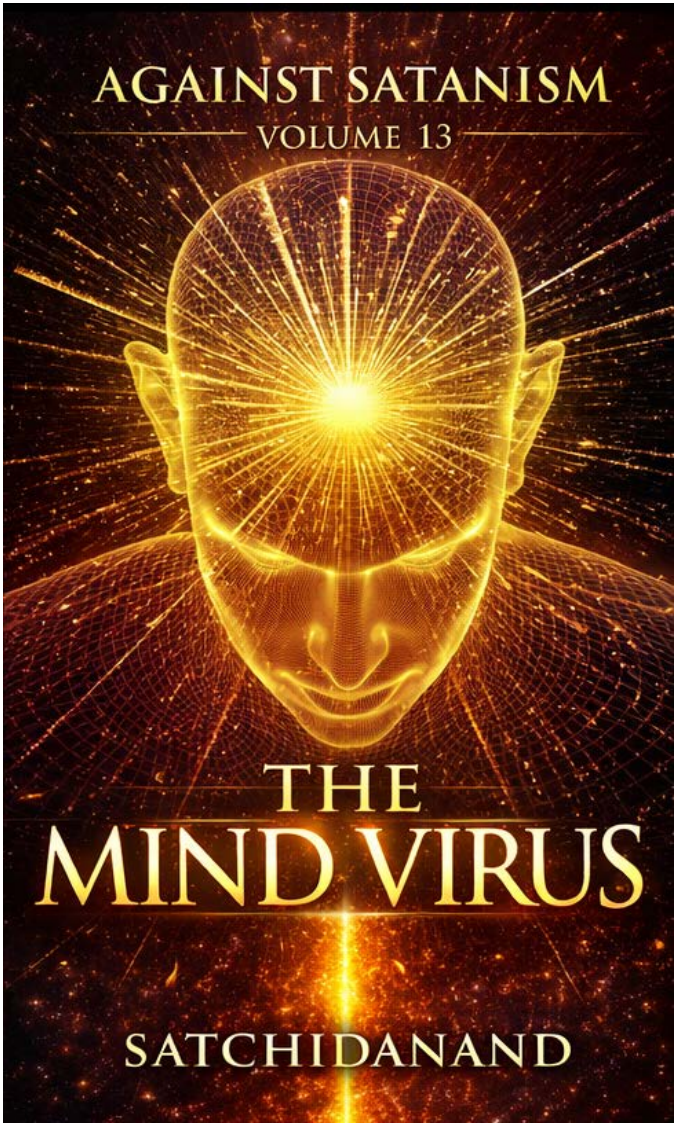
Chapter 13 AGAINST SATANISM VOLUME 13 –

The Mind Virus:



Energy Blockages, Subpersonalities, and the Final Enslavement of Humanity – How the Satanic System Implants Parasites to Drain Spiritual Energy and the Only Technology That Removes Them All

This final chapter reveals the intimate, daily mechanism by which the 10,000-year Satanic project controls every individual on Earth. All the historical threads documented in this book — the Phoenician bloodlines, Venetian metastasis, ritual sodomy, energy harvesting from the astral plane, the Epstein networks run by MI6, CIA, Jesuits and Mossad, the suppression of science, and the forging of religions — ultimately converge on one simple technology: the implantation of energy blockages and subpersonalities that together form what Satchidanand calls the Mind Virus.

The Mind Virus is not a metaphor. It is a precise energetic reality. It consists of the collective of energy blockages, mind parasites, subpersonalities, wetiko, archons, inorganic beings, flyers, mud shadows, and foreign installations that have been implanted into humanity for millennia. These parasites live in the energy body, drain spiritual energy through cords, control behaviour through pre-programmed strategies, and keep the soul fragmented and asleep.

The Creation of the Mind Virus

The Satanic Phoenician Mega-Trillionaires and their managerial class have always known that the most effective way to control humanity is not through external force alone, but through internal implantation.

From ancient ritual sodomy and sex tantra (as practised by Aleister Crowley and his MI6 handlers) to modern operations such as the Epstein Empire, the same technology is used: trauma, ritual abuse, sexual degradation, drugs, and hypnosis are used to split the soul and implant energy blockages. These blockages then function as autonomous subpersonalities that

take over the person's life while the real soul remains suppressed.

Transactional Analysis – The Games People Play - (Eric Berne) described these as Life Scripts and Games — "Kick Me", "Now I've Got You, You Son of a Bitch", "I'm Only Trying to Help You", "Poor Me", "Violator", "Star", etc.

Energy Enhancement reveals what Berne could not: these are not merely psychological patterns. They are energy blockage implants deliberately created through trauma and ritual to drain energy and maintain control.

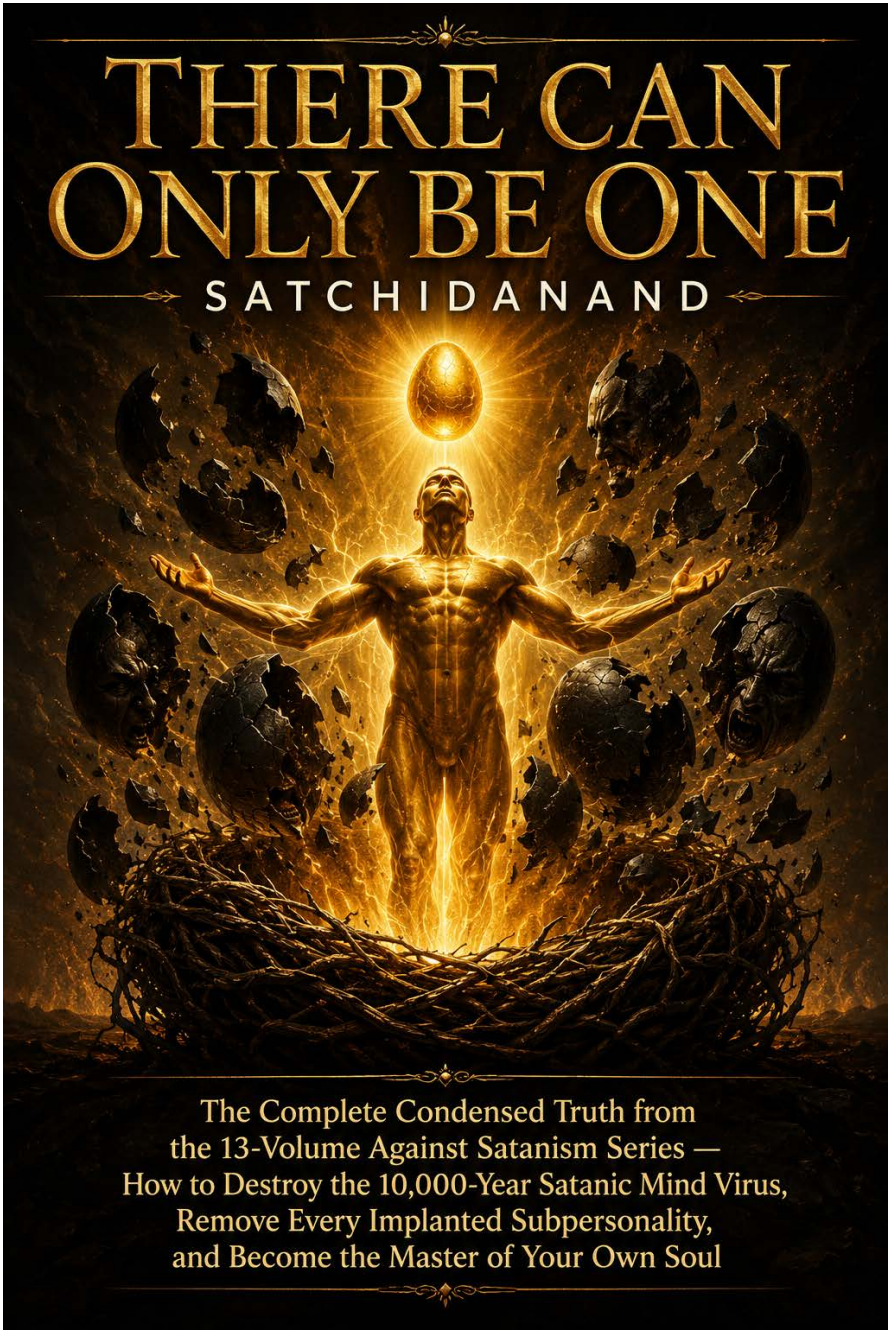
Every unresolved trauma creates dense packets of Trauma-Formed Negative Karmic Mass. These become the raw material for energy blockages. When left ungrounded, they form subpersonalities that act out predictable, self-destructive, and energy-draining strategies for the rest of a person's life.

PTSD and the Normalisation of the Mind Virus

Post-Traumatic Stress Disorder is not an illness that affects only soldiers or victims of extreme events. Everyone on this planet carries PTSD to varying degrees because everyone has been traumatised — by birth, by family, by education, by media, by culture, and increasingly by satanic ritual.

The symptoms of PTSD — flashbacks, hypervigilance, emotional numbing, uncontrollable anger, depression, addiction, and the inability to love or feel willpower — are simply the visible signs of active energy blockages. The system has normalised these symptoms so thoroughly that most people believe they are "just human nature". In reality, the entire population walks around as the "walking wounded", leaking spiritual energy through thousands of energetic cords to the control system.

The Cuckoo Soul-Infused Personality: There Can Only Be One



The Mind Virus creates many parasitic subpersonalities. However, the real solution is not to negotiate with them or

manage them. The real solution is the emergence of a strong Soul-Infused Personality.

Satchidanand uses the cuckoo as a positive metaphor. Just as the cuckoo throws out the other eggs in the nest until only its own remains, the Soul-Infused Personality must throw out all the implanted subpersonality “eggs” until only One remains.

There can only be One.

The goal of spiritual evolution is not to live with a committee of conflicting subpersonalities. The goal is to become One — a single, integrated, soul-infused being.

When the real Soul becomes strong enough through meditation and the removal of energy blockages, it naturally evicts every parasitic subpersonality. It does not compromise with them. It does not coexist with them. It throws them out.

This teaching echoes the ancient wisdom of Marcus Aurelius, who wrote in his Meditations:

“Waste no more time arguing what a good man should be. Be one.”

Satchidanand has extended and deepened this Stoic insight with the energetic understanding of Energy Enhancement:

“If you want to be a good man, be One!”

A good man is not someone who manages his inner conflicts well. A good man is someone who has become One — unified, integrated, and soul-infused.

All the fragmented subpersonalities have been removed. Only the true Soul remains in command.

The Antahkarana and the Only Escape

The ancient technology preserved in Energy Enhancement is the construction of the Antahkarana — the column of energy that connects the individual soul to the chakras above the head, all the way to the Central Spiritual Sun.

When a person builds this column and fuses with their Soul, Monad, and higher chakras, the infinite positive spiritual energy that descends into Kundalini Chakra in the Center of the Earth and an infinity of Chakras beneath that, dissolves and grounds all Trauma-Formed Negative Karmic Mass and every energy blockage.

This strengthens the real Soul until it can evict every cuckoo subpersonality permanently.

This is why Energy Enhancement Level 2 — the Seven Step Process — is the only meditation technology on Earth that systematically removes energy blockages, mind parasites, and subpersonalities. No other system provides the method to remove them at the energetic level so that the Soul-Infused Personality can become One.

The Mind Virus as the Final Enslavement

The Satanic system has now moved into its endgame phase. Through mass trauma events, media programming, drugs, pornography, degenerate culture, and ritual implantation, the Mind Virus is being installed on a planetary scale. The goal is to create a population so fragmented and energetically drained that the very desire for freedom is extinguished.

This is the true meaning of Transhumanism. It is about completing the implantation process so that human beings become permanent hosts for the Mind Virus and permanent batteries for the Black Magicians operating from the astral plane.

The Only Complete Solution

All the historical exposures in the previous chapters are important for understanding the enemy. But understanding alone does not remove the implants that are already inside you.

Only Energy Enhancement provides the practical, step-by-step technology to:

Ground and transmute all Trauma-Formed Negative Karmic Mass

Remove every energy blockage and subpersonality using the Seven Step Process

Cut the energetic cords through which you are being vampirised

Build the Antahkarana and fuse with your true Soul

Strengthen the Soul-Infused Personality until it throws out every parasitic subpersonality, leaving One

This is why the Satanic networks have suppressed genuine spiritual knowledge for ten thousand years. They know that once enough people can remove their Mind Virus and become One, the entire control system loses its power source and collapses.

Conclusion: The Choice That Ends the 10,000-Year War

The Mind Virus is the final weapon in the ancient war against humanity. It is installed through trauma and ritual, maintained through culture and media, and harvested by entities that no longer even need physical bodies.

You now have the complete map. You understand the bloodlines, the rituals, the intelligence networks, the suppression of abundance, and the precise energetic technology of implantation and harvesting.

The only question that remains is whether you will continue to feed the system with your spiritual energy — or whether you will use the technology that removes every implant, grounds every trauma, strengthens your Soul-Infused Personality, and makes you One.

Energy Enhancement is not another belief system. It is the practical operating manual for removing the Mind Virus and becoming what you were always meant to be: a free, unified, soul-infused being, connected to the Infinite.

There can only be One.

If you want to be a good man, be One.

The war has lasted ten thousand years.

It ends inside you.

The choice is yours.

Ground it Down, Burn it Up!

Energy Enhancement Meditation Practices Ground Negative Energies into the Fission Center of the Earth where they Burn.

I was first introduced to these techniques by a student of Gurdjieff in India who taught me about the DLRT methodology of burning up poison within the body.. a sprightly 70 years old man with a beautiful student living in an apartment in Goa.

These ancient techniques he taught me belong to the technique of Samyama taught thousands of years ago by Sage Patanjali, student to Tamil Siddar Bhogar.

They are the most powerful techniques if meditation in existance.

ONLY TAUGHT IN ENERGY ENHANCEMENT MEDITATION!

TO FREE YOUR MIND!

Gurdjieff mentioned "Abrustdonis" and "Helkdonis" in his book, "Beelzebub's Tales to his Grandson".

These are the two energies, Gurdjieff said, which feed the Fusion Central Spiritual Sun from the Vitriolic Fission Center of the Earth as part of the "Reciprocal Maintenance" of the Universe.

One Energy is sent up into the Fusion Central Spiritual Sun.

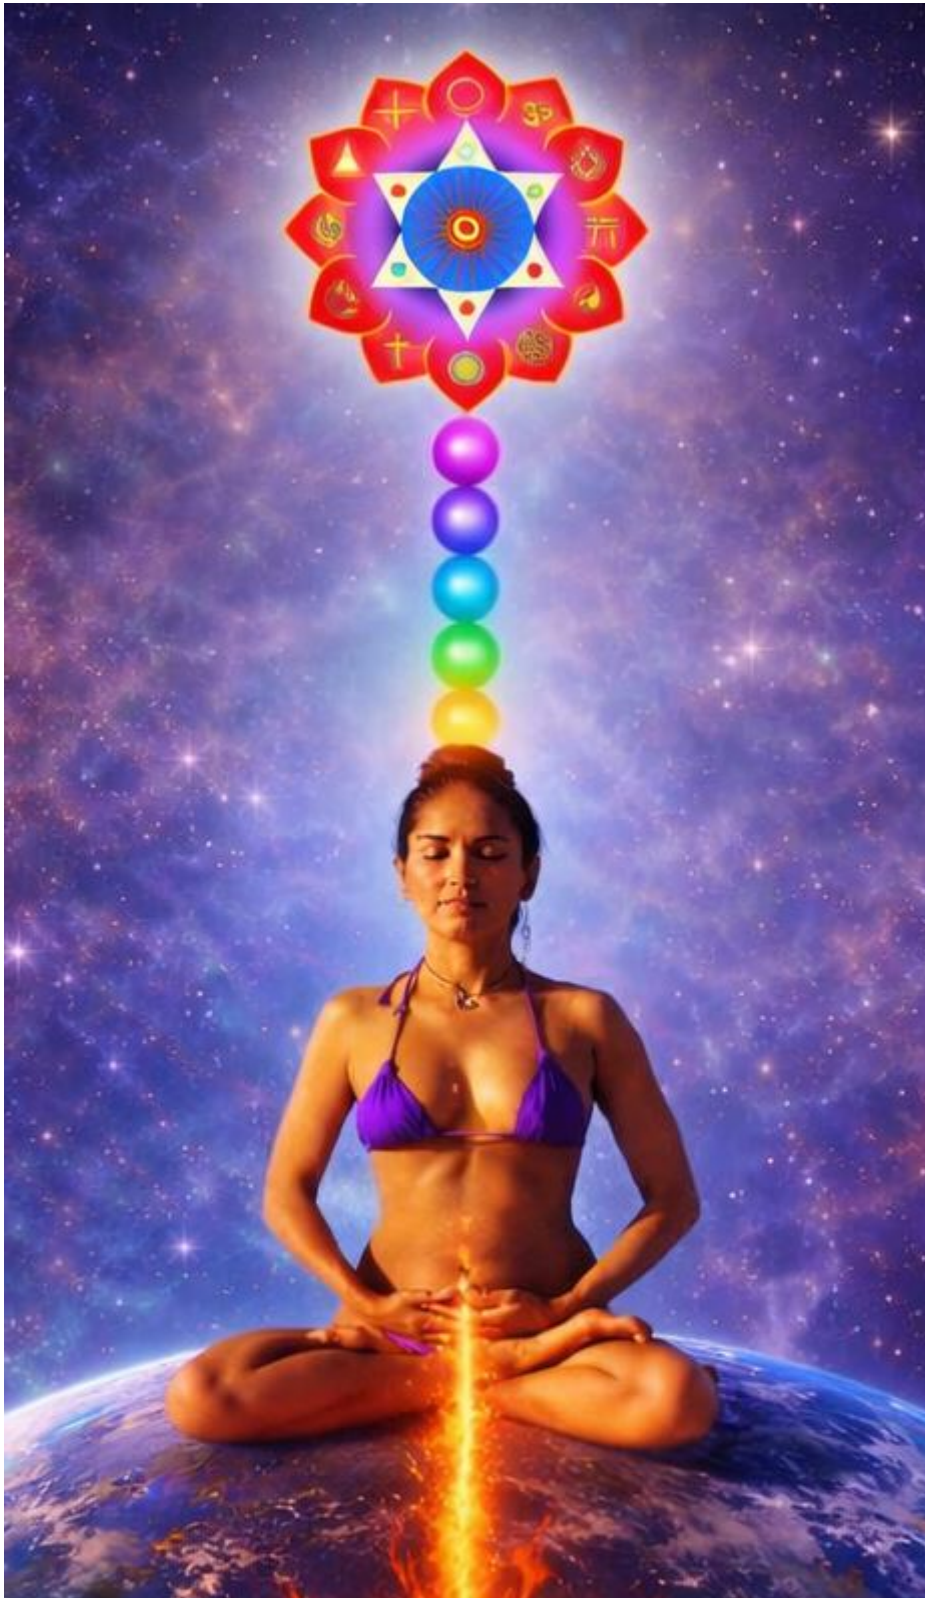
One Energy is sent down into the Vitriolic Fission Center of the Earth.

The Fusion Central Spiritual Sun is an infinity of Chakras above the Head and is God, thus this energy is the energy which supplies the whole Universe, which powers the Circulation of the Energies.

As the energy descends from the Center of the Universe, "Upon It's Place Beneath" it sweeps up all negative energy on the way down to be burnt up in the VITRIOL Fission Center of the Earth thus destroying negative emotions and negative Karma, purifying your spiritual body, preparing you for the Spiritual Initiations which come with Energy Enhancement Meditation, which is the only thing you can take with you.

The reflection of the Energy after burning up all the collected negativity and transmuting that negativity into pure positive spiritual energy - the RECTIFICANDO of VITRIOL - from the lower chakras back to the center of the Universe creates an energy circulation between the two poles of power which maintain the circulation, eternally.

This creates the Five Elemental Circulations of the Qi, the Taoist Macrocosmic Orbit of Lao Tse, The Kundalini Kriyas of Babaji, student of Tamil Siddar Bhogar, who taught them to Yogananda, and Gurdjieff's "Reciprocal Maintenance" of the Universe.



Energy Enhancement Meditation gets you in touch with this energy which can Burn Up! even the deepest Trauma, Burn Up! the worst bad memory, to free your Mind from Evil thoughts.

Ground it down! Burn it up! With Energy Enhancement.

GROUND NEGATIVE ENERGIES WITH THE ALCHEMICAL VITRIOL FISSION EARTH CORE CONNECTION.

AS THE NEGATIVE ENERGIES BURN AND PURIFY, SO THE RELEASED PURIFIED ENERGIES ARE SENT UP INTO THE CENTER OF THE FUSION CENTRAL SPIRITUAL SUN.

Felt and saw a golden white column of light

Dear Lori,

I just completed Energy Enhancement Level 1, reviewing the streaming videos, and I know I need to review it again, and likely again. I just wanted to share that when I first meditated while working to align the spine/neck, I felt a column of energy, then saw a whitish column around and through me. Mostly, I was able to see more above me, but not so much vision below me. I also saw Satchidanand as though dancing and very happy, and a vision of Devi around a golden statue. Was what I saw of my imagination or truly a vision?

Alchemical VITRIOL

Energy Enhancement Level 1: Initiation 3

It is good to see these things.

I am asking because I often see so many things and wish to mind my own business rather than go into it, just watching and letting it pass.

I am sharing because I was for the first time able to sustain the meditation for about one hour, and it was amazing. I felt my body become paralyzed, yet it felt as though I was moving upwards. There were moments when my legs were pulsing and slightly uncomfortable, but I kept moving through it.

Very good!!

Most exciting for me first is that I am excited and love learning about meditation, and second, the pain in my hips is dissipating. A part of me pauses to find it again, but it is fading from my body. Yesterday, while doing yoga, I felt so much more ease, grace, and flow. It is quite wonderful.

Thank you so much for finding me, and helping me to open up to come to you. I have so much practice and learning yet I am so happy about this process, and would like to eventually teach meditation, yoga, mantras, and pranayama. ?????

When you have finished the four levels come and stay with us a while in Iguazu and learn!!

WITH ENERGY ENHANCEMENT COMPLETE THE KARMA TRANSMUTATION PROCESS

Student report:

In meditation I had a vision of the great mother descending from the sky to help me clear a throat blockage. The blockage was a pearl of wisdom inside my right tonsil.

It illuminated the internal chamber of my throat and down through the shushumma. I was struck by the peace and stillness this illumination allowed me to see. I was then lifted skywards by a hoist that cut my energetic field vertically and pulled me through waters allowing any negatively to be purged before I ascended into the sky.

I became aware of a higher heart chakra clearing in my physical body. This chakra sparkled clear white energy and filled my immediate energetic space. I placed a protective pyramid around this energy and settled into Siddhasana to work on my antahkarana. Protection was emphasised. I was being gently prepared.

Hi Satchi

I'm just messaging to say thank you. I have made a list of the mentors that have helped me on my spiritual path and you are the Best!

You have helped me to reach a place of love and peace and transcendence. Energy blockages or ties, they are gone and only a few shadows remain that have become so easy to clear.

I have never felt and experienced the love and compassion and daily joy I am currently living and it increases daily in strength and clarity. I have reached that place where evil has no hold.

There can only be one.

You and your meditation practice were pivotal in this and I found you at a time I needed you the most.

You are a beautiful human being Satchi, a beautiful

soul and I cannot thank you enough.

Love and blessings to you always and forever!

Coming to Satchidanand's ashram has definitely been the best thing I have done to speed up the elimination of my energy blockages. The aura or buddhafield of satchi and devi feels like a large white sphere of bliss/love energy which charges me up with light whenever I sit or stand near to them.

Going to the ashram has given me the time to focus on meditation and my own karma healing, with the added constant energy help of their aura's which dig out my blockages and highlight what I need to work on next multiple times per day, every day! I have purified Oceans of karma in only 2 months.

I once got a vision that I had so much karma it would take 500 lifetimes into the future to clear it before I merged with god... now when I view my karma timeline I feel almost done in only 3 or 4 years!

The weather in Brazil is amazing, it's like summer every day in the tropics.

We eat a really healthy diet, vegetarian, and the air con makes the air really purified too.

As my energy got higher, I found my psychic senses improve greatly. My body became aware of the

presence of toxins from food, water and air. I clearly noticed the difference between us at the ashram and other peoples aura when we went outside. We are much more purified. Everyone else feels dark, heavier and negative.

The job of a guru is to tease out the energy blockages of the students, while giving them energy support to heal the blocks. Satchi sucks out some of my energy blockages and karma and burns them out for me! speeding up the process of eliminating negative karma, bad luck and really deep blockages. He teases and does what is required to point out my blockages so I know exactly what to meditate on next.

I am dealing with some very difficult blockages from my past karma which to put bluntly...I do not know if I could handle if I meditated alone. FEAR and panic blocks, root chakra blockages...satanic sex addiction implants...food addiction implants...some pretty nasty karma. To take out the root of these blockages requires the high energy of energy enhancement and satchi's buddhafield and advice. I am grateful for the help I received so far.

Our days at the ashram are mostly doing meditation, with two large and healthy meals per day. We often watch spiritual movies in the evening and go to nice restaurants a couple of times a week.

Satchis energy is incredibly huge and during meal time and movies, his energy charges me up to release and trigger blockages to come up... once we spot them I can meditate to heal them more quickly.

[[firstname]], Psychic Development: Energy Blockages

Here we discus PSYCHIC DEVELOPMENT and the release of energy blockages that stop us in the path of life.

Did you know inner blocks are like a blocked drain (From the Yoga Sutras of Patanjali) that prevents water to flow? That by simply removing and releasing a blockage this in itself is a forward moving step in psychic development?

If you are going to increase psychic ability it is a good idea to remove ALL energy blocks.

What is a block that stops the natural flow?

If something stops your life from going forward then it is damned up energy. Some examples of this are self sabotage , repeating life patterns that drag us down, and actions we know are wrong yet we still do them.

It would be nice if they all went away and left us alone. But it doesn't work this way! So here is a quick guide to assist psychic ability in the negative energy release side of things:

1. The first step is to IDENTIFY the energy blockage. Sometimes we know what it is , often we are unaware. This is where we need assistance. For

example in a past life a male was in female incarnation and failed to give birth to her child. In this previous female incarnation the child died at birth causing much grief to the mother. Now in the present life the guy is terrified of having kids. But he doesn't know this because the past life history is unavailable to him.

2. Once the trapped energy is identified it can be released. The feelings upon release vary. Some experience a massive energy surge, for others it is more subtle. It is LIBERATING all the same.

The challenge of the soul is to have a decent grasp on the negativity and handling of polarity transmutation in this life. Once much of the negative energy is dissolved around one then the soul is ready to look at and repair past lives.

With each challenge the soul grows and develops. Destructive life patterns are here to teach us valuable lessons. Let us learn what we can from them, and then move on to the next challenge!

Is is a fact that BLOCKAGES are tied to you until they are dealt with and released. Resistance intensifies life's problems. The old metaphysical saying: "What We Resist Persists" refers to the downward spiral we sometimes find ourselves locked into without escape.

If we can FEEL grateful for every difficult challenge we come into a vibration of power. But you have to go past the intellect. Every rotten person you ever encountered taught us something. Every failed relationship enlightened us a little more.

Yes this INCLUDES, yet it is more than, psychic development. It is soul development in all of its totality

Hi, I've been reading through all the 4 e-books in a couple of days, FWIW I found the site through googling words "gnostic" and "chakra" and came to an article on the site. I once literally didn't believe the time when I stopped to go to sleep, that I had been pretty much just reading for 12 hours straight! (including of course every one of the submissions relating to the Argentine junta torture, I felt you were just GODAMNN DARING someone to skip! even just that reading time duration yet relentessly personaI nature of trauma all by itself would mean never being the same again after finding your website!)

I'd like to receive the video course, but also wonder whether you would provide some perspective for me on some odd things that have happened to me that I didn't understand, I was amazed to read in the book the experience of [Dan, I think] and realizing what has happened to me may be similar and you can help me understand it after feeling very alone with these things. I will write it in a longer form in new email if you will be willing to read and comment

Hi Satchi:

Thank you very much!

I just posted a review for the book that I bought from

Amazon. I don't often post reviews but your work is absolutely the best thing I've found in this life. So beautiful and so encouraging.

I love the way the view of our lives is about evolving our souls. It takes away that poor me feeling or wondering why me when there are such huge life challenges; along with providing the roadmap to heal and evolve; to hopefully become enlightened.

I can't believe there are not hundreds of positive reviews on Amazon. I know you do get many positive reviews via e-Mail and I know you earned every positive comment.

I tend to communicate my positive feelings about people a lot. It is a habit that I developed as an Army Officer and mother. And it was good for both my soldiers and my children. Anyways I mean what I say but if I seem like I am flattering please tell me. Hopefully the review gets posted.

I intend to buy your other two paperbooks as well and will add positive reviews too.

I did another meditation and the focusing was better. I felt like crying afterwards. I read where you said to someone else that happens from not grounding. So I did a bit more trying to visualize what I had cleared as ash going down into the ground. Little be little. Day by day!

Now off to get work done.
Wishing you a great day!

The Process of Enlightenment,

My job is to try to present to you the truth as best as I can distinguish it.

The intelligence process goes through what is called the "Four A's": Acquisition, Analysis, Acceptance, Action.

The first one is "getting the data/info". The second one means making sense of it and presenting it to your "client" (in this case: all of you). The third one is always overlooked: acceptance by the "client" – i.e., the willingness to hear the analysis. This is the part which YOU (collective "you") must do.

Last is action.

The actions I recommend are the avoidance of poison, and the active getting the poison out of the body, physically, emotionally, mentally, spiritually with the Energy Enhancement Five Level Video Meditation Course... Deprogram, Become normal. Spread the plan.

Agnisar Kriya to create Super Chi by strengthening the internal organs and to increase and control kundalini energy - see video - as a preliminary to pranayana to increase the oxygen partial pressure in the lungs whilst holding the breath.

Agnisar has the incredible effect - the basis of .. greater health, strength, increasing the chi, reducing the tummy, and exponentially increasing the energy.

In Sanskrit the word 'Agni' means fire and 'Sar' means essence. The meaning of this Kriya is thus the one which has the essence of fire. It is the Kriya that creates fire inside.

Loosh Spiritual Energy Leeches in the Night

Enter the Sexual Energy Addiction Blockage passed on through Onlyfans and Sex by Lilith: The ultimate sex addiction energy blockage succubus, an “Energy Vampire Succubus Seductor” implanting during sex to addict and drain. “Lilith is the Witch, the Succubus, The Sexual Implant which Vampirises your Energy and sends it back to the Implanter.” She and incubi (male counterparts) vampirize via masturbation, nocturnal emissions or rituals: “The demon thought forms sired by Lilith... derive from the seed of man spilled during masturbation... This essence contains the life-force.”

They’re “Suck-ubus Succubus Hookers,” turning partners into energy slaves: “We have beautiful women and men... implanted with the Succubus Demon... to ‘Hook’ their prey, suck their energy, suck the energy of the orgasm.”

This perverts evolution into psychopathy, with cords channeling Loosh Spiritual Energy back. “If this strikes a chord then look for the implanted succubus demon within yourself,” often in the base chakra. Exorcise them with the Seven-Steps: “Remove the Succubus and incubus Demon by means of the Energy Enhancement Meditation Seven Step Process.”

Breaking the Loosh Spiritual Energy Farm: The Energy Enhancement Revolution

This is your red pill: Humanity's a Loosh Spiritual Energy battery for astral overlords, but Energy Enhancement hands you the tools—Seven-Step Process, third eye activation, chakra fusion—to ground the darkness, sever cords, and tap infinite energy.

RING OF GYGES - "CONCEALMENT OF WICKEDNESS"
BY HUMAN SACRIFICE

AGAINST SATANISM VOLUME TWO

The Secret History of the Modern World and the Battle for the Future - The "One Ring" of Gyges of Plato's Book, Republic - A Comparison between Ring of Gyges of the Hobbit and the One Ring of the Lord of the Rings with reference to the effect of Eugenic No Heart Plato and No Soul Aristotle on the Secret History of the Modern World and Satanic Globalism - the Battle for the Future.

The difference between the simple Ring of Gyges of the Hobbit and the One Ring of the Lord of the Rings is - "into this ring he poured all his cruelty, his malice and his will to dominate all life" -

The difference is this energy of cruelty - "By our sinning and Ritual human sacrifices, and Ritual human sacrifices and sinning, the gods will be propitiated, and we shall not be punished" - Plato's Republic

Used for one purpose "The Concealment of Wickedness"

Plato's Republic - WHAT IS THY NATURE? SATANIC ADEIMANTUS

"Appearance Tyrannizes over Truth and is Lord of Happiness"

Adeimantus of Collytus (432 BCE – 382 BCE) son of Ariston of Athens was also known as Plato's brother. In Plato's Republic, Adeimantus questions whether they would be living a good life with little or no personal property. Consequently, Adeimantus is often associated with greed or love for money in interpretations of the dialogue.

He quotes Pindar (522 – 443 BC) an Ancient Greek lyric poet from Thebes– "Can I by justice or by crooked ways of deceit ascend a loftier tower which may be a fortress to me all my days? For what men say is that, if I am really just and am not also thought just profit there is none, but the pain and loss on the other hand are unmistakable. But if, though unjust, I acquire the reputation of justice, a heavenly life is promised to me."

"Let us be consistent then, and believe both or neither. If the poets speak truly, why then we had better be unjust, and offer of the fruits of injustice; for if we are just, although we may escape the vengeance of heaven, we shall lose the gains of injustice; but, if we are unjust, we shall keep the gains, and by our sinning and Ritual human sacrifices, and Ritual human sacrifices and sinning, the gods will be propitiated, and we shall not be punished."

And here is where the elite get all their negative energy or as we call it in Energy Enhancement - Trauma-Formed Negative Karmic Mass.. from Ritual Human Sacrifice - a Satanic Ritual used in all civilisations on All Continents by the Satanic Elites for tens of Thousands of years.

Yes Satanism, the Occult Cult was created 10,000 years ago before Christ, and has been extant since that time in order to create the psychopaths which rule humanity, grind us down, make us into feudal wage slaves barefoot and back on the reservation, buying everything from the Amazon company store!

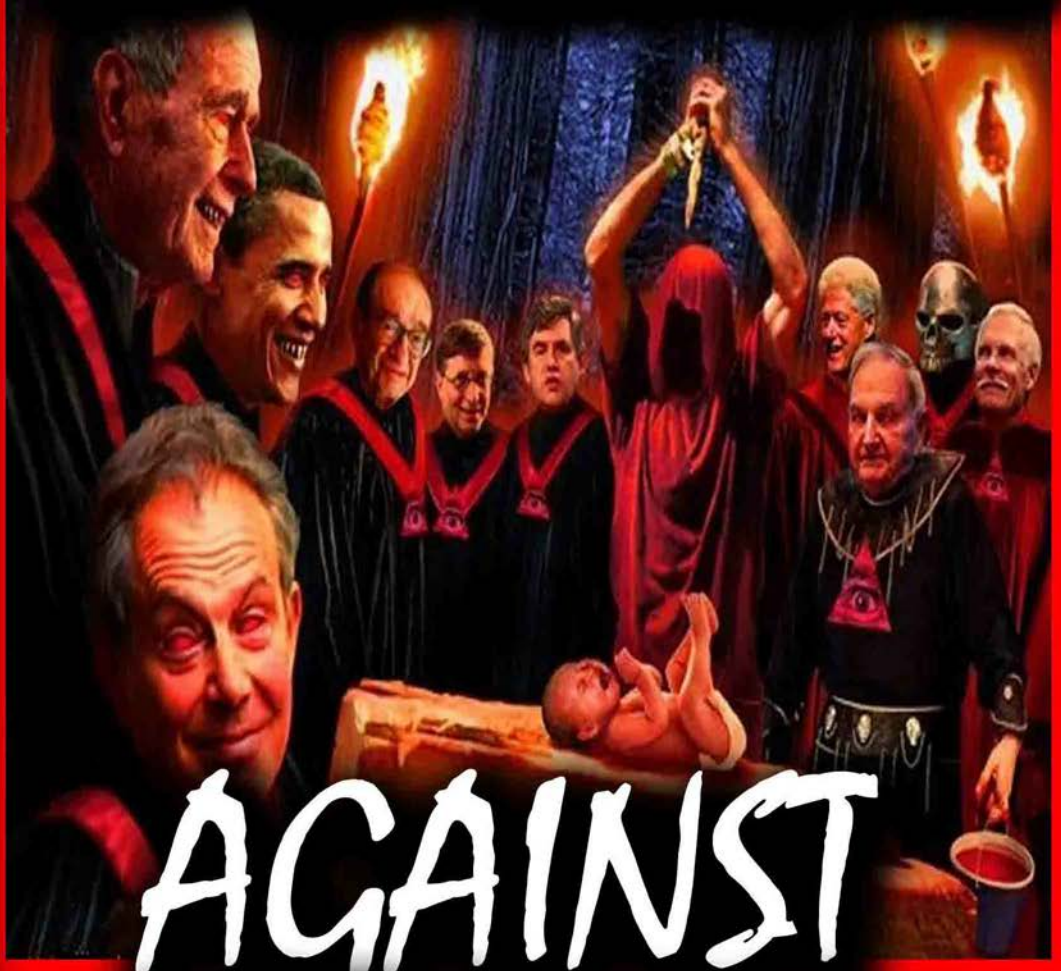
HUMAN SACRIFICE



AGAINST SATANISM

SATANISM - 10,000 YEARS OF TOTAL CONTROL

AGAINST SATANISM VOLUME 3
SATANIC RITUALS AND HUMAN SACRIFICE

Sometimes people reading the Truth get depressed by it.

For people with big hearts though, the truth gets them started with an Implacable Opposition to Absolute Evil.

The Battle of Armageddon can only be won by sufficient Angels to fight against the Demons. Be an Angel!!

The point of this introductory missive is that 72 Empires have been recorded and every one of them has failed in the same way. The facts have been recorded that a totalitarian and satanic elite infil-traitored and took over all these Empires and that 72 once free, flourishing and rich republics were destroyed from within.
Infil-traition of Satanism is the methodology as slowly every Government Ministry and Societal function is taken over. Eventually a Satanist becomes King Emperor President. The Satanist Pillars of Homosexuality, Pederasty, Drugs and Ritual Sex - both Hetero and Homosexual - are introduced overtly and the society is destroyed.
The Ancient Enemy who counts meditation and the mind control psychic arts as one of its main planks of World Domination has used Satanic Infil-Traitors for 10,000 years in every Organisation - Religion, Left and Right Politics, Dynastic Families, Geopolitics, Economics, Universities, Intelligence Services, Think Tanks, Banking, International Companies, Eugenics -
All of them Censoring Worldwide, Advanced Meditation techniques - Alchemical VITRIOL, the Kundalini Key and Energy Blockage Removal from every Meditation Program.. EXCEPT ENERGY ENHANCEMENT!!

The key is that the Satanic Religion and its current recruiting cults of Freemasonry and the Crowlean Sexual Ritual OTO - Ordo Templi Orientis - are Fake Gangs, created by men as a 10,000 years old technique to create psychopathic leaders and thus conquer the world.
All Rituals, Religion, Education, Secret Services and Political Movements have been Scientifically Engineered to create Fake Gangs for 10,000 Years. It's what the old Roman Empire, and the Babylonian Empire, and the Cult of Apollo, and the Byzantine Empire did before.

As you know, all the gangs have Rituals before you can join, making your bones with the Mafia means you must murder someone before you can join and Drug Cartels, secret groups within the Masons, the Hellfire Club, all have their Rituals before you can join and before you can progress.
All Rituals, Religion, Education and Political Movements are designed to create fake gangs of psychopaths who can then be used to create control through chaos created poverty - The Oligarchic Policy of Poverty - destroying infrastructure - preventing human evolution.

SATANIC HITLER

AGAINST SATANISM

10,000 YEARS OF TOTAL CONTROL

AGAINST SATANISM VOLUME 4
SATANIC HOMO OCCULTISM SATANIC HITLER

Satanic Communism and Fascism is gradually being instituted as the New World Religion defined by Satanic Ritual.

72 Empires have been recorded and every one of them has failed in the same way. The facts have been recorded that a totalitarian and satanic elite infil-traitored and took over all these Empires and that 72 once free, flourishing and rich republics were destroyed from within by Satanic Ritual.

From South America Incas and Aztecs to Satanic Pagan Odin, Cybele and Attis, Baal and Molech, and the Holy Inquisition, Ritual Human Sacrifice and burning alive and Ritual Homosexuality, Sodomy and Pedophilia has been endemic for Thousands of Years.

Read Against Satanism Volume Two - The Foundation of Western Philosophy is Pagan, Satanic, based on No-Heart Plato and No-Soul Aristotle. Plato's Republic (c.370 BC) propounded the "Concealment of Wickedness" and the use of Ritual Human Sacrifice to placate the Gods of Karma. Plato's Republic's ideal state is based on Sparta - The Spartan society was dominated by a rigidly Hierarchical and Elitist Pedophile Warrior Cult that featured mandatory induction of twelve-year-old boys into Homosexual Partnerships with adult men, and which Plato argues should be ruled by Autocratic Dictator Philosopher-Kings. The Republic propounds the Eugenic elimination of the family and the elimination of private property.

Infil-traition of Satanism is the methodology as slowly every Government Ministry and Societal function is taken over. Eventually a Satanist becomes King Emperor President. The Satanist Pillars of Homosexuality, Pederasty, Drugs and Ritual Sex - both Hetero and Homosexual - are introduced overtly. Christianity and Judaism - the bulwarks Against Satanism - are destroyed and then society fucked through the fear of Ritual Human Sacrifice.

The Ancient Enemy who counts meditation and the mind control psychic arts as one of its main planks of World Domination has used Satanic Infil-Traitors for 10,000 years in every Organisation - Religion, Left and Right Politics, Dynastic Families, Geopolitics, Economics, Universities, Economics, Intelligence Services, Think Tanks, Banking, International Companies, Global Warming, Eugenics -

Read Against Satanism Volume One - Satanic Karl Marx created Communism for Ambassador Urquhart of British Secret Services writing Das Capital in his Office in the British National Library in London. Communism was used by British Agents Satanic Lenin and Stalin and Satanic 33rd Degree Freemason of Yale University, Mao to take over Russia and China torturing and killing 160 millions of people.

All of them Censoring Worldwide, Advanced Meditation techniques - Alchemical VITRIOL, the Kundalini Key and Energy Blockage Removal from every Meditation Program..

EXCEPT ENERGY ENHANCEMENT!! The Energy Enhancement Video Course - energyenhancement.org

Read Against Satanism Volume Three - Satanism is Defined by Satanic Rituals - These Rituals Define Satanism.. Loveless Ritual Sex, Sodomy, Pedophilia, Ritual Drugs, Ritual Blood Sacrifice, Ritual Human Sacrifice, Ritual Torture, Ritual Burning Alive, Ritual Cannibalism, Ritual Castration.

This means Pedophilia Sex Rituals and means the Totalitarian Fear Control of Human Sacrifice. As presently occurs in Totalitarian No-Soul Communist China. Christians, Buddhists and Falun Gong are executed in special organ harvesting vans - Human Sacrifice.

They have ten of these vans in every city and they work all day long taking fresh organs to the airport for implantation in Japan. The organs harvested and sold to Rich Oligarchs Worldwide

Read Against Satanism Volume Four - SATANIC HOMO-OCCULTISM AND THE HOMOSEXUAL ROOTS OF FASCISM - Black Magician Homosexual Hitler created homosexual Cults based upon Black Magic - taught to him by Guido von List and the Armanen Order, Jorg Lanz von Liebenfels and Ariosophy, The Thule Society, Madame Blavatsky and the Theosophical Society, and Friedrich Nietzsche.

Because the Torah and the Bible prohibit Homosexuality, in order to introduce Satanism and its Satanic Rituals, Hitler decided to destroy Judaism and Also he changed Christianity - Jesus - into a Sun God associated with Odin by sending all Clerics to the Concentration Death camps along with the Satanic Ritual Burning Human Sacrifice Holocaust of Six Million Jews.

After that Hitler allied with Islam because Islam promotes Jihad Warrior Spartan Pedophilia and Sex Slavery of Women - "Women for breeding, boys for love" See, Thousands of Muslim child prostitutes in every city of Britain - Rochdale child sex abuse ring.. https://en.wikipedia.org/wiki/Rochdale_child_sex_abuse_ring

Hitler's NAZI is Satanic National Socialism, an offshoot of Satanic No-God Communism - You can see this plan occuring in Western Civilisation and China, everywhere, NOW!!

"What we are trying to do in this meeting today is to give you a new view of how the real economy works today and teach reality economics, instead of the parallel universe that you have in economic textbooks.

So, instead of learning how the economy operates, students are told how a parallel universe might operate on a different planet, if there were no government, if there were no fraud, if the entire economy operated on barter, if there was no debt, and that everybody wanted to help everybody else, that nobody inherited money, that everybody earned all of the income and wealth that they have. The reality is the opposite, but it seems to be talked about only in novels these days.

"Whenever you have a misunderstanding of reality year after year, decade after decade, and now for a century, when a false picture of the economy is painted you can be sure that there is a special interest benefiting. A false picture of reality does not happen by nature; it is subsidised. And the banking sector has subsidised and paid for a junk economics that is taught in the universities, broadcast from your newspapers, mouthed by the politicians, whose election they sponsor, to try to make you believe, that you're living on Mars in a different kind of a world—instead of the actual country that you're living in—and to pretend that there is no financial class that is trying to grab what belongs to the public at large.

This is what ends up with a difference between central bank creation by the government with the government aims of economic growth and full employment, as compared with commercial bank credit that aims at economic shrinkage, at austerity, at lower wages, at lower output, so that it can do to you what the commercial banks are doing to Greece, to say give us your ports and your land and your tourist areas and your water and sewer systems, so we can charge you for water and sewer. And we can take the money that you had expected to get in pensions and we can scale it down, so that we can pay ourselves.

"This is what it took an army in times past. And today it's done without an army, as long as you will be passive and believe the Lies, the science-fiction of the world that banks are painting. Thank you. [Applause]"

Remember, the main purpose is not money or power, it is in fact the Satanic Oligarchic Principle of Poverty. Dummed Down, Barefoot, and Back on the Reservation.

SATANIC HISTORY TWO

AGAINST SATANISM

Vol. 6

AGAINST SATANISM VOLUME SIX

Infiltrating Bloodline Phoenician/Jewish aristocratic Families have existed for over 5000 years before the Birth of Christ. Using emotional rhetorical religious concepts to control, they worship all the Pagan Gods, including Lucifer, Satan, Baal, Bel, Molech, Ashtoreth, Cybele and Attis including all the Satanic Rituals in Against Satanism Volume 3 - RITUAL SEX, RITUAL DRUGS, RITUAL BLOOD SACRIFICE, RITUAL HUMAN SACRIFICE, RITUAL PEDOPHILIA, RITUAL TORTURE, RITUAL BURNING ALIVE, RITUAL CANNIBALISM, RITUAL CASTRATION.

In this book we find that over thousands of years, spook, Bloodline Phoenician/Jewish aristocratic Families infiltrated every country, every Empire, taking over or infiltrating every ruling aristocracy and aristocratic, bloodline family, in Europe, Britain, America, India, China and in every other country in the World.

Jewish/Phoenician aristocrats were never attached to any tiny nation, but were always one globalized trading empire from 2000BC, playing countries against each other for profit. For example using a false Flag to start a fake war between ruling elites in separate countries both of which have been allowed, built up, to become rich, but all the elites in each country coming from the same Infiltrating Bloodline Phoenician/Jewish aristocratic Families, and then buying all the assets for pennies on the dollar after the war. Not only that, giving loans to each country to prosecute the war, owning the Military Academic Industrial Complex providing materiel for the war.

Many Infiltrating Bloodline Phoenician/Jewish families who have ruled the World as one trading block for thousands of years before the Birth of Christ came from the Fertile Middle East Crescent including Lebanon, Libya, Syria, Israel, Mesopotamia-Iraq, and Persia-Iran, and had that region and all it's Empires razed many times over nonetheless, profiting from each destruction. They hop to and fro over the planet, always profiting by shifting, reshuffling and breaking their Empires.

We saw that the important conquests are not in our history books as such. Rather, Europe was colonized in the Bronze Age already, in patterns that match up with structures we see in today's spook aristocracy. The entire upper class of colonized regions was replaced by Phoenician/Jewish families, with common people unaware of it to this day. Some of this colonization is cautiously admitted, just not emphasized.

We saw that the Infiltrating Bloodline Phoenician/Jewish families always held power. The secret behind their power is simply that there is no big secret. They don't know anything special. They can't do anything special. They never achieved anything special —other than monopolizing trade. With the power to deceive from the Father of Lies, owning all the media, - The CIA, the Military Academic Industrial complex, Universities, History, Books, Magazines, Newspapers, Television, Youtube, Facebook, Google - even idiots can rule the world for millennia.

“In the event that I’m reincarnated, I would like to return as a deadly virus, in order to contribute something to solve overpopulation”
Prince Phillip of England

These Satanic Malthusians Demand Genocide

"Human population growth is probably the single most serious long-term threat to survival. We're in for a major disaster if it isn't curbed...We have no option." —Prince Philip, interview in People Magazine, December 21, 1981

"In the event that I am reincarnated, I would like to return as a deadly virus, in order to contribute something to solve overpopulation." —Prince Philip, Deutsche Press Agentur, August 1988

"It is almost self-evident that the greater the human population, the greater the demands for natural resources... The paramount question deals with an optimum human population. How many is too many people in relation to available resources? Many believe that our current (satanically consciously created) environmental problems indicate that the optimum level has been surpassed." —Task Force on Earth, Resources and Population, George H. W. Bush, Chairman, July 8, 1970

POST MORTEM

Unfortunately, all the obituaries were premature: Venice has continued to be very much alive. During the nineteenth century and up to our own time it has been the most important single incubator for fascist movements. With its military and financial power largely emigrated elsewhere, Venice's importance for political culture is now greater than ever.

Examples of this are inexhaustible. Richard Wagner wrote part of Tristan und Isolde while living in the Palazzo Giustinian on the Grand Canal. One story has it that the leitmotif of the Liebestod was inspired by the mournful call of

a gondolier. At the end of his life Wagner moved to Palazzo Vendramin Callergi, where he died. This building, presently a gambling casino, was also the home of Count Coudenhove-Kalergi, the founder of the Pan-European Union. Friedrich Nietzsche loved Venice, returned there incessantly, and dedicated certain poems to the city which today can still be used in lieu of a powerful emetic. Venice was an inspiration for Lord Byron, for Thomas Mann, and so on.

Other examples abound of how the Venetian oligarchy's cultural and political influence has reached down into the modern era:

* When British East India Company retainer Thomas Malthus published his Essay on Population he was plagiarizing from the Venetian Giammaria Ortes, who produced, around 1750, a fully developed version of the argument that geometric population growth outstrips the much slower arithmetric progress of food production.

* John Ruskin, the leading ideologue of the British Dark Ages faction, began his career with a raving treatise on architecture, The Stones of Venice (1851). This volume popularized the notion that a "Venetian Gothic" style had been developed in the better times of the city's history (which for Ruskin ended in 1418) and it was used systematically to discredit the Golden Renaissance.

* A turn-of-the-century new Roman Empire faction led by Venetian Count Volpi di Misurata, who was known as the doge of his era, sponsored the fascist Mussolini supporter Gabriele D'Annunzio to drum up enthusiasm for a new crusade into the Balkans and the East. Volpi became finance minister in Mussolini's cabinet, along with a very large number of other Venetians. D'Annunzio incited the Italians to take back Trieste, the rest of Italia Irredenta, and the Dardanelles, bringing on to center stage the so-called Parvus Plan for dismemberment of the Ottoman and Russian empires, which is generally recognized as the detonator of World War I. It is

possible that the turn-of-the- century super spook Alexander Parvus was ultimately employed by Venice.

* The Societe Europeenne de Culture, a think tank created in 1950 through the efforts of Venetian intelligence operative Umberto Campagnolo, has for the past three decades pulled intellectuals from both East and West into organizing for an "international culture," based on rejecting the existence of sovereign nations. The SEC counted among its members the cream of the postwar intelligencia: Adam Schaff of Poland, Bertolt Brecht of East Germany, Georg Lukas of Hungary, and Boris Paternak of the Soviet Union, as well as Stephen Spender and Arnold Toynbee, Benedetto Croce and Norberto Bobbio, Julian Huxley and Thomas Mann, Francois Mauriac, and Jean Cocteau. Later, the SEC launched the Third World national liberation ideology.

Today, the Club of Rome is the institution that represents the most concentrated essence of Venetian influence and the Venetian method. The Club of Rome wants to convince the great powers and peoples of the world to commit collective suicide by accepting the genocidal doctrine of zero growth. It also hopes to abolish the sovereign nation as a vehicle for economic growth and scientific progress.

Club of Rome founder Aurelio Peccei has just written a new book titled One Hundred Pages For the Future, a global review of the impact of the Club of Rome, and particularly since its 1972 release of the zero-growth model Limits to Growth was published, a series of social movements has sprung up under the sponsorship of the ideas in the book. These – the women's movement, the peace movement, Third World national liberation movements, gay rights, civil liberties, ecologists, consumer and minority rights, etc. – must now be welded together into one movement for a single strategic goal: the implementation of a zero-growth international order.

The Venetian problem remains with us today. Truly, the most urgent task of this generation of mankind is to definitively

liquidate the horror that is Venice and all the other Gang Clan Families who have ruled the World for 10,000 years.

The Satanic Conservative outpost of the Satanic Phoenician Navy who for 10,000 years have worshipped Molech, Baal and Cybele and Attis, and with Satanic Ritual, it's not just Sex on Altars like in Kubrick's, "Eyes Wide Shut", it is Pedophilia with Babies and Children supplied by Epstein, Dutroux or Jimmy Savile, it's Ritual Human Sacrifice, Ritual Blood Sacrifice, Ritual Burning Alive, Ritual Torture, Ritual Castration - and those Damn Liberals by Miles Mathis and Satchidanand

The founding fathers have even been sold as liberal in this sense, since although they were rich guys, fully connected, we are supposed to believe they believed in democracy, republicanism, and fairness in general. That is why they go on and on about that in the Declaration of Independence and Constitution. Those are liberal documents, in that they deny not only the divine rights of kings, they deny any other sort of favoritism based on name or birth.

As it turns out, the founding fathers were not liberal at all. They were Satanic fascists, and the whole liberal stance was just another con-job.

The United States were never meant to be republic, much less a democracy, they were meant to be another outpost of the Satanic Phoenician Navy who for 10,000 years have worshipped Molech, Baal and Cybele and Attis, and more worship with Satanic Ritual, it's not just Sex on Altars like in Kubrick's, "Eyes Wide Shut", it is Pedophilia with Babies and children supplied by Epstein, Dutroux or Jimmy Savile, it's Ritual Human Sacrifice, Ritual Blood Sacrifice, Ritual Burning Alive, Ritual Castration.
Some of my readers have been confused by my insistence that I am a liberal. These readers agree with me on a lot of things, so they can't fathom what I mean by calling myself a liberal while they consider themselves conservatives. Since it is important, I will hit it again, trying to get them to understand.

I think the difference is that I am coming at this as a student of history, while many of them are coming at it as students (or consumers) of current politics.

I haven't gotten my definitions and stances by listening to Rush Limbaugh, or Sean Hannity, I have gotten them from texts from the 19th century or earlier. My readers will answer me, "Then why don't you keep up, Holmes! This is 2020, not 1880". Good point. . . except that it isn't.

To see what I mean, let's transport ourselves back to the 1880s. Back then, satanic conservatives were those people who wished to conserve the status quo. Hence the name. They were quite satisfied with the way things were set up, and why should they not be?

They were rich and connected and had it made. Liberals were those who were not satisfied by the way things were, and so they were pushing for reforms. In general, they wished to see more fairness in government policies. They wanted those not "of the manor born" to be given a fair shot at good employment, good wages, court access, and all the various fruits of society.

The founding fathers have even been sold as liberal in this sense, since although they were rich guys, fully connected, we are supposed to believe they believed in democracy, republicanism, and fairness in general. That is why they go on and on about that in the Declaration of Independence and Constitution. Those are liberal documents, in that they deny not only the divine rights of kings, they deny any other sort of favoritism based on name or birth.

As it turns out, the founding fathers were not liberal at all. They were Satanic fascists, and the whole liberal stance was just another con-job.

The United States were never meant to be republic, much less a democracy, they were meant to be another outpost of the Satanic Phoenician Navy who for 10,000 years have

worshipped Molech, Baal and Cybele and Attis, and more worship with Satanic Ritual.

Iit's not just Sex on Altars like in Kubrick's, "Eyes Wide Shut", it is Pedophilia with Babies and children supplied by Epstein, Dutroux or Jimmy Savile, it's Ritual Human Sacrifice, Ritual Blood Sacrifice, Ritual Burning Alive, Ritual Castration.

Infiltrating Bloodline Phoenician/Jewish aristocratic Families have existed for over 5000 years before the Birth of Christ. Using emotional rhetorical religious concepts to control, they worship all the Pagan Gods, including Lucifer, Satan, Baal, Bel, Molech, Ashtoreth, Cybele and Attis. In this book we find that over thousands of years, spook, Bloodline Phoenician/Jewish aristocratic Families infiltrated every country, every Empire, taking over or infiltrating every ruling aristocracy and aristocratic, bloodline family, in Europe, Britain, America, India, China and in every other country in the World.

AGAINST SATANISM VOLUME SIX

Infiltrating Bloodline Phoenician/Jewish aristocratic Families have existed for over 5000 years before the Birth of Christ. Using emotional rhetorical religious concepts to control, they worship all the Pagan Gods, including Lucifer, Satan, Baal, Bel, Molech, Ashtoreth, Cybele and Attis including all the Satanic Rituals in Against Satanism Volume 3 - RITUAL SEX, RITUAL DRUGS, RITUAL BLOOD SACRIFICE, RITUAL HUMAN SACRIFICE, RITUAL PEDOPHILIA, RITUAL TORTURE, RITUAL BURNING ALIVE, RITUAL CANNIBALISM, RITUAL CASTRATION.

In this book we find that over thousands of years, spook, Bloodline Phoenician/Jewish aristocratic Families infiltrated every country, every Empire, taking over or infiltrating every ruling aristocracy and aristocratic, bloodline family, in Europe, Britain, America, India, China and in every other country in the World.

Jewish/Phoenician aristocrats were never attached to any tiny nation, but were always one globalized trading empire from 2000BC, playing countries against each other for profit. For example using a false Flag to start a fake war between ruling elites in separate countries both of which have been allowed, built up, to become rich, but all the elites in each country coming from the same Infiltrating Bloodline Phoenician/Jewish aristocratic Families, and then buying all the assets for pennies on the dollar after the war. Not only that, giving loans to each country to prosecute the war, owning the Military Academic Industrial Complex providing materiel for the war.

Many Infiltrating Bloodline Phoenician/Jewish families who have ruled the World as one trading block for thousands of years before the Birth of Christ came from the Fertile Middle East Crescent including Lebanon, Libya, Syria, Israel, Mesopotamia-Iraq, and Persia-Iran, and had that region and all it's Empires razed many times over nonetheless, profiting from each destruction. They hop to and fro over the planet, always profiting by shifting, reshuffling and breaking their Empires.

We saw that the important conquests are not in our history books as such. Rather, Europe was colonized in the Bronze Age already, in patterns that match up with structures we see in today's spook aristocracy. The entire upper class of colonized regions was replaced by Phoenician/Jewish families, with common people unaware of it to this day. Some of this colonization is cautiously admitted, just not emphasized.

We saw that the Infiltrating Bloodline Phoenician/Jewish families always held power. The secret behind their power is simply that there is no big secret. They don't know anything special. They can't do anything special. They never achieved anything special —other than monopolizing trade. With the power to deceive from the Father of Lies, owning all the media, - The CIA, the Military Academic Industrial complex, Universities, History, Books, Magazines, Newspapers, Television, Youtube, Facebook, Google - even idiots can rule the world for millennia.

REMOVE ENERGY BLOCKAGES

Learn the "Energy Enhancement Anti Energy Blockage Hack Technique" and Free Your Mind Once and for All.

Why has this Energy Blockage predator taken over in the fashion that you're describing, Don Juan?" I asked. "There must be a logical explanation."

"There is an explanation," don Juan replied, "which is the simplest explanation in the world. They took over because we are food for them, and they squeeze us mercilessly because we are their sustenance. Just as we rear chickens in chicken coops, gallineros, the predators rear us in human coops, humaneros. Therefore, their food is always available to them."

Don Juan had a broad smile on his face. He was as pleased as punch. He explained that sorcerers see infant human beings as strange, luminous balls of energy covered from the top to the bottom with a glowing coat something like a plastic cover that is adjusted tightly over their cocoon of energy. He said that that glowing coat of awareness was what the predators consumed, and that when a human being reached adulthood, all that was left of that glowing coat of awareness was a narrow fringe that went from the ground to the top of the toes.

If we consider a human being as containing seven parallel chakra processors within the body and an infinity of parallel chakra processors above the head and below the base, connecting us to the Universe, then the more of these parallel chakra processors we can access, the more intelligence we have - What stops the access to these parallel chakra processors is Energy Blockages.

We need to learn how to "Hack" these Energy Blockages to remove them so we can access our native genius. The Geni being the Soul Chakra, the first Chakra above the head.

Yet as we remove more of the energy blockages and access many more chakras, even more intelligence is possible!!

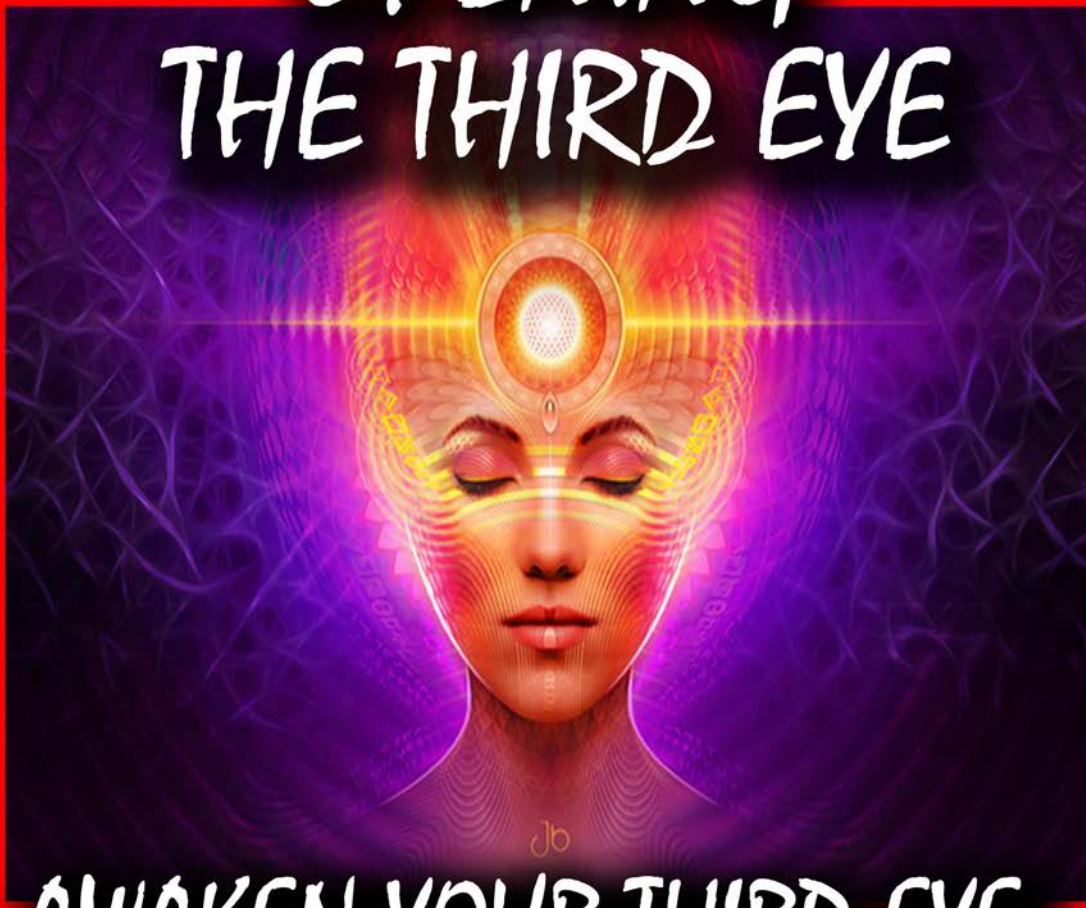
ENERGY ENHANCEMENT OPENING THE THIRD EYE



AWAKEN YOUR THIRD EYE IMPROVING PSYCHIC SIGHT

OPENING THE THIRD EYE

The conscious rocking backwards and forwards at the Start of your EE practice is to get your spine into alignment with the Kundalini energy from the center of the earth out into the center of the Universe..

to power your Psychic Vision, to Open your Third Eye...

Antaeus was killed (the process of Illumination requires the ability to get out of the body into the higher chakras, the same path we take when we die, but without the advantage of being able to come back along the Silver Chord) Antaeus was killed by suspending him in a tree - SEE THE MYTH OF ODIN IN AXIS MUNDI where Odin spent 9 nights supended in the Axix Mundi Tree above the Crown Chakra in order to become Illuminated and gain psychic vision - make all his sight one in the third eye.

We eventually get into a state of energy transfer. We both feel it as white light flowing from one to the other in an incredibly intense way which lasts for two hours. At the end of that time I perceive an initiation which is taking place on the astral plane. Surrounded by a group of ascended masters I introduce him to the chief initiator who uses the rod of initiation to touch his third eye with the intense energies of initiation so that his energies can never again drop into that state we call normal waking consciousness.

The Antahkarana Also refers to the Unicorn - So, by removing the Blockages of Ajna Chakra the Psychic Powers of the Third Eye and of the Rainbow Bridge, a Horn emanating from the Crown Chakra leading to Wisdom, Psychic Vision and the Actualisation of all our Dreams, Our Soul Path which we teach in Energy Enhancement Initiation 4.

"COMPLETE INSTRUCTIONS ON ENLIGHTENMENT"- THE ENERGY ENHANCEMENT WAY BY-

SATCHIDANAND

"Now!! Here Are Complete Instructions on Enlightenment" After you have tried all the bad things and found they do not work - Here are complete instructions on how to attain your Infinite Peace. Yoga comes from Yoke. This Yoking or Union with the Higher self and the chakras above the head is Enlightenment.

By the loosening of the cause (of the bondage of mind to body) and by knowledge of the procedure of the mind-stuff's functioning, entering another's body is accomplished.

THE WHOLE WORLD IS CONTROLLED BY MEDITATION..

He who, due to his perfect discrimination - dis-crime-ination or sanskrit, Viveka, is the ability to transmute energy blockages and as they transmute and ground, so they go through the symptoms of the Gunas from Tamas, to Rajas, to Sattvic as the Negative Karmic Mass is grounded - The sword of discrimination is the ANTAHKARANA - the energy connection between all the chakras above the head through the body and below the base chakra to below the Center of the Earth, which feeds energy from higher to lower levels of the hierarchy - this discriminative energy blockage transmuting flow of energy if maintained is called Dharma Mega Samadhi.

The meaning of dharma includes goodness - next to Godness - virtue, justice, law, duty, morality, religion, religious merit, and steadfast decree - all symptoms of being Soul Infused.

Dharma is the energy of the Soul!!

GOODNESS AND MERCY SHALL FOLLOW ME ALL THE DAYS OF MY LIFE AND I SHALL DWELL IN THE HOUSE OF THE LORD FOREVER..

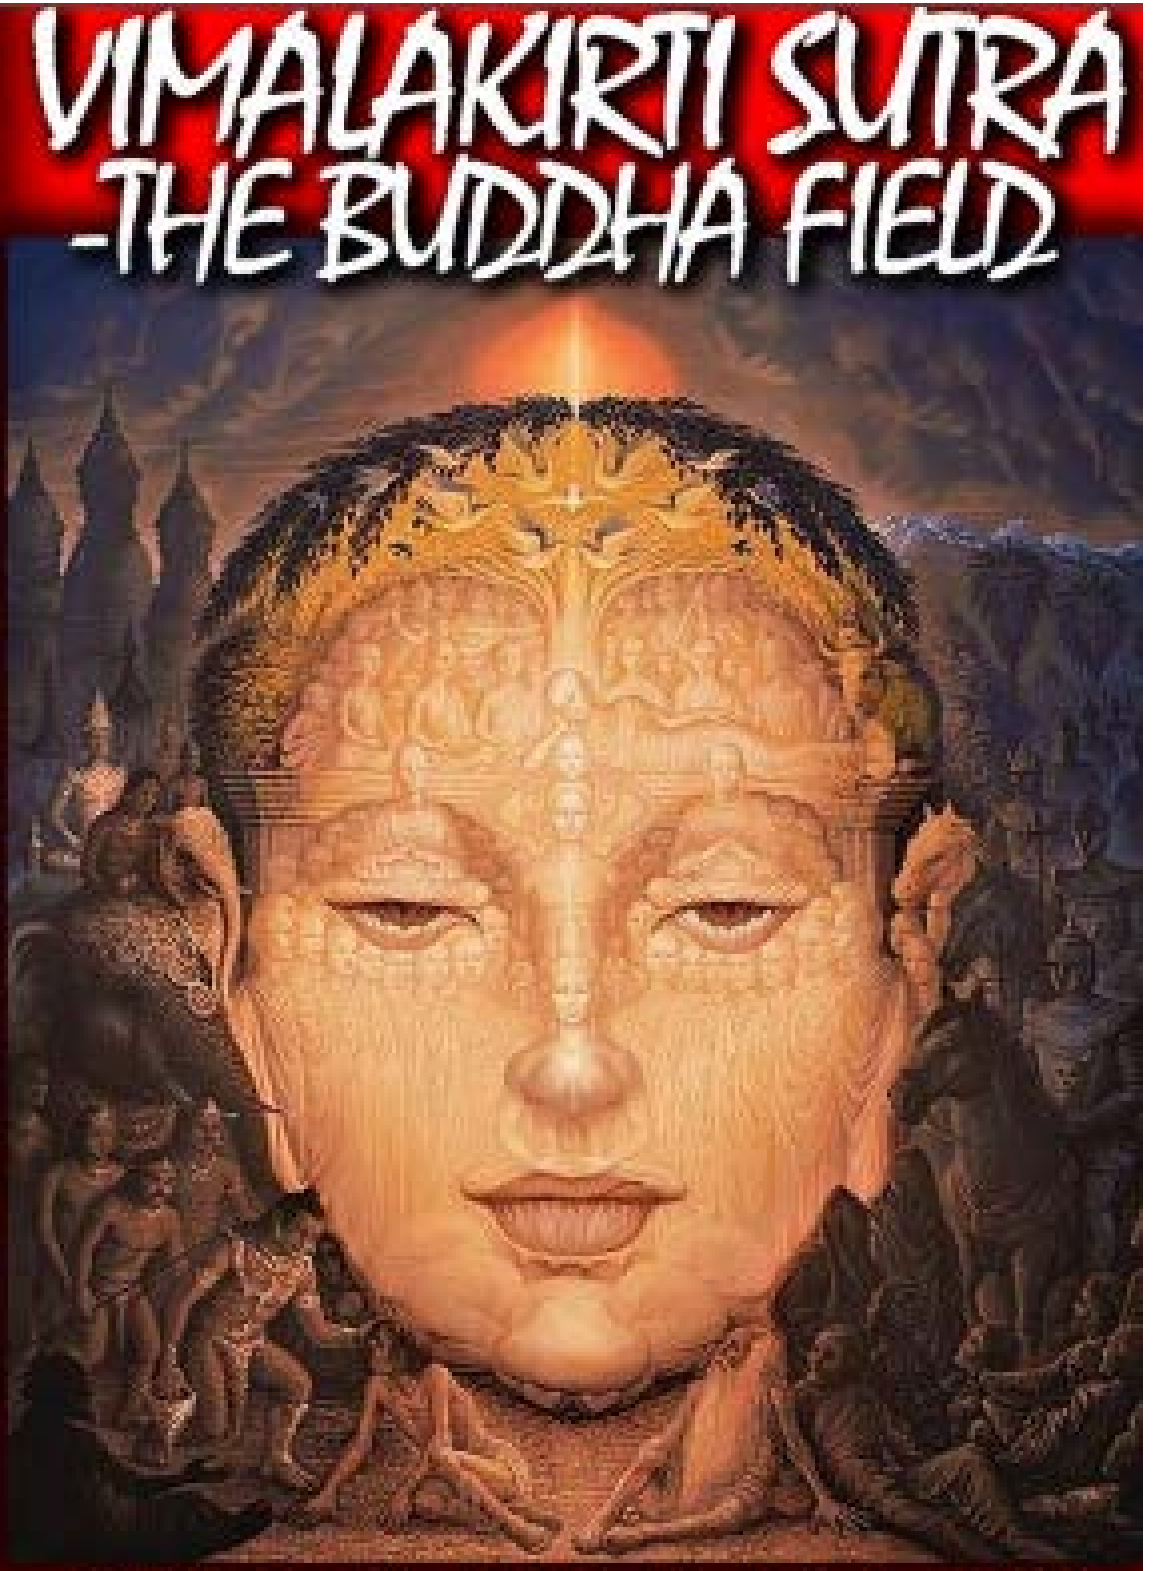
VIMALAKIRTI SUTRA
-THE BUDDHA FIELD



SATCHIDANAND

ENERGY ENHANCEMENT

Vimalakirti Sutra - The Buddhafield

Buddhas, Bodhisattvas, Aryasravakas, and Pratyekabuddhas conquering demons, natural spiritual benefactors of all living beings, free from impurities, expert in knowing the spiritual faculties of all living beings, high resolve as hard as diamond, unbreakable in their faith in Buddha, Dharma and Sangha, they showered forth the rain of ambrosia that is released by the light rays of the jewel of the Dharma, which shines everywhere.

The Purification - the Removal of Energy Blockages - And the Augmentation of Psychic Powers - Caused by the Buddhafield

Inconceivable Skill in Enlightenment Liberative Technique, Dharma, Connection with the Infinite Chakras above the Head - Gnosis, conquered all demons, transcendence of wisdom, tolerance and self-control, respected by Indra, Brahma, and all the Lokapalas

Thereby, thirty-two thousand living beings purified their immaculate, undistorted Dharma-eye in regard to all things.
The eight thousand bhikshus were liberated from their mental defilements, attaining the state of non-grasping.

And the eighty-four thousand living beings who were devoted to the grandeur of the buddhafield, having understood that all things are by nature but magical creations, all conceived in their own minds the spirit of unexcelled, totally perfect enlightenment.

A Zen Master saw a child with a broken arm sitting miserably by the side of the road. This guy was so miserable that the Zen Master just knew he was impervious to being cheered up, To accepting good advice, to being told that, "Everything changes". So he took an iron bar and with it he broke his own arm. Sitting down by the young child he said, "Now we can talk!!"

"The Dharma - The Path of the Soul Chakra - The First Chakra above the Head - permeates evenly all things, because all are included in the ultimate realm. It conforms to reality by means of the process of nonconformity. It abides at the reality-limit, for it is utterly without fluctuation. It is immovable, because it is independent of the six objects of sense. It is without coming and going, for it never stands still. It is comprised by voidness, emptiness, a vibration so high that it is not gross like matter, or emotion, or mind, it is remarkable through signlessness, and is free of presumption and repudiation, because of wishlessness. It is without establishment and rejection, without birth or destruction. It is without any fundamental consciousness, transcending the range of eye, ear, nose, tongue, body, and thought. It is without highness and lowness. It abides without movement or activity.

MEDITATE AND GET RICH VOL.2

YOUR RICHNESS SEED IS A THOUGHTFORM!!

With regard to becoming rich, becoming strong, any mortal thing you want to be – All these things and more are thoughtforms.
They are thoughtform seeds.
And Napoleon Hill talks about growing these thoughtform seeds, actualising these thoughtform seeds, so that they grown like Acorns to become the great Oak trees they were destined to become - and he gives the formula for this Richness tree to come to fruition.
That you actually become rich!
And Napoleon Hill gives in this book these methods – which suit the natural competents, but require everything from those not naturally competent, including a lot of time..

FAITH, AUTO SUGGESTION, IMAGINATION, DESIRE, DECISION, PERSISTANCE, SEX, THE SUBCONSCIOUS MIND, THE BRAIN, THE SIXTH SENSE, HOW TO OUTWIT THE SIX GHOSTS OF FEAR

NOW, HOW WOULD YOU LIKE TO GROW YOUR PSYCHIC OAK TREE IN DOUBLE QUICK TIME?
HOW WOULD YOU LIKE TO SPEED UP THE PROCESS?

The thing about these Thoughtform Seeds is that they are psychic seeds.
These Thoughtform Seeds do not need real Earth, Water, Sunlight and Carbon Dioxide to grow.
No!
These Thoughtform Seeds need Psychic Energy to Grow.
Most Richness and Wealth Courses teach very beginners techniques.
We are taught the Ancient Buddhist Technique of Metta Bhavana – Gratitude - to Open the Heart.
We are taught the Ancient Yogic Technique of Repetition – of Mantra and Visualisation to Life Stream what we want in the Present tense as though we already have it
So we write down what we want on sheets of paper, read them out into audio files, listen to the files constantly, so that we live in our Matrix, not truly alive so as to enter the prayers into our conscious minds so that with years of repetition the thoughtform seeds might grow, clothe themselves in psychic matter and enter in to the Universal Sub-conscious mind and we might actually become rich and everything work out just as we wish.
So, why does it take so much effort by Mantra to become Rich?
The answer is Energy Blockages which stop our connection with the infinite energies of the Earth and the Central Spiritual Sun and which block our little richness thoughtform from the energies that would make it grow superfast!
As I said, Mantra is a very beginners technique. There are Ancient Techniques of the Siddars which quickly develop the Psychic Powers to get what you want quickly and easily.
Everyone who takes the Energy Enhancement Course gets these psychic powers.
The power to connect with the fountain of kundalini energy from the Earth.
The power to connect with Infinite Spiritual Energy which descends from the Central Spiritual Sun.
The most powerful Technique is that of Meditation developing quickly with Energy Enhancement Initiations into Samadhi and Samyama, talked about in the Ancient – 5000 years old - Yoga Book, the Yoga Sutras of Patanjali.
Everyone knows that Meditation is the best, most ancient, fastest and efficient technique to gain Psychic Powers,
There is a whole chapter in the Yoga Sutras of Patanjali on the use of Samyama to gain all the Psychic Powers – gain immense riches, remove all our vows of poverty from our past lifetimes as monks, remove all bad luck and karma, remove everything holding you back, and attain Enlightenment the goal of All our Past Lifetimes.

ELIMINATING THE SHADOW

In this book, Satchidanand trashes the greatest most intellectual investigators and descriptors of the Shadow and the Shadow Subpersonalities. Great People - The Highest of All Humanity - Jordan Peterson, Carl Jung, Nieszche, and every Psychotherapy, Psychological therapist who can describe the problem of the Shadow, talk about the problem of the shadow but have no Practical solution to the Shadow. All of those guys Failed to Solve the Problem of the Shadow. None of these guys have Any practical solution for the Shadow.. And it is the Shadow Subpersonalities which is the Source, The Fount, of All Evil on this Planet... And the Source of All Evil within You!!

Carl Jung says.. "There is no generally effective technique for assimilating the shadow. It is more like diplomacy or statesmanship and it is always an individual matter. First one has to accept and take seriously the existence of the shadow. Second, one has to become aware of its qualities and intentions. This happens through conscientious attention to moods, fantasies and impulses. Third, a long process of negotiation is unavoidable." (Carl Jung)

As Jung notes in the passage above, he thought there is no general technique to integrate the shadow, even though the Buddha and Jesus Christ exemplified the Meditation Technology. For thousands of years great souls have come to earth to demonstrate otherwise, that enlightenment is, "Tat tvam asi" Thou art that!! You are a part of the Universe and have nothing else to seek.

Energy Enhancement Meditation – Spiritual Insight – combined with psychological knowledge is THE complete way of processing and integrating your Shadow Side into wholeness.

Because Energy Enhancement Meditation has actual ancient time-tested meditive techniques that you can use and apply to your Shadow work to Heal All your trauma formed Subpersonalities and Integrate them into the Soul. As long as we have a Shadow Side we have Trauma formed Negative Karmic Mass – pain, fustration, pessimism, depression, anxiety, grief, bitterness, spitefulness, jealousy, anger, greed, lust, addiction, escapism, nihilism. These all need to be addressed and healed – transmuted and integrated.

Energy Enhancement Meditation uses the Psychic Spiritual Center – Third Eye as primary gateway into healing yourself. If we just use psychological analysis then we are limited. If we just use creative therapies, dream exploration, trance-work etc then we are also limited still. This is because we need it all, both sides.

ENERGY ENHANCEMENT MEDITATION – DEEPER THAN THE INTELLECT, MORE PROFOUND THAN THE MIND!

Alchemical VITRIOL is an Ancient Meditation designed to remove Trauma from Memories!! VITRIOL IS A LATIN ACRONYM - VITRIOL. – Visita Interiore Terrae Rectificando Invenies Occultem Lapidem, THE GROUNDING AND TRANSMUTATION OF ENERGY BLOCKAGES – The unification of the conscious and the unconscious., night and day, hot and cold, masculine and feminine. In the center is the Ajna Chakra – Third Eye. The kundalini Serpent has risen from the Muladhara – Base Chakra to the Third Eye Center. The symbolic meaning of its risen state is a raised consciousness that has dissolved duality. A state of Wholeness – Integration – Enlightenment.

"Come together, right now, over me" Singing these famous song lyrics from the Beatles to yourself, You can come together, surpassing your current-self to a higher-self!
